Invitation to review SVA Configurable Items amended for CP1418 as part of the February 2015 Release of BSC Systems

This Circular presents the amended Category 2 SVAA software documentation for your review. Changes to this documentation have been developed for CP1418 as part of the February 2015 Release[1] of BSC Systems (the "February 15 Release") which includes seven approved Change Proposals[2]:

- CP1392: BSCP18 Bid-Offer Acceptance Related Data Corrections to the SAA system via Electronic File Transfer Method (BMRA-I002) instead of manual Email Method (SAA-I033);
- CP1395: Distribution of Configuration Details for Smart Meters;
- CP1418: Validation of D0041 flows;
- CP1419: Improving data accuracy by enabling the D0312 flow to be sent on a Change of Supplier;
- CP1421: Linking BSCP520 obligations to the Operational Information Document;
- CP1422: Add a Defined Metering Point for an Offshore Transmission Connection Point to the HH Codes of Practice; and
- CP1425: Consequential changes to BSCP201 following EMR.

[1] Full details of the February 15 Release are available from the February 2015 Release page of the ELEXON Website.

[2] All Configurable Items relating to these Change Proposals have been reviewed and approved prior to commencement of the Release, with the exception of the Category 2 SVAA software documentation amended for CP1418, which has been developed as part of the Release.
