Date	14 July 2016
To	BSC Parties
From	BSC Operations
Purpose	For information

Planned National Grid BSAD outage: Thursday 21 July 2016

What is happening?

National Grid has notified us that there will be a planned outage between **15:00 (BST)** and **16:00 (BST)** on **Thursday 21 July 2016** which will affect submission of Balancing Services Adjustment Data (BSAD) to the BSC Central Services.

How will I be affected?

The flow of BSAD (both DISBSAD and NETBSAD) to BSC Central Services will be disrupted during this period and though the half hourly indicative Settlement calculations will continue, they will use default data.

The Balancing Mechanism Reporting Agent (BMRA) will not re-run indicative Settlement calculations on any impacted Settlement periods following the completion of this planned outage.

What do I need to do?

You do not need to take any specific action but just note that the BMRA's calculations will be impacted during this outage.

Do I need to take any further action?

If you have any questions regarding the impact on Settlement calculations or processes, please contact bscservicedesk@cgi.com.
