Date	16 January 2009

Invitation to Review of CVA Code Subsidiary Documents amended for the [June 09 BSC Systems Release \(P215\)](#)

Purpose

This Circular invites you to review the documents that are being amended for the June 2009 release. A review form has been sent with this circular which you can use to return any comments you may have on the changes to the documents. Please email your comments using the form provided to releases@elexon.co.uk by 17:00 on Friday 30 January 2009.

Background

The documents listed below have been amended as a result of [modification P215](#) "Revised Credit Cover Methodology for Generating BM Units (Approved)".

Modification P215 seeks to modify the BSC to allow Final Physical Notifications (FPN) to be used in the calculation of Credit Assessment Energy Indebtedness (CEI) for 'generating BM Units', instead of Credit Assessment Load Factors (CALF) and Generation Capacity (GC), in order to improve the accuracy of the Credit Cover arrangements for 'generating BM Units'.

Documents being changes for June 2009 Release (modification P215)

The following documents are being amended for [modification P215](#) "Revised Credit Cover Methodology for Generating BM Units (Approved)" and can be found on the [June 2009 release documentation pages](#):

- CDCA Service Description
