

## CVA Change Circular

---

<b>To</b>	CVA Change Circulars
<b>No.</b>	CVA CC221
<b>Purpose</b>	For Review by 17:00 on 17 April 2009
<b>From</b>	Change Implementation Team
<b>Date</b>	03 April 2009

---

### **Invitation to review further CVA Code Subsidiary Documents created or amended for the June 09 BSC Systems Release (P226)**

#### **Purpose**

This Circular invites you to review the CVA Code Subsidiary Documents that have been created or amended for the June 2009 Release. A review form has been sent with this circular which you can use to return any comments you may have on the documents. Please email your comments using the form provided to [releases@elexon.co.uk](mailto:releases@elexon.co.uk) by **17:00 on Friday 17 April 2009**.

#### **Background**

The documents listed below have been created or amended as a result of Approved Modification P226 'Improving Large Combustion Plant Directive Information Disclosure'.

Modification P226 seeks to modify the BSC to create an obligation on BSC Parties, in their capacity as BM Unit Registrants for Large Combustion Plant (LCP) Units, to submit information pertaining to emission limits/allocations and operating hours data of all associated LCPs.

#### **Documents being changed for the June 09 Release (Modification P226)**

The following documents have been created or amended for Modification P226, for the purposes of this circular, and can be found on the [June 09 Release documentation page](#):

- Balancing Mechanism Reporting Agent (BMRA) User Requirements Specification
- Interface Definition and Design Part 2 – Interfaces to other service providers

This circular follows CVA Change Circular 219, as sent on 18 March 2009, which requested a review of the new BSCP33 and the BMRA Service Description, as created or amended for Modification P226. These documents have now been reviewed, and will be taken for approval by the appropriate Panel Committees.

For more information on this circular, please contact the Change Implementation Team at [releases@elexon.co.uk](mailto:releases@elexon.co.uk) or call the ELEXON Helpdesk on 020 7380 4222.
