| Date | 08 July 2009 |

Invitation to Review Configurable Items amended for the November 09 BSC Systems Release (P217, P235, CP1283 and CP1286)

What is the purpose of this Circular?

This Circular invites you to review a number of documents that are being amended for the November 2009 Release. The documents relate to:

- Approved Modification P217 'Revised Tagging Process and Calculation of Cash Out Prices';
- Approved Modification P235 'Aligning BSC Requirements with the Calculation of Reconciliation Interest performed by the Funds Administration Agent';
- CP1283 'Revision to Data Correction Processes in BSCP18'; and
- CP1286 'BSCP18 Operational Review: Additional flag in Transmission Company's BOAL file to indicate an amended Bid-Offer Acceptance'.

P235 was recently approved for implementation with a retrospective implementation date of 27 March 2001 and it was agreed that the impacted documents would be amended in the next available Release.

Both CPs were approved by the Imbalance Settlement Group (ISG) for inclusion in the November 09 Release at its meeting on 23 June 2009.

The NETA IDD's Part 1 and 2 and the User Requirements Specifications (URS) have been amended with minor clarifications on P217. Please note that the IDD updates for CP1283 and CP1286 were published and approved as part of the CP process and are therefore not included as part of this review.

These document changes are in addition to those issued via CVA Circular CC220 on 26 March 2009 and CC222 on 27 May 2009. Please note that CC220 invited you to review the NETA IDD and User Requirements Specifications for CRA, SAA and BMRA updated for P217 and CC222 invited you to review BSCP01, BSCP18, Service Descriptions for BMRA and SAA, Reporting Catalogue and the CVA Data Catalogue also amended for P217 as part of the November 09 Release.

Please review these documents and return any comments, using the form provided, to releases@elexon.co.uk by **5:00pm on Wednesday 15 July 2009**.

These documents can be found on the [November 2009 Release Website](#).
