Purpose	For Review
From	Change Delivery
Date	24 February 2010

Invitation to Review a Configurable Item amended as part of the February 2010 BSC Systems Release (P248)

What is the Purpose of this Circular?

This Circular invites you to review a Configurable Item that has been amended as part of the solution to approved Modification P248 'Aligning BSC interest calculation requirements with the FAA calculation method and P235 principles'.

The Authority approved P248 on 05 February 2010, with a retrospective implementation date of 27 March 2001. P248 will bring four Fund Administrator Agent (FAA) interest calculations in line with the principles of accuracy and fairness established by Modification [P235](#).

To fully deliver P248, the FAA Service Description requires minor updates to reflect the changes to the BSC. These changes will be developed and implemented with P246 on 31 March 2010 as part of an extended February 2020 Release to minimise implementation costs.

For further information on P248 please visit the [P248 webpage](#) and for further information on the February 2010 Release please visit the [February 2010 Release webpage](#).

What Configurable Items are Impacted?

We have amended the FAA Service Description has been amended to reflect the P248 changes to the BSC. The document can be found on the [February 2010 Release Amended Documents webpage](#):

Document	Version	Impact
FAA Service Description	V11.3	P248
