No.	SVA CC104
Purpose	For Review
From	Change Implementation Team
Date	13 May 2009

Invitation to Review Amended SVA Code Subsidiary Documents for the November 09 BSC Systems Release (P223)

What do I need to review?

This is an invitation for you to review:

- BSCP510 "The Provision of Sampling Data to the Profile Administrator"; and
- Service Description for Profile Administration.

These have been amended for P223 "Improvements to the Profile Administrator Service" as part of the November 09 Release.

What is P223?

Approved Modification P223 will improve the Profile Administrator Service by changing the process for recruiting customers into the profiling sample and the resultant half hourly data collection. As a result there are new obligations on **Suppliers**.

What are the new obligations?

The new process will place responsibility on Suppliers to:

- annually provide customers (Sample Participants) for the profiling sample;
- replace their existing meter with a Profile Capable Metering System; and
- collect half hourly consumption data from this meter for profiling, in addition to the normal Non Half Hourly data used in Settlement.

How long do I have to provide comments?

Please can you review the amended documents and return any comments, using the form provided as attachment 1 to this circular, to our [Release](#) mailbox by the **17:00 on Wednesday 27 May, 2009**.

BSCP510 and the Profile Administrator Service Description are available to download from the [ELEXON Website](#).

What can I do to prepare for P223?

If you are a Supplier you must provide a **single point of contact** for all P223 communications by 5 November 2009. You may also receive a request from the Profile Administrator prior to 1 December 2009 to provide Sample Participants. If you do, you do not need to respond to this request before the changes go live on 1 December 2009.

Document Title	Document Change Record Version*
BSCP510 - The Provision of Sampling Data to the Profile Administrator	Changes to BSCP510 for P223 v0.5
Service Description for Profile Administration	Changes to the Service Description for P223 v0.5

Please note that the changes are draft only and may be subject to further changes following the receipt of review comments.

For more information on this circular, please contact [Shamaila Jawaid](#) on 0207 380 4318 or email the [Release](#) mailbox.

Regards,

Shamaila Jawaid
