¹ For more than one Affected party, Part B should be completed for each, using additional copies of Part B as required.

BSCP32/4.1 Application for a Metering Dispensation (Cont.)

Part C – Reason for Application

If the application is an extension or update for an existing Metering Dispensation, enter existing ref: **D/386**

Site Specific / Generic* **Delete as applicable.*

Reason: This is a request to extend the existing Metering Dispensation (existing ref: D/386).
 As per the initial dispensation, Witches Solar park was allowed to meter the site at 11kV (using loss compensating metering) due to the long lead time on the 66kV metering and also the DNO not having the outage availability to install 66kV metering CTs/VTs prior to the sites commissioning date. The DNOs outage availability for installing the 66kV metering CTs/VTs is generally during the Summer period and so the customer could not have the 66kV metering installed in late 2012. However they WILL be able to have the 66kV metering and CT/VTs installed during the 2013 outage availability and are due to have the required metering and CT/VT equipment available and installed by 31 July 2013. They can also use the existing 11kV loss compensating meters for the 66kV metering. Therefore the customer requires this dispensation to be extended up until 31/07/2013.

Site Details (for Site Specific Metering Dispensation)

Site Name:	Witches Solar Park
Site Address:	Prothither Farm, Hoarwithy, Hereford
MSID(s):	S 14 7000 0077 913 S 14 7000 0077 950
Registered in: CMRS / SMRS*: *Delete as applicable.	SMRS
For SMRS, please advise of SMRA in space provided.	Western Power Distribution (West Midlands)

Manufacturer Details (for Generic Metering Dispensation)

Manufacturer Name:	
Metering Equipment Details:	

BSCP32/4.1 Application for a Metering Dispensation (Cont.)**Part D - Technical Details****Code of Practice details**

Metering Dispensation against Code of Practice*	COP3
Issue of Code of Practice*:	10.0
Capacity of Metering Circuits/Site Maximum Demand (MW/MVA):	5000kVA (Export) 21kA (Import)
(Proposed) Commissioning Date of Metering:	12/10/12
Accuracy at Defined Metering Point:	As per COP3
Accuracy of Proposed Solution (including loss adjustments):	As per COP3
Outstanding non-compliances on Metering Systems:	none
Deviations from the Code of Practice (reference to appropriate clause):	COP3 Appendix A Clause 6. The metering is not positioned as per the Defined Metering Point

* insert Code of Practice number and issue

Any Other Technical Information

As per the initial dispensation application, the costs of not having the application extended will be loss of production. An estimate of these costs appears below

Materiality

(1) If installed in accordance with the relevant CoP	(2) Proposed Solution
£ Approx £200,000 min	£ -

Declaration

We declare that other than as set out above we are in all other respects, in compliance with the requirements of the relevant Code of Practice and the BSC. A schematic is attached to this application for clarification of the metering points involved.
