Liège, 08/07/2013

N/Ref. LME/dgs/2013-601-2/ISO

**Subject: ISO 17025:2005 accreditation for Elexon test requirements (electrical measurement performances)**

Dear Mr Townsend,

Please find a description of our electrical measurement capabilities:

- Measuring instruments :
  - Powermeter Yokogawa WT210
  - Multimeter Agilent 34401A

Those instruments are yearly calibrated by LABORELEC (Accreditation BELAC 002-CAL).

Our calculated uncertainties are:

- Voltage : max  $\pm 0.5\%$
- Current : max  $\pm 1\%$
- Power : max  $\pm 0.5\%$

Our calibrated range of measurement is as follow:

- Voltage : max 600 V
- Current : max 20 A
- Power : max 4600 W

Yours sincerely,

Laurent Maghe  
Test Laboratory Responsible
