How does this link to ELEXON EMR Circular 1: BSC Configurable Items amended for EMR?

We published this [Circular](#) on 28 March 2014 to inform BSC Participants of the BSC Configurable Items, which include the BSC Code Subsidiary Documents, amended for EMR, and will be directed by the Secretary of State and included as part of the [June 14 Release](#). This was a commitment we made to the BSC Panel to ensure we are open and transparent about the potential changes needed and to also give BSC Participants the opportunity to comment about the possible impacts ahead of this DECC consultation.

The BSC Configurable Items that DECC are consulting on are the same as the ones published on our website. The exception is that we did not publish BSCP503 and DECC are consulting on BSCP503.

EMR Circular 3

Do I need to respond to ELEXON and DECC on these changes?

If you have comments on the BSC Configurable Items it's important that you provide these to DECC as part of its consultation. Any comments we receive will be passed to DECC, but you should also make these comments to DECC.
