

# Okapi LED

DATA SHEET

Grey 150 sable | IP66 | IP66 | IK08 | 10.5-12KG |   

## Product information

The perfect combination between the aesthetic and functionality makes this luminaire the perfect solution for the replacement of luminaires with low energy efficiency and important light nuisances. Okapi LED is available with three different system consumptions 20, 30 and 44 W. It is ideal for efficient lighting of street and roadway applications, walkways, parks & gardens up to 6m high. The advanced LED optical system used in the Okapi LED improved horizontal and vertical uniformity, reduced glare and improved lighting controls. This reliable system offers more than 11 years of service life to reduce maintenance frequency and expense, based on a 50,000 hours life and 12 hours of operation per day.

## Structures and materials

**Housing:** in three pieces (housing, door and arm), all of them in die-cast aluminium with a polyester powder paint finish and oven cured.

**Standard colour:** grey 150 sable. All RAL colours available on request.

**Two safe screws:** included in the lower housing allowing an easy luminaire opening.

**Screws:** galvanized.

## Electrical and gear compartment

Placed into the lower housing and isolated from the environment with a protection degree IP66 comprising:

**Driver support board:** manufactured with aluminium. It is easily removable.

**Driver support board:** the driver is mounted onto a aluminium gear tray. It is easily removable.

## Optics

Optical assembly hermetically sealed providing IP66, comprising:

**Glass:** curved (IK09) or flat tempered glass (IK 08) fixed with a gasket.

**Reflector:** 5 different reflectors available.

Structured LED array for optimized photometric distribution. Utilized high brightness LEDs, 70 CRI at 4000 K & 5700 K typical. LM79 test and reports are performed in accordance with IESNA standards.

## Maintenance

**System rating:** 50,000 hours at L 85.

Ambient temperature from -30°C to +50°C.

Storage temperature up to 85°C.

## Installation

- Available in European Electrical classes I and II.

## Mounting options

- Decorative arm through 48 to 60 mm, standard post top mounting through 60 and 76 mm diameter pole.
- Side mounting through 60 mm diameter pole.

## Specifications

Weight [kg]	12kg with decorative arm, 10.5kg with standard post-top and side mounting. Driver included.
Side Surface [m <sup>2</sup> ]	0.17
Driver	Electronic, programmable & dimmable (DALI). Controllable driver with power reduction and astronomical clock availability.
System consumption	50/60Hz 44W/220-240 max. 20, 30 & 44 W
Reflector	Five different reflectors available
Protection Degree	Full IP66
Ambient Operating Temperature [°C]	-30 to 50°C
Regulations	IEC 60598-1, IEC 60598-2-3 EMC: IEC 55015:2006+A1:2006+A2:2009 & IEC 61000 EMF: IEC 62493 Electronic Driver Included
