

MANAGING THE BALANCING AND SETTLEMENT CODE

WE DELIVER AN 'END-TO-END' SERVICE FOR THE BSC WHICH INCLUDES

Working with BSC Parties to develop and implement changes to code rules and processes

Proactively supporting the Government, Ofgem and other bodies on energy policy development

DRIVING CHANGES TO THE BSC

During 2019/20 we:

11

BSC CHANGE PROPOSALS

Implemented 11 BSC Change Proposals (amends to BSC subsidiary documents)

16

BSC MODIFICATIONS

Implemented 16 BSC Modifications (changes to the code itself)

20

NEW BSC MODIFICATIONS

Worked with the industry so that 20 new BSC Modifications were raised

P344

Implemented the P344 'Wider Access' reforms on time in December 2019, working with National Grid ESO, a major step forward for a smarter system

ENGAGING WITH OUR STAKEHOLDERS

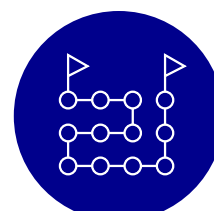

We share our expertise with industry stakeholders and contribute to their work. In 2019/20 we:

369

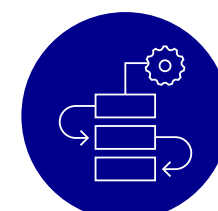

Welcomed 369 attendees to our Introduction to the Energy Market seminars

122

Reviewed 122 industry consultations and responded to 33

Continued to contribute to the review of energy codes by Ofgem and Government by commissioning further analysis and proposing interim reforms

Proposed the setting up of electricity flexibility platforms where demand-side response and other forms of flexibility can be traded
