1. Introduction

1.1. Purpose and Scope of the Procedure

1.1.1 Purpose

This BSC Procedure (BSCP):

- outlines the Change Management processes invoked to progress and implement changes to the BSC and BSC Configurable Items to ensure that all changes are introduced in a controlled and auditable manner.
- defines the process for Third Party Applicants to request designation to raise a Modification Proposal; and
- defines a pre-change process for Issues.

One of the objectives of this procedure is to maintain the integrity and robustness of the BSC Configurable Items and supporting products and to ensure that all changes are introduced in a controlled and auditable manner. This is achieved by:

- implementing the change management procedures within the BSC;
- assessing all proposed changes and assisting the BSC Panel and its Committees in making informed decisions;
- consulting with interested parties how work will be progressed;
- implementing new, or revisions to existing, BSC Configurable Items; and
- producing the BSC Baseline Statements.

1.1.2 Out of Scope

This procedure does not cover changes to associated Core Industry products or the System Operator-Transmission Owner Code (STC). The System Operator within the STC is NETSO. However, where proposed changes to the BSC or BSC Configurable Items would result in a corresponding change to the Core Industry Documents or the STC BSCCo will liaise with the relevant bodies to ensure the appropriate change documentation is raised.

This procedure does not cover changes to BSC Parties' or their Agents' systems and procedures which may be necessary for participants to implement any changes that are made to the BSC or BSC Configurable Items. Party Agents must consider whether any potential changes would trigger the need for Re-Qualification by assessing the risk that implementing the corresponding changes within their own organisations would pose to the Balancing and Settlement arrangements as described in BSCP537.

1.1.3 Modification Proposals

A Modification Proposal is required to amend the BSC Sections. This procedure sets out the procedure for the submission of Modification Proposals, which is derived from Section F of the BSC (the 'Modification Procedures'). Any consequential changes to BSC Configurable Items arising from a Modification Proposal may be made under that Modification Proposal and does not require a separate Change Proposal to be raised.

All interested parties, as listed in Section F of the BSC, may register (or be registered by BSCCo) to receive by email communications which support the Modification Procedures and fulfil BSCCo's obligations in accordance with Section F of the BSC, by providing relevant contact details to BSCCo. The provisions concerning general email communications from BSCCo to Parties are contained in Section H of the BSC.

To raise a Modification Proposal, Parties must submit a completed Modification Proposal form to BSCCo. BSCCo must publish the Modification Proposal form template on the BSC Website for use by Parties. Guidelines for completing this form are contained within the form itself.

1.1.4 Change Proposals

A Change Proposal is required to effect changes to BSC Configurable Items where no changes to BSC Sections are required. To raise a Change Proposal, Parties must submit a completed BSCP40/02 'Change Proposal' form to BSCCo in accordance with Section 3.4. Guidelines for completing this form are contained within the form. Section 3.5 sets out the process for obtaining the Panel Committee decision and Section 3.6 sets out the process for the implementation of Change Proposals.

1.1.5 Draft Change Proposals and Issues

This procedure also contains standard forms for raising Draft Change Proposals to allow participants to comment on or discuss a particular issue and solution prior to a Change Proposal being raised.

1.1.6 Change Proposal Circulars

Change Proposal Circulars (CPC) will be used to communicate all change management information relating to Change Proposals and related changes to Category 1 and 2 BSC Configurable Items to BSC Parties and Party Agents, in accordance with the process set out in Section 3.1. BSCCo publish all CPCs on the BSC Website.

Parties and their Qualified Agents should nominate individuals within their organisations to register as BSC Change Administrators (BCAs) and Party Agent Change Administrators (PACAs) respectively, to interface with BSCCo on all matters relating to changes to BSC Configurable Items. Please see section 3.11 of this procedure for more information on the registration process.

1.1.7 BSC Baseline Statement

The BSC Baseline Statement is a list of each BSC Section and BSC Configurable Item, showing:

- the master version;
- the effective date of the master version;
- the Modification Proposals and / or Change Proposals implemented since the previous master version;
- the “Responsible Committee(s)” for the approval of changes to it; and
- the categorisation of BSC Configurable Item.

A new version of the BSC Baseline Statement will be produced when new versions of one or more BSC Sections and / or BSC Configurable Items become effective.

Submission of Issues

Where a Party or interested third party feels that it has an issue, problem, defect or improvement with the BSC arrangements, but is unsure of how or whether to progress the concern, or wants to explore the solution options, an Issue should be raised. This pre-change process shall assist in the framing of issue(s)/defect(s) and possible CPs or Modifications. Parties, interested third parties (including bodies representative of interested third parties and Party Agents) and BSCCo, may raise an Issue in accordance with section 3.15 below.

Panel Committees may be consulted by the proposer of the Issue in order to seek guidance. The Panel Committees would then advise on any possible solution to the concern and how best to resolve the problem, e.g. to raise a Change Proposal, or form an Issue Group.

Issue Groups shall adhere to the Issue Group Terms of Reference, which shall be set and maintained by the Panel and published on the BSC Website.

Unless an Issue is withdrawn by the proposer, an Issue Report shall be presented to the Panel following the assessment and discussion of the Issue.

1.2 Main Users of the Procedure and their Responsibilities

The main users of this procedure are:

- *BSCCo* – manages the change process.
- *BSC Panel*.
- *BSC Change Administrator (BCA)* – nominated by BSC Parties to interface with BSCCo on all change issues.
- *Citizens Advice and Citizens Advice Scotland*
- *Market Index Data Providers (MIDP)*.

- *Panel Committees* - control all changes to Configurable Items, apart from modifications to the BSC.
- *Party Agent Change Administrator (PACA)* - nominated by a Qualified Party Agent, or an applicant for Qualification, to interface with BSCCo on all change issues (note that PACAs **cannot** raise DCPs or CPs in their own right, but could ask a Party to raise them on their behalf).
- *Interested third parties (including Party Agents) or any bodies representative of interested third parties – to raise Issues.*
- *Third Party Applicants* – to request designation by the Panel or the Authority to raise Modification Proposals.

BCA/PACA participation in the Change Management of BSC Configurable Items

BCAs and PACAs are invited to comment on amendments to BSC Configurable Items during the change management process:

Draft Change Proposal Consultation

During the change management process, Draft CPs may be issued as part of the agreed timetabled Change Proposal Circular to BCAs/PACAs for consultation. For more information on this process, please see section 3.2 of this procedure.

CP Impact Assessment

During the change management process, CPs will be sent to BCAs/PACAs as part of the agreed timetabled Change Proposal Circular, detailing the issue and solution for Impact Assessment. BCAs/PACAs are invited to comment on CPs and their attachments and, where relevant, review associated draft redline changes. BCAs/PACAs will be expected to comment on support for the CP, detail impacts of the CP, provide implementation notification timescales and agree the proposed Implementation Date (if they do not, they will be asked to provide an alternative Implementation Date). The timetable for BCA/PACA CP Impact Assessment is available as part of the Change Register published on the BSC Website. For more information on this process, please see section 3.4 of this procedure.

Please note that De Minimis BMRS CPs will not be subject to the full Impact Assessment process (as described in 3.4 below), unless queried during the objection window.

Panel Committee Approval of Change Proposals

Once the appropriate Panel Committee(s)¹ has approved a CP, and associated redlined text, the CP becomes final and no further versions of the CP, or amendments to the redline text, can be produced without the raising of a separate Change Proposal.

1.3 Key Milestones

There are no key milestones in this procedure.

¹ The BSC Baseline Statement specifies which Panel Committee(s) are responsible for the approval of each BSC Configurable Item.

1.4 BSC Provisions

This BSCP should be read in conjunction with the BSC and in particular Section F. This BSCP has been produced in accordance with the provisions of the BSC. In the event of an inconsistency between the provisions of this BSCP and the BSC, the provisions of the BSC shall prevail.

3.4 Raising a Change Proposal for Impact Assessment

Housekeeping CPs do not require Impact Assessment and once raised in accordance with the following process, will be submitted to the relevant Panel Committee(s) for decision in accordance with section 3.5 of this BSCP. De Minimis BMRS CPs do not require a consultation period and are therefore not subject to 3.4.9 through to 3.4.12. The relevant Panel Committee(s) will decide whether a CP should be progressed as a Housekeeping or De Minimis BMRS CP.

Any BCA or PACA can object to the Panel Committee's decision to treat a CP as Housekeeping or De Minimis BMRS, by using the objection process in section 3.5. Where an objection is received, BSCCo will progress the CP through the normal Impact Assessment and Panel Committee decision processes as a regular CP (i.e. a non-Housekeeping and a non-De Minimis BMRS CP). Because of the objection window, the Implementation Date for a Housekeeping or De Minimis BMRS CP shall not be earlier than 16 WDs after the date that BSCCo gives notification of the relevant Panel Committee's decision under section 3.5.

Under certain circumstances, and with the approval of the appropriate Panel Committee(s), a regular CP can be progressed through the Impact Assessment process with a reduced timescale.
