Quorum Development	4.13.11.2 4.13.11.3 4.13.11.4 4.13.11.5	Section 4.13.11.2: Body Record Bid Acceptance Volumes Contains RR Instruction Flag Section 4.13.11.3: Body Record Offer Acceptance Volumes Does not contains RR Instruction Flag Section 4.13.11.4: Body Record Indicative Period Bid Acceptance Volumes (post P217) Does not contains RR Instruction Flag Section 4.13.11.5: Body Record Indicative Period Offer Acceptance Volumes (post P217) Does not contains RR Instruction Flag The first is different to the remainder – which is correct?
	BM Unit Derived Data	Assuming the volume records above should contain the RR Instruction Flag, should these Cashflow records have the RR Instruction Flag as well, to keep them consistent with the volume records?
	Market Depth Data	Assuming the volume records above should contain the RR Instruction Flag, should these Cashflow records have the RR Instruction Flag as well, to keep them consistent with the volume records?
	8.4 SAA_I014	Includes the text: <u>BM Unit Period Bid-Offer Acceptance</u> (for Effective Dates after the TERRE P344 Final Implementation Date): Acceptance STOR Provider Flag Reserve Scarcity Price Flag I don't think this should reference TERRE – did not P305 introduce these? This seems to be corroborated by the IDD spreadsheet, S0141 v9, lines 749 to 753.
	8.4.1 Aggregate Party Day Charges 8.4.2 Aggregate VLP Day Charges	Is correct for these data groups to include 'Total System RR Cashflow'? They are related to Party data after all, and I don't believe they include any system level BM data.

Respondent	Location	Comment
Quorum Development	SAA_I014, row 988	BRR data group: BRR shown with cardinality of 0-1. Does this mean if there are no acceptances then BRR will not be displayed, given that each of the fields is shown as mandatory ('1')? If so, then it looks like the child data group for RR Bids ('BRR') would be omitted – but there can of course be RR Bids without acceptances.

We received no comments to any of other redlined documents we consulted on.
