

4.3 CP Form

Change Proposal – BSCP40/02	CP No: <i>Version No:</i> <i>(mandatory by BSCCo)</i>					
Title (mandatory by originator) To clarify sending of a D0151 is required for all COS NHH loss processes						
Description of Problem/Issue (mandatory by originator) <p>CP1532 ‘Reduce Half Hourly Change of Supplier timelines to meet the Initial Settlement Run’ was implemented on 30 June 2022. Part of its solution was to align the sending of the D0155 ‘Notification of Meter Operator or Data Collector Appointment and Terms’ and D0151 ‘Termination of Appointment or Contract by Supplier’ data flows in the BSCPs for Half Hourly (HH) and Non-Half Hourly (NHH) processes.</p> <p>CP1532 placed a requirement in BSCP504 ‘Non Half Hourly Data Collection for SVA Metering Systems Registered in SMRS’ for the old Supplier to send a D0151 to terminate their Non Half Hourly Data Collector (NHHDC) appointment on change of supply. However, the positioning of clause 3.2.6.4(a) implies that this is only required for non-DCC serviced Metering Systems, whereas this should be a requirement for all Metering Systems.</p>						
Proposed Solution (mandatory by originator) We propose a minor change to BSCP504 that that will clarify that clause 3.2.6.4(a) applies to all Metering Systems.						
1) Move below text from clause 3.2.6.4 to after 3.2.6.4(a) via the newly created 3.2.6.4(b):						
3.2.6.4	On appointment of SVA MOA and within 1 WD of 3.2.6.3 ²³	Send notification of old NHHDC, new NHHDA and new SVA MOA (as applicable). <i>For DCC serviced SVA NHH Metering Systems²⁴, proceed to 3.2.6.40.</i> For non DCC serviced NHH Metering Systems, where the new NHHDC is the same as the old NHHDC, proceed to 3.2.6.9.	New Supplier	New NHHDC	D0148 Notification of Change to Other Parties.	Electronic or other method, as agreed.
2) Move the row titled ‘For non DCC serviced SVA NHH Metering Systems’ from before 3.2.6.4(a) to after 3.2.6.4(b):						
REF	WHEN	ACTION	FROM	TO	INFORMATION REQUIRED	METHOD
For non DCC serviced SVA NHH Metering Systems²⁴						
3.2.6.4(a)	By New Supplier SSD	Send notification of termination of appointment.	Old Supplier	Old NHHDC	D0151 Termination of Appointment or Contract by Supplier.	Electronic or other method, as agreed
3.2.6.4(b)	By New Supplier SSD	<i>For DCC serviced SVA NHH Metering Systems, proceed to 3.2.6.40.</i>	<i>Old Supplier</i>	<i>Old NHHDC</i>	<i>D0151 Termination of Appointment or Contract by Supplier.</i>	
For non DCC serviced SVA NHH Metering Systems²⁴						
3.2.6.5	If concurrent change of MS Settlement Details	The Supplier will provide this data to the NHHDC.	New Supplier	New NHHDC	D0052 Affirmation of Metering Settlement Details	Electronic or other method as

<p>Justification for Change (mandatory by originator)</p> <p>The change will align the BSCP504 text to the intended solution of CP1532 and provide clarity to standard industry practices.</p>
<p>To which section of the Code does the CP relate, and does the CP facilitate the current provisions of the Code? (mandatory by originator)</p> <p>Section L 'Metering'</p> <p>Section S 'Supplier Volume Allocation'</p>
<p>Estimated Implementation Costs (mandatory by BSCCo)</p> <p>Under £500 for Elexon to make the required document changes.</p> <p>No system changes for market participants or Elexon are expected to be required.</p>
<p>BSC Configurable Items Affected by Proposed Solution(s) (mandatory by originator)</p> <p>BSCP504 'Non Half Hourly Data Collection for SVA Metering Systems Registered in SMRS'</p>
<p>Impact on Core Industry Documents or System Operator-Transmission Owner Code (mandatory by originator)</p> <p>N/A</p>
<p>Related Changes and/or BSC Releases (mandatory by BSCCo)</p> <p>CP1532 'Reduce Half Hourly Change of Supplier timelines to meet the Initial Settlement Run'</p>
<p>Requested Implementation Date (mandatory by originator)</p> <p>2 November 2023</p>
<p>Reason: BSC Standard release</p>
<p>Version History (mandatory by BSCCo): V1.0</p>
