

DRAFT LEGAL TEXT FOR PROPOSED MODIFICATION P369

SECTION C: BSCCO AND ITS SUBSIDIARIES

Amend section 2.2.4 as follows:

2.2.4 Modification Proposal P369 and any modifications to Code Subsidiary Documents or any other document maintained under the Code made pursuant to Modification Proposal P369 shall take effect from 00:00 hours on 1 April 2019.

SECTION X: DEFINITIONS AND INTERPRETATION

ANNEX X-1: GENERAL GLOSSARY (V82.0)

Amend the following definitions as follows:

"De Minimis Acceptance Threshold": has the meaning given to that term in Section T1.78.1;

"Equivalent Meter": means, in relation to an Unmetered Supply, the hardware and software that is used to calculate the half hourly consumption of electricity associated with such Unmetered Supply, which hardware and software meets the specification therefore set out in BSCP520;

"Transmission Company": ~~means National Grid Electricity Transmission plc, registered number 02366977, and any reference to "NGC" in the Code or any Code Subsidiary Document shall have the same meaning;~~ means National Grid Electricity System Operator Limited, registered number 11014226, as the holder of the Transmission Licence in relation to which Section C (system operator standard conditions) of the standard Transmission Licence conditions applies and any reference to "NGESO", "National Grid Company" or "NGC" in the Code or any Code Subsidiary Document shall have the same meaning;

"Transmission Licence": ~~means the licence granted to the Transmission Company pursuant to section 6(1)(b) of the Electricity Act 1989, as modified from time to time;~~ means a licence granted or treated as granted under section 6(1) (b) of the Act;

ANNEX X-2: GENERAL GLOSSARY (V82.0)

Amend the following definitions in Table X-2 as follows:

| Defined Term | Acronym | Units | Definition/Explanatory Text |
|---|---------------|-------|---|
| FPN | $FPN_{ij}(t)$ | MW | <p>The quantity established in accordance with Section T3.2.1.</p> <p><i>The final physical notification for BM Unit is the level of import or export (as the case may be) that the Party expects to import or export from BM Unit i, in Settlement Period j, in the absence of any Balancing Mechanism Acceptances from the System Operator <u>Transmission Company</u>.</i></p> <p><i>The value of $FPN_{ij}(t)$ is calculated for spot times t in Settlement Period by linear interpolation from the discrete values of Point FPN submitted.</i></p> |
| System Operator BM Cashflow | CSOBMj | £ | <p>The amount determined in accordance with Section T4.9.1.</p> <p>The System Operator BM Cashflow is the amount paid by the System Operator <u>Transmission Company</u> in Settlement Period j in relation to the operation of the Balancing Mechanism.</p> |
| Working Day Credit Assessment Load Factor Working Day | WDCALFi | | <p>Is defined in Annex X-1.</p> <p>The factor is used to establish the BM Unit Credit Assessment Export Capability and BM Unit Credit Assessment Import Capability for BM Unit i on a CALF Working Day determined for the purposes of Credit Assessment Load Factor.</p> |
