

## Agenda

### P395 'Excluding generators from BM Unit Gross Demand and the calculation of EMR Supplier Charges' Workgroup

Meeting number **4**

Venue **Teleconference**

Date and time **Monday 24 May 2021, 09:30 – 15:30**

Classification **Public**

No.	Agenda item	Lead
1.	Welcome and meeting objectives	Claire Kerr (Chair)
2.	Summary of 3rd Workgroup Meeting	Ivar Macsween (Lead Analyst)
3.	Action Updates	Colin Berry, Nick Rubin, John Lucas (Elexon)
4.	Updates to P395 Business Requirements	Colin Berry
5.	P395 Terms of Reference and Next Steps	Ivar Macsween
6.	Meeting Close	Claire Kerr

### 1. Meeting Outcomes

- Consider updates to the actions from the previous Workgroup meeting;
- Cover off remaining areas of the P395 solution; and
- If solution is agreed, provide initial views against the BSC Objectives.

### 2. Call Details

Telephone: +44 20 3855 5884

Conference ID: 821 590 513

**The Applicable BSC Objectives are:**

- (a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence
- (b) The efficient, economic and co-ordinated operation of the national electricity transmission system
- (c) Promoting effective competition in the generation and supply of electricity, and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity
- (d) Promoting efficiency in the implementation and administration of the balancing and settlement arrangements
- (e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]
- (f) Implementing and administering the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation
- (g) Compliance with the Transmission Losses Principle

**The Self-Governance Criteria are:**

A proposal that, if implemented

- (a) is unlikely to have a material effect on:
  - (i) existing or future electricity consumers; and
  - (ii) competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution, or supply of electricity; and
  - (iii) the operation of the national electricity transmission system; and
  - (iv) matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies; and
  - (v) the Code's governance procedures or modification procedures, and
- (b) is unlikely to discriminate between different classes of Parties.

### **The Electricity Balancing Guideline (EBGL) Article 3 (Objectives and regulatory aspects)**

1. This Regulation aims at:

- (a) Fostering effective competition, non-discrimination and transparency in balancing markets;
- (b) enhancing efficiency of balancing as well as efficiency of European and national balancing markets;
- (c) integrating balancing markets and promoting the possibilities for exchanges of balancing services while contributing to operational security;
- (d) contributing to the efficient long-term operation and development of the electricity transmission system and electricity sector in the Union while facilitating the efficient and consistent functioning of day-ahead, intraday and balancing markets;
- (e) ensuring that the procurement of balancing services is fair, objective, transparent and market-based, avoids undue barriers to entry for new entrants, fosters the liquidity of balancing markets while preventing undue distortions within the internal market in electricity;
- (f) facilitating the participation of demand response including aggregation facilities and energy storage while ensuring they compete with other balancing services at a level playing field and, where necessary, act independently when serving a single demand facility;
- (g) facilitating the participation of renewable energy sources and support the achievement of the European Union target for the penetration of renewable generation.

2. When applying this Regulation, Member States, relevant regulatory authorities, and system operators shall:

- (a) apply the principles of proportionality and non-discrimination;
- (b) ensure transparency;
- (c) apply the principle of optimisation between the highest overall efficiency and lowest total costs for all parties involved;
- (d) ensure that TSOs make use of market-based mechanisms, as far as possible, in order to ensure network security and stability;
- (e) ensure that the development of the forward, day-ahead and intraday markets is not compromised;
- (f) respect the responsibility assigned to the relevant TSO in order to ensure system security, including as required by national legislation;
- (g) consult with relevant DSOs and take account of potential impacts on their system;
- (h) take into consideration agreed European standards and technical specifications.

Please note that the recitals of the EBGL also constitute EBGL Objectives, as defined in BSC Section X Annex X-1.
