

P460 ‘Amend the responsibility to propose and consult on a MHHS Migration Plan’

To change responsibility for proposing, consulting on and obtaining approval of the Market-wide Half Hourly Settlement (MHHS) Migration Plan from BSCCo to the Market-wide Half Hourly Settlement Programme (MHHSPP).

The BSC Panel initially recommends **approval** of P460

The BSC Panel **does not** believe P460 impacts the European Electricity Balancing Guideline (EBGL) Article 18 terms and conditions held within the BSC

This Modification is expected to impact:

- All BSC Parties

About This Document

You can find the definitions of the terms and acronyms used in this document in the [BSC Glossary](#)¹.

This is the P460 Draft Modification Report, which Elexon will present to the Panel at its meeting on 14 September 2023. It includes the responses received to the Report Phase Consultation on the Panel's initial recommendations. The Panel will consider all responses, and will agree a final recommendation to the Authority on whether the change should be made.

There are 4 parts to this document:

- This is the main document. It provides details of the solution, impacts, costs, benefits/drawbacks and proposed implementation approach.
- Attachment A contains the P460 Proposal Form.
- Attachment B contains the draft redlined changes to the BSC for P460.
- Attachment C contains the full responses received to the Panel's Report Phase Consultation.

Why Change?

[BSC Section C 'BSCCo and its Subsidiaries'](#)² states that BSCCo has a responsibility to propose, consult on and obtain approval for a MHHS Migration Plan. However, responsibility for Migration activities sits with the MHHS System Integration (SI) function. Therefore it would be a more efficient use of resource for the MHHSP to create, consult on and obtain approval for the migration plan.

Solution

Move the MHHS Migration plan requirements in BSC section C12.11.3 from BSCCo responsibility to the SI responsibility in section C12.8. Update Sections C12.11.1 and C12.2.14 to reflect the change.

Impacts & Costs

Costs to implement this Modification for BSCCo will be low (<£1k) as it is a document only change. No costs or impacts have been identified for BSC Parties, as regardless of who leads on the Migration Plan (BSCCo or MHHS SI) the costs will be approximately the same.

The MHHSP noted Medium impacts and costs to implement P460. The MHHSP noted there will be an increase in costs of the Programme to develop the plan which will fall onto Suppliers as Programme funders, but this should be partially offset by a reduction in BSCCo costs.

We note that MHHS SI, BSCCo and respondents are all supportive of this change and that it will reflect the current planned work for the MHHS SI to lead on the Migration Plan.

Implementation

This Modification is a document only change and will not incur any system or process changes for Elexon or Market Participants. As such it is recommended the Modification is implemented as soon as reasonably practical to provide clarity to all Market Participants on who will manage the MHHS Migration Plan. Therefore, an Implementation Date of **5 Working Days following Authority decision** is recommended.

Recommendation

The BSC Panel believe that P460 does better facilitate Applicable BSC Objective (d) and so it should be **approved**.

² <https://bscdocs.elexon.co.uk/bsc/bsc-section-c-bscco-and-its-subsidiaries>

MHHS Migration Plan

BSCCo shall propose, consult on, and obtain approval for (in accordance with the MHHS Governance Framework) a plan (the "MHHS Migration Plan") which identifies: (i) which classes of MHHS Participant are to participate in the required migration of Metering Systems; and (ii) the requirements with which each such MHHS Participant must comply (in sufficient detail to enable them to prepare for and complete such migration). The BSCCo shall also ensure that the MHHS Migration Plan includes the timetable for migration set by the MHHS PMO

What is the issue?

BSC Section C 'BSCCo and its Subsidiaries' states that BSCCo has a responsibility to propose, consult on and obtain approval for a MHHS Migration Plan. However, responsibility for Migration activities sits with the MHHS System Integration (SI) function. Therefore it would be a more efficient use of resource for the MHHS to create, consult on and obtain approval for the migration plan.

Background

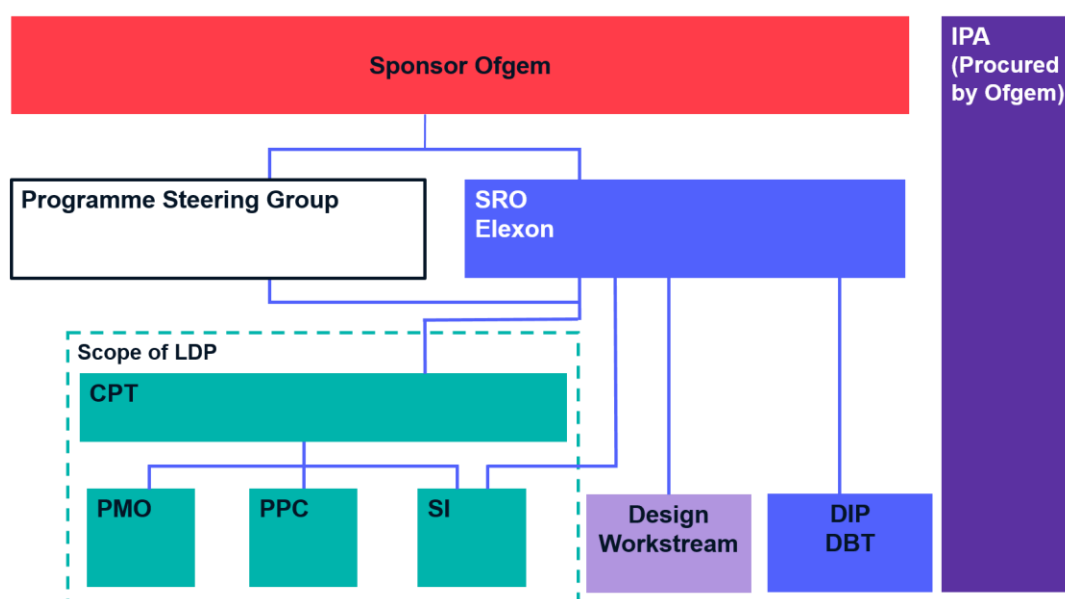

MHHS

MHHS is a reform initiative in the Great Britain (GB) electricity sector that aims to make the process of electricity Settlement more precise by leveraging the capabilities of smart meters. Unlike the current system for retail consumers, where energy usage is estimated based on consumer profiles, smart meters record exact energy usage or export every Half Hour, enabling a more accurate and timely Settlement process. This accuracy is expected to lead to the development of new products and services and deliver significant benefits to consumers, ranging from £1.6bn to £4.5bn between 2021 and 2045. The MHHS programme is overseen by the Office of Gas and Electricity Markets (Ofgem) and managed by Elexon.

MHHS SI

The MHHS SI is responsible for securing the robust and stable integration of the IT Systems to be used by MHHS Participants for the purposes of market-wide, half-hourly Settlement.

The MHHS SI is provided by the [Lead Delivery Partner](#)³ (LDP) for the MHHS and its role in the overall programme structure is detailed in the SI box below:

Desired outcomes

Allow the MHHSP to propose, consult on and obtain approval for the MHHS Migration Plan, thus promoting the most efficient use of resource.

Proposed solution

Move the MHHS Migration plan requirements in BSC section C12.11.3 from BSCCo responsibility to the SI responsibility in section C12.8. Update Sections C12.11.1 and C12.2.14 to reflect the change.

Benefits

The following benefit should be realised by implementing this Modification:

- **Resource Efficiency:** The MHHS SI has responsibility for Migration activities within the MHHSP and this is reflected in the resourcing of both BSCCo and the MHHSP, including the [business separation arrangements](#)⁴ in place. Given these arrangements, moving the responsibility to MHHSP to draft the migration plan will provide greater efficiency of resource in line with expectations.

Legal text

Updates to BSC Section C will be made as detailed in the Proposed Solution section of this document. Attachment B contains the draft Legal Text.

⁴ <https://www.mhhsprogramme.co.uk/uploads/8ddf8017-6805-4599-a8cc-1fa8e0233aa0/MHHS-Business Separation Plan V2.0 - 4 April 2023.pdf>

Estimated costs of P460

We do not anticipate any material additional costs for Parties. There are costs to propose, consult on and obtain approval of the MHHS Migration Plan, but these cost will be approximately the same whether BSCCo or MHHS SI fulfils these activities. The expectation, as reflected in the MHHS Plan is that MHHS SI will conduct this work. The costs for this work will be recovered from Suppliers if P460 is approved (under the MHHS funding mechanism) or via all BSC Trading Parties (under the BSC funding share mechanism), if P460 is not approved.

We asked respondents to the Report Phase Consultation to indicate their expected costs using the following categories:

- High: >£1 million
- Medium: £100k-1000k
- Low: <£100k

Implementation cost estimates			
Organisation	Item	Implementation (£)	Comment
BSCCo	Systems	0	
	Documents	<1k	Document only change to BSC Section C
	Other	0	
MHHS SI	Other	100k to 1000k	Costs to develop, consult on and manage MHHS migration plans
Industry	Systems & processes	0	None identified.
Total		<1k	

On-going cost estimates

Impact on Core Industry Documents and other documents	
Document	Impact
System Operator-Transmission Owner Code	
Transmission Licence	
Use of Interconnector Agreement	

Impact on a Significant Code Review (SCR) or other significant industry change projects
No. Ofgem have confirmed this is an SCR Exempt Modification.

Impact of the Modification on the environment and consumer benefit areas:	
Consumer benefit area	Identified impact
1) Improved safety and reliability None identified	Neutral
2) Lower bills than would otherwise be the case None identified	Neutral
3) Reduced environmental damage None identified	Neutral
4) Improved quality of service None identified	Neutral
5) Benefits for society as a whole None identified	Neutral

Other Impacts	
Item impacted	Impact
N/A	N/A

What are the consumer benefit areas?

- 1) Will this change mean that the energy system can operate more safely and reliably now and in the future in a way that benefits end consumers?
- 2) Will this change lower consumers' bills by controlling, reducing, and optimising spend, for example on balancing and operating the system?
- 3) Will this proposal support:
 - i) new providers and technologies?
 - ii) a move to hydrogen or lower greenhouse gases?
 - iii) the journey toward statutory net-zero targets?
 - iv) decarbonisation?
- 4) Will this change improve the quality of service for some or all end consumers. Improved service quality ultimately benefits the end consumer due to interactions in the value chains across the industry being more seamless, efficient and effective.
- 5) Are there any other identified changes to society, such as jobs or the economy.

Recommended Implementation Date

The Panel recommends an Implementation Date for P460 of:

- 5 Working Days after Authority decision, as part of a special BSC Release

This Modification is a document only change and will not incur any system or process changes for Elexon or Market Participants. As such it is recommended the Modification is implemented as soon as reasonably practical to allow the MHHSP to commence writing the MHHS Migration plan and provide clarity to parties on their requirements. Therefore, an initial Implementation Date of 5 Working Days following Authority decision is recommended.

Elxon presented the Initial Written Assessment for P460 to the BSC Panel at its meeting on 10 August 2023 ([341/04](#)⁵).

Elxon advised the Panel that the MHHS SI has responsibility for Migration activities within the MHHSP and this is reflected in the resourcing of both BSCCo and the MHHSP, including the business separation arrangements in place. Given these arrangements, the argument for moving the responsibility to MHHSP to manage the migration plan was self-evident and as such the Modification would be best served being progressed directly to Report Phase. Furthermore, BSC Parties will be given a chance to comment on the suitability of the Modification via the Report Phase Consultation.

Elxon confirmed the Modification should better facilitate Applicable BSC Objective (d) 'promoting efficiency in the implementation and administration of the balancing and settlement arrangements' as allowing the MHHSP to manage the MHHS Migration plan will be the most efficient and logical use of resources.

As the Modification will impact the Code's governance procedures we did not believe this was a candidate for Self-Governance and as such should be referred to the Authority for a final decision.

The Panel had no comments on P460. The Panel:

- **RAISED** the Modification Proposal in accordance with Section F2.1.1(d) (i);
- **AGREED** P460 progresses directly to the Report Phase;
- **AGREE** that P460:
 - **DOES** better facilitate Applicable BSC Objective (d);
- **AGREED** an initial view that P460 **SHOULD NOT** be treated as a Self-Governance Modification;
- **AGREED** that P460 **DOES NOT** impact the EBGL Article 18 terms and conditions held within the BSC;
- **AGREED** an initial recommendation to the Authority that P460 should be **APPROVED**;
- **AGREED** an initial Implementation Date of:
 - **5 Working Days** following Authority decision;
- **AGREED** the draft Legal Text; and
- **NOTED** that Elxon will issue the Draft Modification Report (including the draft Legal Text) for a 10 Working Day consultation and will present the results to the Panel at its meeting on 14 September 2023.

7 Report Phase Consultation Responses

This section summarises the responses to the Panel's Report Phase Consultation on its initial recommendations. You can find the full responses in Attachment C.

We received 4 responses to the consultation, 1 from the MHHSP and 3 from Distributors. All respondents were in agreement with the Panel's initial unanimous recommendations and supportive of the Modification.

The MHHSP noted Medium impacts and costs (£100,000 - £1,000,000 using the costs categories provided in the consultation) to implement P460. The MHHSP noted there will be an increase in costs of the Programme to develop the plan which will fall onto Suppliers as Programme funders, but this should be partially offset by a reduction in BSCCo costs.

Summary of P460 Report Phase Consultation Responses

Question	Yes	No	Neutral/ No Comment	Other
Do you agree with the Panel's initial unanimous recommendation that P460 should be approved?	4	0	0	0
Do you agree with the Panel that the redlined changes to the BSC deliver the intent of P460?	4	0	0	0
Do you agree with the Panel's recommended Implementation Date?	4	0	0	0
Do you agree with the Panel's initial view that P460 should not be treated as a Self-Governance Modification?	4	0	0	0
Do you agree with the Panel's initial view that P460 does impact the EBGL Article 18 terms and conditions related to balancing held within the BSC?	4	0	0	0
Do you have any further comments on P460?	1	3	-	-

Summary of P460 Report Phase Consultation Responses

Question	High	Med	Low	None	Other
Will P460 impact your organisation?	0	1	0	3	0
How much will it cost your organisation to implement P460?	0	1	0	3	0
What will the ongoing cost of P460 be to your organisation?	0	0	0	4	0

8 Recommendations

The BSC Panel initially recommends to the Authority:

- That P460 be **approved**;
- That P460 **does not** impact the EBGL Article 18 terms and conditions held within the BSC;
- An Implementation Date for P460 of:
 - **5 Workings Days** following Authority Decision; and
- The draft Legal Text for P460.
