

‘BSC Section N Modernisation’

This Modification seeks to update BSC Section N ‘Clearing Invoicing and Payment’ to support the effective running of the Funds Administration Agent (FAA). The Modification will align the BSC with Elexon’s updated financial systems and modern banking practices to increase the efficiency of service provided to industry.

Elexon recommends the Panel raises the attached Modification Proposal in accordance with the provisions of Section F - Modification Procedures F2.1.1 (d)(i)

Elexon recommends this Modification is progressed directly to the Report Phase with an initial recommendation to approve

Elexon does consider that this Modification impacts the European Electricity Balancing Guideline (EBGL) Article 18 terms and conditions held within the BSC

This Modification is expected to impact:

- All BSC Parties

About This Document

You can find the definitions of the terms and acronyms used in this document in the [BSC Glossary](#)¹.

This document is a recommendation to the BSC Panel to raise a Modification Proposal (Attachment A) in accordance with BSC Section F2.1.1(d)(i). Elexon will present this paper to the BSC Panel at its meeting on 11 January 2024. If the BSC Panel agrees to raise the Modification Proposal, this document will form its Initial Written Assessment (IWA), and the Proposal Form will be updated and published on the Elexon website accordingly.

There are three parts to this document:

- This is the main document. It provides details of the Modification Proposal, the solution, impacts, costs, benefits/drawbacks, proposed implementation approach, and a recommendation of how the Modification should progress.
- Attachment A contains the Modification Proposal Form.
- Attachment B contains the draft redlined changes to the BSC for this Modification.

Why change?

[BSC Section N 'Clearing, Invoicing & Payment'](#)² was written over 20 years ago and therefore some sections within it are now redundant and no longer align with modern ways of working (e.g. invoicing and banking practices). This results in inefficiencies and unnecessary constraints that may prevent additional benefits from being sought and realised. Additionally, the FAA systems are being rebuilt in a cloud infrastructure to provide scalability, increase efficiency, and enable integration with the finance system. Therefore a review of BSC Section N seemed timely to align with this and was completed to determine if any improvements/benefits could be applied to enable any changes to the new FAA Service which are currently restricted by the Code, this was done under Issue 107 'Review of Section N – Clearing, Invoicing & Payment'.

Solution

The Proposed Solution involves amending BSC Section N that aligns with modern practices and the updated FAA systems. The processes should reduce duplication and make the process more efficient. The proposal also intends to amend irrelevant references that are now redundant so BSC parties more easily understand the BSC Section. The proposed solution will also allow the flexibility for improvements to the FAA systems that would previously have been limited by the legal text. Although this aligns with the new FAA system this Modification will be a document only change and simply aligns with the new system.

Impacts and costs

Elxon believe that this Modification will impact on the EBGL Article 18 Terms and Conditions held with the BSC as specified in the mapping given in [Section F Annex F-2](#)³. Elxon expect these impacts to be neutral. Section 3 of this paper provides a breakdown of the changes affecting EBGL Article 18 Terms and Conditions.

Implementation costs estimates			
Organisation	Item	Implementation costs (£)	Comment
Elxon	Systems	0	No BSC System changes
	Documents	<1k	Updates to BSC Sections
NGESO	Systems	0	No Impact identified
	Other	0	No Impact identified
Industry	Systems & processes	0	No Impact identified
Total		<1k	

Implementation

Elxon believe that this Modification should be implemented on Thursday 7 November 2024 as part of the November 2024 Standard Release. This aligns with the updates to the FAA system updates. As well as this, we are including other alternative options if an

BSC Section N

Section N of the BSC details:

- (a) payments to and from Elxon Clear and Payment Parties for Trading Charges and Reconciliation Charges;
- (b) arrangements for the FAA to determine and notify Payment Parties of Trading Charges and Reconciliation Charges;
- (c) payment procedures for the FAA and Payment Parties to follow;
- (d) the obligations of Elxon Clear and Payment Parties to make payments for Trading Charges and Reconciliation Charges and the consequences of non-payment; and
- (e) the basis on which monies and Credit Cover are held by Elxon Clear.

Consequences of late or unpaid Trading Charges are outlined in Section H with regards to breach of the BSC. Section N only applies in relation to Trading Charges and Reconciliation Charges and other payments due under Section N and does not apply to any BSCCo Charges (as specified in Section D) or other payments due from Parties specified elsewhere under the BSC.

² <https://bscdocs.elxon.co.uk/bsc/bsc-section-n-clearing-invoicing-payment>

³ <https://www.elxon.co.uk/the-bsc/bsc-section-f-modification-procedures/>

Authority decision isn't reached by the given date, these alternative options also avoid clashing with the November 2024 BSC Standard Release.

Recommendation

We recommend the Panel raise this Modification Proposal as it will better facilitate Applicable BSC Objective (d) by promoting efficiency in the implementation of the balancing and settlement arrangements. Should the BSC Panel agree to raise the Modification, we recommend that the Modification Proposal is progressed straight to Report Phase as the solution is fully developed. We also believe that it does have an impact on EBGL balancing terms and conditions and therefore be sent for a one month Report Phase Consultation.

What is the issue?

[BSC Section N 'Clearing, Invoicing & Payment'](#)⁴ was written over 20 years ago and therefore some sections within it are now deemed redundant and no longer align with modern ways of working (e.g. invoicing and banking practices). This results in inefficiencies and unnecessary constraints that may prevent additional benefits from being sought and realised.

As part of the Elexon Strategy and the implementation of [Elexon Kinnect](#)⁵, a cloud based platform, the FAA systems are being replaced with a new version on Kinnect. The FAA transfers Trading Charges to and from BSC Parties and manages the BSC Credit Cover arrangements. Kinnect is flexible, scalable and adaptable and creating a new FAA Service on Kinnect will modernise the BSC banking and payments processes, be less resource intensive, reduce manual processes and improve controls.

As part of the Elexon Strategy and the implementation of Elexon Kinnect, a cloud based platform, the FAA systems are being replaced with a new version on Kinnect. The FAA transfers Trading Charges to and from BSC Parties and manages the BSC Credit Cover arrangements. Kinnect is flexible, scalable and adaptable and creating a new FAA Service on Kinnect will modernise the BSC banking and payments processes, be less resource intensive, reduce manual processes and improve controls.

Therefore a review of BSC Section N seemed timely to align with this and was completed to determine if any improvements/benefits could be applied to enable any changes to the new FAA Service which are currently restricted by the Code.

Background

Elexon carried out a preliminary review of BSC Section N to align with the opportunity of updating FAA systems. This was to identify any potential improvements to the code and look at the possibility of streamlining processes to improve efficiencies for the benefits of BSC Parties.

[Issue 107 Review of BSC Section N 'Clearing, Invoicing & Payment'](#)⁶ was raised to review BSC Section N in order to identify solutions to alleviate pain points and improve efficiency. The Issue Group recommended an internal review by Elexon for BSC Section N, focusing on areas such as Banking Arrangements, Calculation of Payments, Payment Procedure, and Ledger Accounts. The Issue Group suggested that the consequential Modification, arising from the Elexon review, be initiated by the BSC Panel without additional Workgroups. Additionally, the Group recommended improvements to Advice Notes and Backing Sheets, although these do not form part of the Modification but were to be considered for templates in the new FAA system. Issue 107 was raised as a tabled item at [Panel 341/06](#) where it was noted by the Panel.

Sections identified as being in scope of the Section N review with no industry impacts were:

- BSC Section N4 Banking Arrangements
- BSC Section N6 Calculation of Payments

What is Elexon Kinnect?

Elexon Kinnect is a digital customer-centric platform delivering a smart and flexible central solution for the industry, which will be delivered through a number of releases over the next few years. The modular technology it uses will enable us to implement BSC rule changes more quickly, and provide speedier support for innovation by existing companies and new entrants.

What are Trading Charges?

Each Trading Party is liable to pay or receive Trading Charges for each Settlement Day. These charges are calculated in relation to Imbalance Settlement and Balancing Mechanism activity. The Settlement Administration Agent (SAA) determines the Trading Charges. Trading Charges are calculated for each BSC Party. Trading Charges are made up of: Account Energy Imbalance Cashflow; Information Imbalance Charge; Period Balancing Mechanism (BM) Unit Cashflow; BM Unit Period Non-Delivery Charge; Residual Cashflow Reallocation Cashflow (RCRC); and System Operator BM Cashflow. The SAA calculates these charges at every Settlement Run.

⁶ <https://www.elexon.co.uk/smg-issue/issue-107/>

- BSC Section N8 Payment Procedure and
- BSC Section N13 Ledger Accounts

Elxon presented an example of an amendment that had no impact to Industry, to ensure that the Issue Group were comfortable with the assessment. The example presented was section 4.8 'Banking Communications Links' which currently references setting up communication links with the BSC Banker. This section is now redundant as banking transactions are now all online and there is no need to set up banking communications links. The Issue Group were happy that this example would have no industry impact, and were comfortable with the assessment criteria used by Elxon. The Issue Group agreed that the lack of industry impact meant these sections did not need to be discussed further in Issue 107. The Issue Group agreed that the full review of these sections should be carried out by Elxon, and the identified improvements included in the consequential Modification.

Sections identified as being in scope of the Section N review with potential Industry Impacts were:

- BSC Section N7 Advice Notes
- BSC Section N9 Payment Default and
- BSC Section N10 Confirmation Notices in respect of a Payment Date.

Considering the potential for impacts to Industry, the Issue Group agreed that these sections would fall within scope of Issue 107, and were discussed by the Issue Group to identify potential issues and solutions.

Desired outcomes

This Modification seeks to update and modernise Section N and enable required changes recommended by Issue 107.

BSC Section N should be amended to:

- Remove and or/add existing text or processes where references are no longer required
- Re-write and/or merge existing text to simplify
- Allow existing processes to be updated and/or improved.

This will allow the following recommendations to progress forward:

- Improvements to BSC Section N as identified in the aforementioned Elxon Review
- Move the Payment Default timescales 9.6.1 (b) from D+2 to D+1; and
- Removal of Confirmation Notices, with the Advice Note becoming the Invoice for VAT

This will be beneficial toward BSC Parties as it will simplify processes such as removal of backing sheets for each charge and these will be incorporated into a single Backing Sheet for all Charges which will be available from the Elxon Portal. Also the removal of Confirmation Notes, with the Advice note becoming the Invoice for VAT, would decrease duplication as well as match that of the Balancing Services Use of System (BSUOs) invoices, which are generated by National Grid.

The update to Section N allows for more efficiency and merges current information to simplify and update the processes which have been in place for 20 years as recommended by the Issue 107 Workgroup, along with this the updated FAA system will improved current processes. Further impacts on Parties can be seen in Section 4 of this paper.

Proposed Solution:

In order to meet the desired outcomes described above, the legal text for Section N has been proposed to be amended (see attachment B).

A summary of these changes is also shown in the table below along with the impacted reference and section.

- Where the dependency within the table is showing as yes, these changes are dependent on the new FAA System being implemented.
- Where text is highlighted in red, these identify the BSC Sections which fall under EBGL impacted text under Section F, Article 18.6.c.

This solution will also amend Sections H, U, V and X-1 which will be consequential changes as part of the update to terminology in Section N.

A summary of the proposed solution amendment to Section N is provided in the table below.

BSC Section N Amendments

Section 4. BANKING ARRANGEMENTS

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
4.1	Establishment of Accounts	4.1.1	Added new Text.	The purpose of this added text is to provide an option to allow the Clearing Account and Collection Account to be one Account if required.	No
4.2.	Funds Transfer Agreement	4.2.3	Deleted text under 4.2.3 (a)	Removed as reference to Code effective date is no longer required.	No
4.2.	Funds Transfer Agreement	4.2.3	Moved existing text under 4.2.3 (b) to 4.2.3	To re-format the section after deleting text above	No
4.3	Settlement Account	4.3.3	Added text for 4.3.3 to refer to BSCP301 and to cover requirements in 4.4 and 4.5	The purpose of this added text was to define requirements for a Settlement Account	No
4.4-4.5	Settlement Account	4.4-4.5	Deleted text and removed as Not Used.	The purpose of removing these sections was to	No

Page 9 of 20

© Elexon Limited 2024

9.6	D=2	9.6.1 – 9.6.2	Deleted existing text and revised and added to 9.5.	Clarification of the D+1 systems	No
-----	-----	---------------------	---	----------------------------------	----

What are the Applicable BSC Objectives?

(a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence

(b) The efficient, economic and co-ordinated operation of the National Electricity Transmission System

(c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity

(d) Promoting efficiency in the implementation of the balancing and settlement arrangements

(e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]

(f) Implementing and administering the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation

(g) Compliance with the Transmission Losses Principle

Section 10. CONFIRMATION NOTICES IN RESPECT OF A PAYMENT DATE

Section	Ref	Summary of Change	Rationale	Dependency on new FAA System
10	Confirmation Notices in respect of a Payment Date	10.1-10.3 Deleted section 10.	Removed this section as reference to the Tax Invoice is to merge in Section 7. Advice Notes will become Invoices as will be the Tax Invoice	Yes

Section 13. LEDGER ACCOUNTS

Section	Ref	Summary of Change	Rationale	Dependency on new FAA System
13	Ledger Accounts	13.1-13.7 The whole section relating to Section 13 has been deleted and put as Not Used.	Removed this section as this is redundant as it is covered in BAU banking practices and not required in the code.	No

Benefits

The proposed solution will reduce duplication and simplify processes increasing efficiency for FAA and Parties as it will remove duplication such as merging all backing sheets into one singular backing sheet for all charges and the removal of Confirmation Notices, with the Advice Note becoming the Invoice for VAT as proposed by the Issue 107 Workgroup. The amendments to Section N will also remove redundancies and simplify text where required. These updates will allow the flexibility for improvements to the FAA systems that would previously have been limited by the current drafting within the BSC.

Applicable BSC Objectives

Impact of the Modification on the Relevant Objectives:	
Relevant Objective	Identified impact
a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence	Neutral
(b) The efficient, economic and co-ordinated operation of the National Electricity Transmission System	Neutral

346/04

Initial Written Assessment

Thursday 4 January

Version 1.0

Page 10 of 20

© Elexon Limited 2024

(c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity	Neutral
(d) Promoting efficiency in the implementation of the balancing and settlement arrangements	Positive
(e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]	Neutral
(f) Implementing and administrating the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation	Neutral
(g) Compliance with the Transmission Losses Principle	Neutral

The Modification will better facilitate BSC Applicable Objective (d) and promote efficiency in the implementation of the balancing and settlement arrangements as it will modernise Section N and the associated processes, resulting in efficiencies for Elexon and industry by removing duplication for BSC Parties to help streamline their processes as well as helping to promote efficiency with this Modification aligning with the new FAA System. Although this aligns with the new FAA system this Modification will be a document only change and simply aligns with the new system.

Implementation approach

Elexon recommends an Implementation Date of:

- 7 November 2024 as part of the Standard November 2024 BSC Release if an Authority decision is received on or before 9 September 2024; or
- 14 November 2024 if an Authority decision is received after 9 September 2024 but on or before 7 November 2024; or
- 5 Working Days after an Authority decision if that Authority decision is received after 7 November 2024

This will align with the FAA system update and allow there to be sufficient time for the changes to 'go live' date. With this in place the document updates can seamlessly be implemented during the November 2024 Release. To support this, a decision to approve this Modification will be required from Ofgem by 7 September 2024. If the Authority decision is received after the 7 September 2024 then two alternative options have been provided, these alternative options also avoid clashing with the November 2024 BSC Standard Release.

4 Impacts, Costs and Benefits

Estimated costs

The central implementation costs for this Modification will be less than £1K to make the necessary changes to the BSC Sections. As this is a document only change there is expected to be no system costs. No ongoing costs are expected.

We do not expect there to be any implementation costs for Parties and Party Agents resulting from this Modification

- High: >£1 million
- Medium: £100-1000k
- Low: <£100k

Implementation costs estimates			
Organisation	Item	Implementation costs (£)	Comment
Elexon	Systems	0	No BSC System changes
	Documents	<1k	Updates to BSC Sections
NGESO	Systems	0	No Impact identified
	Other	0	No Impact identified
Industry	Systems & processes	0	No Impact identified
Total		<1k	

On-going costs estimates		
Organisation	On-going costs (£)	Comment
Elexon	0	No on-going costs expected. May be cost savings due to reduction in duplication

Benefits

The proposed solution will reduce duplication and simplify processes increasing efficiency for FAA and Parties. The amendments to Section N will also remove redundancies and simplify text where required. These updates will allow the flexibility for improvements to the FAA systems that would previously have been limited by the legal text.

Impact of the Modification on the environment and consumer benefit areas:	
Consumer benefit area	Identified impact
1) Improved safety and reliability	Neutral
2) Lower bills than would otherwise be the case	Neutral
3) Reduced environmental damage	Neutral
4) Improved quality of service	Neutral
5) Benefits for society as a whole	Neutral

This Modification is not expected to impact any of the consumer benefit areas.

Although the impacts on consumers and the environment have been identified as neutral we believe there is a slight improved quality of service once the new FAA system has been implemented. As this is a document only change to align with the updated system Elexon believe that this can remain neutral.

BSC Party Impacts

This Modification will impact all BSC Parties where an amendment in the code has a dependency on the implementation of the new FAA System. This is due to potential updates required to systems and processes as a result of:

- Advice Notes becoming the Invoice (and tax invoice)
- Confirmation Notes being removed (existing tax invoice)

The table and information below identifies how Industry currently receives FAA outputs and how this will be received in the new System once implemented.

What are the consumer benefit areas?

- 1) Will this change mean that the energy system can operate more safely and reliably now and in the future in a way that benefits end consumers?
- 2) Will this change lower consumers' bills by controlling, reducing, and optimising spend, for example on balancing and operating the system?
- 3) Will this proposal support:
 - i) new providers and technologies?
 - ii) a move to hydrogen or lower greenhouse gases?
 - iii) the journey toward statutory net-zero targets?
 - iv) decarbonisation?
- 4) Will this change improve the quality of service for some or all end consumers. Improved service quality ultimately benefits the end consumer due to interactions in the value chains across the industry being more seamless, efficient and effective.
- 5) Are there any other identified changes to society, such as jobs or the economy.

---	--	---	--	--	---

Next steps

Should the Panel agree to raise this Modification Proposal, we believe it should progress straight to Report Phase with a one month EBGL consultation period.

This Modification should be submitted directly to the Report Phase, as the solution is self-evident, following the Issue 107 review. As the solution has been recommended by the Issue 107 Issue Group there would be little benefit in assessment via another industry Workgroup. This progression route would make best use of industry time and support a more expedient delivery of the changes.

Timetable

Proposed Progression Timetable for the Modification	
Event	Date
Present Initial Written Assessment to Panel	11 January 2024
Report Phase Consultation	15 January 2024 – 15 Feb 2024
Present Draft Modification Report to Panel	14 March 2024
Issue Final Modification Report to Authority	15 March 2024

Please note that the Report Phase Consultation for this Modification will be one month due to the EBGL provisions held within the BSC.

What is the Self-Governance Criteria?

A Modification that, if implemented:

(a) does not involve any amendments whether in whole or in part to the EBGL Article 18 terms and conditions; except to the extent required to correct an error in the EBGL Article 18 terms and conditions or as a result of a factual change, including but not limited to:

(i) correcting minor typographical errors;

(ii) correcting formatting and consistency errors, such as paragraph numbering; or

(iii) updating out of date references to other documents or paragraphs;

(b) is unlikely to have a material effect on:

(i) existing or future electricity consumers; and

(ii) competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution, or supply of electricity; and

(iii) the operation of the national electricity transmission system; and

(iv) matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies; and

(v) the Code's governance procedures or modification procedures; and

(b) is unlikely to discriminate between different classes of Parties.

6 Recommendations

We invite the Panel to:

- **RAISE** this Modification Proposal in accordance with BSC Section F2.1.1 (d) (iv);
- **AGREE** that this Modification progresses directly to the Report Phase;
- **AGREE** that this Modification:
 - **DOES** better facilitate Applicable BSC Objective (d);
- **AGREE** an initial view that this Modification **SHOULD NOT** be treated as a Self-Governance Modification;
- **AGREE** that this Modification **DOES** impact the EBGL Article 18 terms and conditions held within the BSC;
- **AGREE** the impact on the EBGL objectives;
- **AGREE** an initial recommendation to the Authority that this Modification should be **APPROVED**
- **AGREE** an initial Implementation Date of:
 - **7 November 2024** as part of the Standard November 2024 BSC Release if an Authority decision is received on or before 9 September 2024; or
 - **14 November 2024** if an Authority decision is received after 9 September 2024 but on or before 7 November 2024; or
 - **5 Working Days** after an Authority decision if that Authority decision is received after 7 November 2024
- **AGREE** the draft Legal Text;
- **NOTE** that Elexon will issue the Draft Modification Report (including the draft Legal Text) for a one month consultation and will present the results to the Panel at its meeting on **14 March 2024**.
