

## P466 ‘Section N Modernisation’

This Modification seeks to update BSC Section N ‘Clearing Invoicing and Payment’ to support the effective running of the Funds Administration Agent (FAA). The Modification will align the BSC with Elexon’s updated financial systems and modern banking practices to increase the efficiency of service provided to industry.

This Report Phase Consultation for P466 closes:

**5pm on Monday 19 February 2024**

The Panel may not be able to consider late responses.

The BSC Panel initially recommends **approval** of P466

The BSC Panel **does** believe P466 impacts the European Electricity Balancing Guideline (EBGL) Article 18 terms and conditions held within the BSC

This Modification is expected to impact:

- All BSC Parties
- Elexon

## About This Document

You can find the definitions of the terms and acronyms used in this document in the [BSC Glossary<sup>1</sup>](#).

This is the P466 Draft Modification Report, which Elexon is issuing for industry consultation on the BSC Panel's behalf. It contains the Panel's provisional recommendations on P466. The Panel will consider all consultation responses at its meeting on 14 March 2024, when it will agree a final recommendation to the Authority on whether or not the change should be made.

There are 4 parts to this document:

- This is the main document. It provides details of the solution, impacts, costs, benefits/drawbacks and proposed implementation approach.
- Attachment A contains the P466 Proposal Form.
- Attachment B contains the draft redlined changes to the BSC for P466.
- Attachment C contains the Report Phase Consultation Questions.

## Why Change?

[BSC Section N 'Clearing, Invoicing & Payment'](#)<sup>2</sup> was written over 20 years ago and therefore some sections within it are now redundant and no longer align with modern ways of working (e.g. invoicing and banking practices). This results in inefficiencies and unnecessary constraints that may prevent additional benefits from being sought and realised. Additionally, the FAA systems are being rebuilt in a cloud infrastructure to provide scalability, increase efficiency, and enable integration with the finance system. Therefore a review of BSC Section N seemed timely to align with this and was completed to determine if any improvements/benefits could be applied to enable any changes to the new FAA Service which are currently restricted by the Code, this was done under [Issue 107 'Review of Section N – Clearing, Invoicing & Payment'](#)<sup>3</sup>.

## Solution

The P466 solution involves amending BSC Section N to align it with modern practices and the updated FAA systems. The processes should reduce duplication and make the process more efficient. The proposal also intends to amend irrelevant references that are now redundant so BSC parties more easily understand the BSC Section. The proposed solution will also allow the flexibility for improvements to the FAA systems that would previously have been limited by the legal text. Although this aligns with the new FAA system this Modification will be a document only change and simply aligns with the new system.

## Impacts & Costs

This Modification will impact on the EBGL Article 18 Terms and Conditions held with the BSC as specified in the mapping given in [Section F Annex F-2](#)<sup>4</sup>. Ellexon and the BSC Panel believe these impacts to be neutral. Section 3 of this paper provides a breakdown of the changes affecting EBGL Article 18 Terms and Conditions.

### BSC Section N

Section N of the BSC details:

- (a) payments to and from Ellexon Clear and Payment Parties for Trading Charges and Reconciliation Charges;
- (b) arrangements for the FAA to determine and notify Payment Parties of Trading Charges and Reconciliation Charges;
- (c) payment procedures for the FAA and Payment Parties to follow;
- (d) the obligations of Ellexon Clear and Payment Parties to make payments for Trading Charges and Reconciliation Charges and the consequences of non-payment; and
- (e) the basis on which monies and Credit Cover are held by Ellexon Clear.

Consequences of late or unpaid Trading Charges are outlined in Section H with regards to breach of the BSC. Section N only applies in relation to Trading Charges and Reconciliation Charges and other payments due under Section N and does not apply to any BSCCo Charges (as specified in Section D) or other payments due from Parties specified elsewhere under the BSC.

## Implementation

The Panel believe that this Modification should be implemented on Thursday 7 November 2024 as part of the November 2024 Standard Release. This aligns with the updates to the FAA system. Additionally, the proposed implementation approach includes fall back options if an Authority decision isn't reached by the given date, these additional options avoid a potential clash with the November 2024 BSC Standard Release.

## Recommendation

The Panel raised this Modification Proposal during Panel 346 ([346/04<sup>5</sup>](#)). The Panel initially believes that P466 will better facilitate Applicable BSC Objective (d) by promoting efficiency in the implementation of the balancing and settlement arrangements. P466 is progressing straight to Report Phase as the solution has been fully developed. The Panel believes that P466 does have an impact on EBGL balancing terms and conditions, although this impact is believed to be neutral, and therefore will be sent for a one calendar month Report Phase Consultation

### What is the issue?

[BSC Section N 'Clearing, Invoicing & Payment'](#)<sup>6</sup> was written over 20 years ago and therefore some sections within it are now deemed redundant and no longer align with modern ways of working (e.g. invoicing and banking practices). This results in inefficiencies and unnecessary constraints that may prevent additional benefits from being sought and realised.

As part of the Elexon Strategy and the implementation of [Elexon Kinnect](#)<sup>7</sup>, a cloud based platform, the FAA systems are being replaced with a new version on Kinnect. The FAA transfers Trading Charges to and from BSC Parties and manages the BSC Credit Cover arrangements. Kinnect is flexible, scalable and adaptable and creating a new FAA Service on Kinnect will modernise the BSC banking and payments processes, be less resource intensive, reduce manual processes and improve controls.

Therefore a review of BSC Section N seemed timely to align with this and was completed to determine if any improvements/benefits could be applied to enable any changes to the new FAA Service which are currently restricted by the Code.

### Background

Elexon carried out a preliminary review of BSC Section N to align with the opportunity of updating FAA systems. This was to identify any potential improvements to the code and look at the possibility of streamlining processes to improve efficiencies for the benefits of BSC Parties.

[Issue 107 Review of BSC Section N 'Clearing, Invoicing & Payment'](#)<sup>8</sup> was raised to review BSC Section N in order to identify solutions to alleviate pain points and improve efficiency. The Issue Group recommended an internal review by Elexon for BSC Section N, focusing on areas such as Banking Arrangements, Calculation of Payments, Payment Procedure, and Ledger Accounts. The Issue Group suggested that the consequential Modification, arising from the Elexon review, be initiated by the BSC Panel without additional Workgroups. Additionally, the Group recommended improvements to Advice Notes and Backing Sheets, although these do not form part of the Modification but were to be considered for templates in the new FAA system. Issue 107 was raised as a tabled item at [Panel 341/06](#)<sup>9</sup> where it was noted by the Panel.

Sections identified as being in scope of the Section N review with no industry impacts were:

- BSC Section N4 Banking Arrangements
- BSC Section N6 Calculation of Payments
- BSC Section N8 Payment Procedure and
- BSC Section N13 Ledger Accounts

Elexon presented an example of an amendment that had no impact to Industry, to ensure that the Issue Group were comfortable with the assessment. The example presented was

#### What is Elexon Kinnect?

Elexon Kinnect is a digital customer-centric platform delivering a smart and flexible central solution for the industry, which will be delivered through a number of releases over the next few years. The modular technology it uses will enable us to implement BSC rule changes more quickly, and provide speedier support for innovation by existing companies and new entrants.

#### What are Trading Charges?

Each Trading Party is liable to pay or receive Trading Charges for each Settlement Day. These charges are calculated in relation to Imbalance Settlement and Balancing Mechanism activity. The Settlement Administration Agent (SAA) determines the Trading Charges. Trading Charges are calculated for each BSC Party. Trading Charges are made up of: Account Energy Imbalance Cashflow; Information Imbalance Charge; Period Balancing Mechanism (BM) Unit Cashflow; BM Unit Period Non-Delivery Charge; Residual Cashflow Reallocation Cashflow (RCRC); and System Operator BM Cashflow. The SAA calculates these charges at every Settlement Run.

section 4.8 'Banking Communications Links' which currently references setting up communication links with the BSC Banker. This section is now redundant as banking transactions are now all online and there is no need to set up banking communications links. The Issue Group were happy that this example would have no industry impact, and were comfortable with the assessment criteria used by Elexon. The Issue Group agreed that the lack of industry impact meant these sections did not need to be discussed further in Issue 107. The Issue Group agreed that the full review of these sections should be carried out by Elexon, and the identified improvements included in the consequential Modification.

Sections identified as being in scope of the Section N review with potential Industry Impacts were:

- BSC Section N7 Advice Notes
- BSC Section N9 Payment Default and
- BSC Section N10 Confirmation Notices in respect of a Payment Date.

Considering the potential for impacts to Industry, the Issue Group agreed that these sections would fall within scope of Issue 107, and were discussed by the Issue Group to identify potential issues and solutions.

## Desired outcomes

This Modification seeks to update and modernise Section N and enable required changes recommended by Issue 107.

BSC Section N should be amended to:

- Remove and or/add existing text or processes where references are no longer required
- Re-write and/or merge existing text to simplify
- Allow existing processes to be updated and/or improved.

This will allow the following recommendations to progress forward:

- Improvements to BSC Section N as identified in the aforementioned Elexon Review
- Move the Payment Default timescales 9.6.1 (b) from D+2 to D+1; and
- Removal of Confirmation Notices, with the Advice Note becoming the Invoice for VAT

This will be beneficial toward BSC Parties as it will simplify processes such as removal of backing sheets for each charge and these will be incorporated into a single Backing Sheet for all Charges which will be available from the Elexon Portal. Also the removal of Confirmation Notes, with the Advice note becoming the Invoice for VAT, would decrease duplication as well as match that of the Balancing Services Use of System (BSUOs) invoices, which are generated by National Grid.

The update to Section N allows for more efficiency and merges current information to simplify and update the processes which have been in place for 20 years as recommended by the Issue 107 Workgroup, along with this the updated FAA system will improved current processes.

## Proposed solution

In order to meet the desired outcomes described above, the legal text for Section N has been amended (see attachment B).

A summary of these changes is also shown in the table below along with the impacted reference and section.

- Where the dependency within the table is showing as 'yes', these changes are dependent on the new FAA System being implemented.
- Where text is highlighted in red, these identify the BSC Sections which fall under EBGL impacted text under [Section F, Annex F-2<sup>10</sup>](#)

This solution will also amend [Sections H 'General'<sup>11</sup>](#), [U 'Provisions Relating to Settlement'<sup>12</sup>](#), [V 'Reporting'<sup>13</sup>](#) and [X-1 'General Glossary'<sup>14</sup>](#) which will be consequential changes as part of the update to terminology in BSC Section N.

A summary of the proposed solution's amendment to Section N is provided in the table below.

## BSC Section N Amendments

### Section 4. BANKING ARRANGEMENTS

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
4.1	Establishment of Accounts	4.1.1	Added new Text.	The purpose of this added text is to provide an option to allow the Clearing Account and Collection Account to be one Account if required.	No
4.2.	Funds Transfer Agreement	4.2.3	Deleted text under 4.2.3 (a)	Removed as reference to Code effective date is no longer required.	No
4.2.	Funds Transfer Agreement	4.2.3	Moved existing text under 4.2.3 (b) to 4.2.3	To re-format the section after deleting text above	No

4.3	Settlement Account	4.3.3	Added text for 4.3.3 to refer to BSCP301 and to cover requirements in 4.4 and 4.5	The purpose of this added text was to define requirements for a Settlement Account	No
4.4-4.5	Settlement Account	4.4-4.5	Deleted text and removed as Not Used.	The purpose of removing these sections was to simplify the code requirements which are now covered in revised text under 4.3.3	No
4.7	Details of Accounts	4.7	Deleted text and removed section as Not used.	Removed this section as this would be done under BAU banking practices and not required in the code.	No
4.8	Banking Communication Links	4.8	Deleted text and removed section as Not used.	Removed this section as this would be done under BAU banking practices and not required in the code	No
4.9	Credit Facility	4.9.2	Deleted text reference to Go Live Date point (a) and moved text from existing point (b) to 4.9.2	Removed reference to Code effective date is no longer required.	No

## Section 6. CALCULATION OF PAYMENTS

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
6.1	Settlement Runs	6.1.1	Deleted reference to 09:00 Hours and added text to refer to BSCP301 for timings	Removed reference to time specified in the code as this is covered under the process defined in BSCP301.	No
6.2	Validation by FAA	6.2.2	Deleted text reference to specific amount of difference between total debits and credits	The purpose of this is to allow flexibility of the amount stipulated and could be changed under BSCP301 if required.	No

6.4	Reconciliation	6.4.2B	Deleted Text	Removed as reference to Go Live Date is no longer relevant	No
6.6	Postponed Payments	6.6.2B	Deleted Text	Removed as reference to Go Live Date is no longer relevant	No

## Section 7. ADVICE NOTES

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
7	ADVICE NOTES	7	Changed Title from Advice Notes to Invoices	Advice Note to become Invoice	Yes
7.1	Dispatch of Advice Notes	7.1-7.2	Changed references to Advice Notes to Invoices	As above	Yes
7.3	Invoice Information	7.3.1	Added new sections 7.3.1,7.3.2,7.3.3	The purpose of this was to add text originally in Section 10 (Confirmation Notes) into Section 7.	Yes

N.B All other text references to Advice Notes within Section N have also been changed to Invoice. These have not been listed separately.

## Section 8. PAYMENT PROCEDURE

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
8.2	FAA's Responsibilities	8.2.1	Amended existing text to refer to BSCP301 and deleted (a,b and c)	Removed text in points a, b, c as this is process oriented and is covered in BSCP301.	No
8.3	Non-Payment	8.3.2	Deleted existing text.	Removed as already covered in 8.3.1.	No
8.4	Excess Payments	8.4.1	Deleted text reference to 11:00 and 16:00 hours and added reference to timings as stipulated in BSCP301.	Removed reference to time specified in the code as this is covered under the process defined in BSCP301	No

## Section 9. PAYMENT DEFAULT

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
9.5	D+1	9.5.5	Revised text to be added to this section from 9.6	The purpose of adding this text to D+1 is allow the process within the code of being able to draw on cash if payment not received under BAU	No
9.6	D=2	9.6.1 – 9.6.2	Deleted existing text and revised and added to 9.5.	Clarification of the D+1 systems	No

## Section 10. CONFIRMATION NOTICES IN RESPECT OF A PAYMENT DATE

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
10	Confirmation Notices in respect of a Payment Date	10.1-10.3	Deleted section 10.	Removed this section as reference to the Tax Invoice is to merge in Section 7.  Advice Notes will become Invoices as will be the Tax Invoice	Yes

## Section 13. LEDGER ACCOUNTS

Section		Ref	Summary of Change	Rationale	Dependency on new FAA System
13	Ledger Accounts	13.1-13.7	The whole section relating to Section 13 has been deleted and put as Not Used.	Removed this section as this is redundant as it is covered in BAU banking practices and not required in the code.	No

## Benefits

The proposed solution will reduce duplication and simplify processes increasing efficiency for FAA and Parties as it will remove duplication such as merging all backing sheets into one singular backing sheet for all charges and the removal of Confirmation Notices, with the Advice Note becoming the Invoice for VAT as proposed by the Issue 107 Workgroup. The amendments to Section N will also remove redundancies and simplify text where required. These updates will allow the flexibility for improvements to the FAA systems that would previously have been limited by the current drafting within the BSC.

### What are the Applicable BSC Objectives?

(a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence

(b) The efficient, economic and co-ordinated operation of the National Electricity Transmission System

(c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity

(d) Promoting efficiency in the implementation of the balancing and settlement arrangements

(e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]

(f) Implementing and administering the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation

(g) Compliance with the Transmission Losses Principle

## Applicable BSC Objectives

Impact of the Modification on the Relevant Objectives:	
Relevant Objective	Identified impact
a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence	Neutral
(b) The efficient, economic and co-ordinated operation of the National Electricity Transmission System	Neutral
(c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity	Neutral
(d) Promoting efficiency in the implementation of the balancing and settlement arrangements	<b>Positive</b>
(e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]	Neutral
(f) Implementing and administering the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation	Neutral
(g) Compliance with the Transmission Losses Principle	Neutral

The Modification will better facilitate BSC Applicable Objective (d) and promote efficiency in the implementation of the balancing and settlement arrangements as it will modernise Section N and the associated processes, resulting in efficiencies for Elexon and industry by removing duplication for BSC Parties to help streamline their processes as well as helping to promote efficiency with this Modification aligning with the new FAA System. Although this aligns with the new FAA system this Modification will be a document only change and simply aligns with the new system.

## Implementation approach

The BSC Panel recommends an Implementation Date of:

- 7 November 2024 as part of the Standard November 2024 BSC Release if an Authority decision is received on or before 9 September 2024; or
- 14 November 2024 if an Authority decision is received after 9 September 2024 but on or before 7 November 2024; or
- 5 Working Days after an Authority decision if that Authority decision is received after 7 November 2024

This will align with the FAA system update and allow there to be sufficient time for the changes to 'go live' date. With this in place the document updates can seamlessly be implemented during the November 2024 Release. To support this, a decision to approve this Modification will be required from Ofgem by 7 September 2024. If the Authority

decision is received after the 9 September 2024 then two fall back options have been provided, these fall back options also avoid clashing with the November 2024 BSC Standard Release.

### P466 impacts

Impact on BSC Parties and Party Agents		
Party/Party Agent	Potential Impact	Potential cost
All BSC Parties	This Modification will impact all BSC Parties where an amendment in the code has a dependency on the implementation of the new FAA System (Advice Notes becoming the Invoice (and tax invoice) and Confirmation Notes being removed). This is expected to be a low impact and will improve processes for all parties with the changes to Section N and the update to the FAA System.	L

## BSC Party Impacts

This Modification will impact all BSC Parties where an amendment in the code has a dependency on the implementation of the new FAA System. This is due to potential updates required to systems and processes as a result of:

- Advice Notes becoming the Invoice ( and tax invoice)
- Confirmation Notes being removed ( existing tax invoice)

The table and information below identifies how i0ndustry currently receives FAA outputs and how this will be received in the new System once implemented.

This is not expected to impact any open SCR. This was confirmed by Ofgem on Friday 19 January

### What are the consumer benefit areas?

- 1) Will this change mean that the energy system can operate more safely and reliably now and in the future in a way that benefits end consumers?
- 2) Will this change lower consumers' bills by controlling, reducing, and optimising spend, for example on balancing and operating the system?
- 3) Will this proposal support:
  - i) new providers and technologies?
  - ii) a move to hydrogen or lower greenhouse gases?
  - iii) the journey toward statutory net-zero targets?
  - iv) decarbonisation?
- 4) Will this change improve the quality of service for some or all end consumers. Improved service quality ultimately benefits the end consumer due to interactions in the value chains across the industry being more seamless, efficient and effective.
- 5) Are there any other identified changes to society, such as jobs or the economy.

## Benefits

The proposed solution will reduce duplication and simplify processes increasing efficiency for FAA and Parties. The amendments to Section N will also remove redundancies and simplify text where required. These updates will allow the flexibility for improvements to the FAA systems that would previously have been limited by the legal text.

1) Impact of the Modification on the environment and consumer benefit areas:	
Consumer benefit area	Identified impact
1) Improved safety and reliability	Neutral
2) Lower bills than would otherwise be the case	Neutral
3) Reduced environmental damage	Neutral
4) Improved quality of service	Neutral
5) Benefits for society as a whole	Neutral

This Modification is not expected to impact any of the consumer benefit areas.

Although the impacts on consumers and the environment have been identified as neutral we believe there is a slight improved quality of service once the new FAA system has been implemented. As this is a document only change to align with the updated system Elexon believe that this can remain neutral.

## Report Phase Consultation Questions

Will P466 impact your organisation?

*If it will impact, please provide a description of the impact(s) and any activities which you will need to undertake between approval and implementation (including any necessary changes to your systems, documents and processes) and any on-going operational impacts. Where applicable, please state any difference in impacts between the proposed solutions.*

How much will it cost your organisation to implement P466?

*If any, please provide details of these costs, how they arise. Please also state whether it makes any difference to these costs whether implemented as part of or outside of a normal BSC Systems Release. Where applicable, please state any difference in costs between the proposed solutions and if applicable, between the different roles.*

What will the ongoing cost of P466 be to your organisation?

*If any, please provide details of these costs, how they arise. Please also state whether it makes any difference to these costs whether P466 is implemented as part of or outside of a normal BSC Systems Release. Where applicable, please state any difference in costs between the proposed solutions and if applicable, between the different roles.*

How long (from the point of approval) would you need to implement P466?

*Please provide an explanation of your required lead time, and which activities are the key drivers behind the timescale. Please also state whether it makes any difference to this lead time whether implemented as part of or outside of a normal BSC Systems Release. Where applicable, please state any difference in lead times between the proposed solutions.*

Do you agree with the identified consumer benefits?

*Please provide your rationale.*

The Panel invites you to give your views using the response form in Attachment C

Recommended Implementation Date

The Panel recommends an Implementation Date for P466 of:

- **7 November 2024** as part of the Standard November 2024 BSC Release if an Authority decision is received on or before 9 September 2024; or
- **14 November 2024** if an Authority decision is received after 9 September 2024 but on or before 7 November 2024; or
- **5 Working Days** after an Authority decision if that Authority decision is received after 7 November 2024

Report Phase Consultation Question
Do you agree with the Panel’s recommended Implementation Date? <i>Please provide your rationale.</i>
The Panel invites you to give your views using the response form in Attachment C

What are the Applicable BSC Objectives?

(a) The efficient discharge by the NETSO of the obligations imposed upon it by the Transmission Licence

(b) The efficient, economic and co-ordinated operation of the National Electricity Transmission System

(c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity

(d) Promoting efficiency in the implementation of the balancing and settlement arrangements

(e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]

(f) Implementing and administering the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation

(g) Compliance with the Transmission Losses Principle

This Modification was presented to the BSC Panel as an Initial Written Assessment (IWA) (465/04), a Panel member commented on Section N 4.7 and N4.8 with a query on whether the removal of these sections are necessary as it removes key processes that are linking to reserve accounts for Parties, therefore the removal wouldn't be beneficial and therefore contradicts the solution of the Modification, although the member was happy to submit P466 to the Report Phase. Elexon agreed to take this away and respond as soon as they can.

In response to the Panel members' comments, Elexon provided an explanation as to why they removed Section N4.7 and 4.8. The removal of the sections were due to when the review was undertaken Elexon were seeking to streamline and remove anything that seems redundant or unnecessary. Both 4.7 and 4.8 are undertaken automatically under standard BAU banking practices and as a result they felt comfortable deleting these within the code. Furthermore, Elexon further noted that N4.8 is now redundant as it is establishing a communication link was the pre-internet banking method of making payments. This no longer applies as it is all done through the internet nowadays, therefore we thought the best approach was to take it out entirely. Elexon notified the Panel member with these comments via email and call.

The Panel noted the recommendation that this Modification be approved by the Authority (not Self-Governance) due to the impact to EBGL, considering that this is an update to BSC Section N where processes updated following the removal of duplication and streamlining of processes (See Section 3). Elexon stated that the exception for amendments to EBGL Article 18 Terms and Conditions are not sufficient to warrant P466 a Self-Governance Modification.

The BSC Panel had no further comments.

The Panel unanimously;

- a) **RAISED** this Modification Proposal in accordance with BSC Section F2.1.1 (d) (iv);
- b) **AGREED** that this Modification Progresses directly to the Report Phase;
- c) **AGREED** that this Modification:
  - i **DOES** better facilitate Applicable BSC Objective (d);
- d) **AGREED** an initial view that this Modification **SHOULD NOT** be treated as a Self-Governance Modification;
- e) **AGREED** that this Modification **DOES** impact the EBGL Article 18 terms and conditions held within the BSC;
- f) **AGREED** the impact on the EBGL objectives;
- g) **AGREED** an initial recommendation to the Authority that this Modification should be **APPROVED**
- h) **AGREED** an initial Implementation Date of:
  - i **7 November 2024** as part of the Standard November 2024 BSC Release if an Authority decision is received on or before 9 September 2024; or
  - ii **14 November 2024** if an Authority decision is received after 9 September 2024 but on or before 7 November 2024; or
  - iii **5 Working Days** after an Authority decision if that Authority decision is received after 7 November 2024
- i) **AGREED** the draft Legal Text;

### What is the Self-Governance Criteria?

A Modification that, if implemented:

- (a) does not involve any amendments whether in whole or in part to the EBGL Article 18 terms and conditions; except to the extent required to correct an error in the EBGL Article 18 terms and conditions or as a result of a factual change, including but not limited to:
  - (i) correcting minor typographical errors;
  - (ii) correcting formatting and consistency errors, such as paragraph numbering; or
  - (iii) updating out of date references to other documents or paragraphs;
- (b) is unlikely to have a material effect on:
  - (i) existing or future electricity consumers; and
  - (ii) competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution, or supply of electricity; and
  - (iii) the operation of the national electricity transmission system; and
  - (iv) matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies; and
  - (v) the Code's governance procedures or modification procedures; and

(b) is unlikely to discriminate between different classes of Parties.
