Date and time **28 August 2024**

Purpose **For Information**

To **Market Participants**

From **MDD Co-ordinator**

Additional MDD Publish: Incorrect Technical Product Deliverables (TPD) data in MDD Version 351

Due to an error, the Market Domain Data (MDD) Version 351 published on 14 August 2024 (with a Go-Live date of 21 August 2024) contains incorrect Regression Coefficient data in the Technical Product Deliverables (TPDs) as per Change Request M4588. These become effective from Monday 02 September 2024.

To rectify this, Elexon will be performing an additional publish (V352) on Thursday 29 August 2024 with a Go-Live date of Friday 30 August 2024 (to meet the first date of 02 September 2024 from which the corrected TPDs need to be applied). This will be circulated to parties via the normal MDD communication routes.

Due to the incorrect data in MDD Version 351, all Parties are required to take one of the following actions:

- Load the full version (D0269) of MDD Version 351 and the incremental version (D0270) of MDD Version 352;
or
- Load the full version (D0269) of MDD Version 352; **or**
- Load the incremental version (D0270) of both MDD Versions 351 and of 352.

The D0270 flow in V352 will only contain the records for the TPDs, effective from 02 September 2024.

This will also mean that the MDD Version due to Go-Live on Wednesday 18 September 2024 will be incremented to MDD Version 353 – all future versions of MDD will be incremented by one.

Background

At the Supplier Volume Allocation Group (SVG) meeting 282 on 06 August 2024, the SVG approved the implementation of the new Regression Coefficients in the TPDs in MDD v351, effective from 02 September 2024. Following the publish of MDD V351, an error in the Regression Coefficients was identified by a Market Participant, so, in order for the corrected TPDs to be implemented in MDD by 02 September, an Additional MDD Publish is necessary. The updated TPDs will be implemented in the Supplier Volume Allocation Agent (SVAA) systems for use in Settlement from 02 September 2024.

If you have any queries please contact us using [Elexon Support](#).
