CONSULTATION PROFORMA

1	<p>Currently the CADL is set to 15 minutes.</p> <p>Do you agree with the proposal to change CADL to 10 minutes (or some other value) based on the analysis provided?</p> <p>Please give any additional comments.</p>	Yes	<p>From the analysis , it is clear that at 10 minutes, the CADL flagging captures less 'unintended' actions. IE the ones that are not fast reserve action.</p>
2	<p>Currently the DMAT is set to 1MWh.</p> <p>Do you agree with the proposal to change DMAT to 0.1MWh (or some other value) based on the analysis provided?</p> <p>Please give any additional comments.</p>	Yes	
3	<p>If a change to either parameter is approved, do you agree with the proposed implementation date of 1 April 2019 (or believe another date is more preferable)?</p> <p>Please give any additional comments.</p>	Yes	<p>Unless I am mistaken, these changes are simply a matter of updating a variable in the systems. IE not much if any development time required. My position is that they should then be updated as soon as possible. If April 2019 is the soonest, then so be it, but I do not see why they cannot be updated shortly after agreement.</p>
4	<p>Do you have any further comments regarding the CADL review?</p> <p>Please give any additional comments.</p>	No
