

ISG216/01 – APPROVAL OF THE DOCUMENT CHANGES FOR P367 AS PART OF THE JUNE 2019 RELEASE

MEETING NAME	ISG 216
Date of meeting	23 April 2019
Paper number	216/01
Owner/author	Damian Clough
Purpose of paper	Decision
Classification	Public
Summary	This paper invites the Imbalance Settlement Group (ISG) to approve changes to various Code Subsidiary Documents following the approval of Modification P367 as part of the June 2019 Release

1. Background

- 1.1 As a result of the government's decision to bring forward the delivery of the Capacity Market to 2017/18, Supplemental Balancing Reserve (SBR) and Demand Side Balancing Reserve (DSBR) arrangements no longer apply and have been removed from the National Grid Electricity Transmission (NGET) Licence. Ofgem confirmed to ELEXON that the Transmission Company no longer has SBR and DSBR services available to them and as such, requested that these provisions be removed from the BSC.
- 1.2 [P367' Removal of SBR and DSBR arrangements'](#) removes the SBR and DSBR arrangements from the Balancing and Settlement Code (BSC). These arrangements will be removed from the 27 June 2019 as part of the June 2019 Release of BSC Systems.
- 1.3 The BSC Panel determined that P367 was a Self-Governance Modification and should be approved at its meeting on 14 June 2018 ([BSC Panel 279](#)). In accordance with BSC Section F6.4, Parties had until 5 July 2018 to appeal the Panel's determination. No appeals were notified and so the Panel's decision is final.
- 1.4 As the ISG is the owner of BSCP18 (Corrections to Bid-Offer Acceptance Related Data), NETA Interface Definition and Design (IDD) Part 2, Settlement Administration Agent (SAA) Service Description (SD) and SAA User Requirement Specification (URS) ELEXON is presenting the amendments to these documents to the ISG for approval.

2. Configurable Item for ISG approval

Details of the changes are available for download from the ELEXON website

[June 2019 Release webpage](#)

Table 1 on the following page lists the documents amended by P367 and whether approval is sought by ISG or the Supplier Volume Allocation Group (SVG).

ISG216/01 – APPROVAL OF THE DOCUMENT CHANGES FOR P367 AS PART OF THE JUNE 2019 RELEASE

Table 1

Impact	Approving Committee	Category
BSCP18	ISG	1
NETA IDD 2 Word document Interfaces to other Service Providers	ISG	1
SAA SD	ISG	2
SAA URS	ISG	2
BSCP502	SVG	1
BSCP503	SVG	1
BSCP504	SVG	1
BSCP505	SVG	1
BSCP508	SVG	1
SVA Data Catalogue Volume 1: Data Interfaces	SVG	1
SVA Data Catalogue Volume 2: Data Items	SVG	1
EAC/AA Logical Data Design	SVG	2
EAC/AA URS	SVG	2

3. Industry Consultation

- 3.1 We published all the amended documents except for the EAC/AA Logical Data Design on the [June 2019 Release webpage](#) and invited the industry to review them via a [Release Circular](#).
- 3.2 The EAC/AA Logical Data Design is a software document that had one reference to DSB removed without any impact to the Industry. If the SVG believes it is necessary to consult the Industry, we will do so before requesting its approval.
- 3.3 We received no comments following the consultation.
- 3.4 The amended documents are now ready for approval by the ISG.

4. Recommendations

- 4.1 We invite you to:
- APPROVE** the changes to the documents listed as for ISG approval in table 1 for the June 2019 BSC Release.
