

## Headline Report

Meeting name	<b>Imbalance Settlement Group</b>	Purpose of paper	<b>Information</b>
Meeting number	<b>235 (via Teleconference)</b>	Classification	<b>Public</b>
Date and time	<b>3 November 2020 11:00</b>		
Synopsis	<b>This report sets out the headlines and key decisions taken at the November 2020 meeting of the Imbalance Settlement Group (ISG235).</b>		

## Open Session

### 1. **Application for a Non-Standard BM Unit for Whitelee 1 Battery Energy Storage Scheme – (ISG235/01)**

- 1.1 Scottish Power Renewables (UK) Limited has applied for a non-standard BM Unit for the Whitelee 1 Battery Energy Storage Scheme (BESS). We invite the ISG to approve the application.
- 1.2 The ISG:
  - a) **APPROVED** a single non-standard BM Unit for the Whitelee 1 BESS.

### 2. **IDNO Site Specific LLF Calculation Process – (ISG235/04)**

- 2.1 Following up on the request from an Embedded LDSO who has decided to calculate their own Site Specific LLFs this year, timeline within BSCP128 might require a minor change from LLF Audit point of view taking into account IDNOs work flow processes.
- 2.2 The ISG:
  - a) **DEFERRED** a decision on the audit method outlined in the paper for next year's submissions although **NOTED** that the Site Specific Calculation Model will be audited this year by applying Host LDSO process.
