Confidentiality

This form with contact and Authorised Signatory details removed, associated diagrams and BSC Panel documents will routinely be made available in the public domain unless the applicant informs BSCCo otherwise at the time of application	
Request for Confidentiality /NO	*Delete as applicable
If 'YES', what is confidential?	
Confidential¹?	Yes/No (if only part then indicate which part)
Application form	
Diagrams	
BSC Panel Documents	
Justification for requesting confidentiality:	

Site Details

Primary BM Unit Id(s) (if known):	T_WBURB-41, T_WBURB-43
Primary BM Unit Name(s) (Max 30 Characters):	West Burton B Battery
NGC BM Unit Id(s) (if known and applicable):	WBURB-41, WBURB-43

¹ BSCCo will publish all Panel determinations, though for confidential papers the details will be anonymised. BSCCo is required to keep a list of all Non-Standard BM Unit determinations which must be made available to any Party upon request.

Application:

Why are you applying for a Non-Standard Primary BM Unit (please tick)	
The Plant and Apparatus does not fall into one of the standard categories in K3.1.4	Y
The Plant and Apparatus does fall into one of the standard categories in K3.1.4 but a different configuration satisfies the requirements for Primary BM Units in K3.1.2	
The Plant and Apparatus Exports or Imports are at a CVA Boundary Point at which there are other Exports or Imports for which another person is responsible (the Plant and Apparatus may or may not be of a Standard Primary BM Unit configuration)	
<p>Description of Non-Standard Primary BM Unit configuration</p> <p><i>An "Application for non-standard BM Units for West Burton Battery" was raised on the 11 September 2017. This was approved until 31st December 2021.</i></p> <p><i>Original letter attached to this application.</i></p>	
<p>Please provide electrical single line diagram(s) of the Plant and Apparatus included in the Non-Standard (and any Standard) Primary BM Unit(s) to support your application. The diagrams need to clearly show the location of the Metering Equipment, in particular the Settlement Current and Voltage Transformers (CTs/VTs) and CT/VT ratios, all existing Boundary Points and any System Connection Points at or near the proposed Boundary Point(s) and which items of Plant and Apparatus comprise which Non-Standard (and any Standard) Primary BM Unit(s).</p> <p>List of electrical single line diagrams attached and description of Plant and Apparatus covered by each diagram.</p>	

Rationale

<p>Rationale with reference to BSC Section K3.1 for the request for the Non-Standard Primary BM Unit:</p> <p><i>The current arrangements end on the 31st December 2021. This was the time we expected a balancing services contract with National Grid ESO to expire.</i></p> <p><i>The four-year contract commenced 38 days later than expected so we require an extension to the current arrangements until the 8th February 2022.</i></p> <p>From the 9th February 2022 we are not applying for any further non-standard exemptions.</p>
