

GENERIC METERING DISPENSATION CONSULTATION PROFORMA

All BSC Parties are invited to respond to this consultation, expressing their views or providing any further evidence on any of the matters contained within the consultation document. Parties are invited to supply the rationale for their responses to the set of questions.

Please send your responses by 5.00pm on Friday 13 May 2022 to dispensations@elexon.co.uk and please title your email 'Generic Metering Dispensation Consultation'. Please note that any responses received after the deadline may not receive due consideration by the Imbalance Settlement Group and/or Supplier Volume Allocation Group.

Any queries on the content of the consultation pro-forma should be addressed to BSC Helpdesk on 0870 010 6950, or to dispensations@elexon.co.uk.

Respondent:	
Company Name:	Northern Powergrid
No. of BSC Parties Represented	<i>1</i>
Parties Represented	<i>Northern Powergrid</i>
Role of Respondent	<i>Distributor</i>
We intend to publish the consultation responses on the ELEXON website. Do you agree to this response being published on the ELEXON website? [Y/N]	<i>Y</i>

GENERIC METERING DISPENSATION CONSULTATION PROFORMA

Q	Question	Response ¹	Rationale
1.	Do you agree that the proposed Metering Dispensation D/544 should be granted on a temporary basis for a period of 18 months.	Yes	
2.	Please provide your reasoning for the answer given in question 1 of this consultation	Yes	It should allow sufficient time for existing stock to be used up and to amend supply contracts for the change to CT specification.

GENERIC METERING DISPENSATION CONSULTATION PROFORMA

Q	Question	Response ¹	Rationale
1.	Do you agree that the proposed Metering Dispensation D/544 should be granted on a temporary basis for a period of 18 months.	Yes	If there are MEMs that have Class 2 meters and 0.5 CT's then we see no issue in there being a dispensation in place allowing them to be of use.
2.	Please provide your reasoning for the answer given in question 1 of this consultation	Yes / No	During this time of global meter shortages we agree that to stop the use of certain pieces of equipment as they are slightly less accurate will impact customers, we are sure suppliers would welcome there being some sort of meter and CT installed rather than none.
