Amend Appendix A as follows:

APPENDIX A – INPUT/OUTPUT DATAFLOWS

A1 - CDCA Input Dataflows

Input Flow Description	Flow Received from
Meter Technical Details	MOA or Registrant
Registered Meter data	CRA
BSC Party registration of aggregation rules	Registrant
Meter readings of raw Metering System volumes	Physical Metering System
Physical Meter reading for MAR	Physical Metering System
BSC Party estimation confirmation	Registrant
Line Loss Factors/Generation scaling factors	LDSO
Metering System faults	MOA
Confirmation of Metering System Proving Test	MOA
Metering System Technical Assurance data	TAA
General communication	MOA/TAA
Settlement Calendar	SAA
Load Periods and Sample Settlement Periods	BSCCo
Demand Control Event details	BMRA
Demand Disconnection details	Transmission Company LDSO
Estimated BM Unit Demand Disconnection Volumes	BSCCo

A2 - CDCA Output Dataflows

Output Flow Description	Flow Sent to
Meter reports	Registrant (including LDSOs)
Meter reports	SAA
Aggregation reports for Meters	Registrant
MAR report	MOA Registrant
Interconnector Metered Flow	SAA
BM Unit Metered Volume	SAA
	SO
	ECVAA
Aggregated BM Unit Demand Disconnection Volume	SAA
GSP Group Take	SVAA
	SAA

© ELEXON Limited 2018

Output Flow Description	Flow Sent to
	SO
Estimation Data	Registrant
Metering System Proving Test data	MOA
Meter aggregation rules report	Registrant
Performance reports	BSCCo
Meter protocol update	MOA
Meter reports	SO
Exception reports	Registrant
Meter readings of raw Metering System volumes	Registrant
General communication	MOA/TAA
Metering system Technical Assurance data	TAA
Meter Status Report	Registrant (including LDSOs)
	MOA
Meter Technical Details Report	Registrant (including LDSOs) / MOA / ~~System Operator~~Transmission Company
Metered Volume data for Sample Settlement Periods	BSCCo
MOA Proving Tests Report	BSCCo
MOA Fault Resolution Report	BSCCo
Metered Volume data	BSCCo
