**Redlined BSCP40 text for P370 'Allow the Panel to designate non-BSC Parties to raise Modifications'**

P370 proposes changes to sections 1.1, 1.2, 2.2, 3.14, 3.15, 4.8, 4.13, 4.14, and 4.15.

We have redlined these changes against Version 16.0

**There is no impact on any other part of this document for this Modification.**

**Please note that should P370 and CP1511 be approved, a minor presentational change will be needed to BSCP40 section 1.1:**

CP1511 proposes to insert '1.1.5 Draft Change Proposals and Issues'. This will need to change to '1.1.5 Draft Change Proposals ~~and Issues~~' if P370 and CP1511 are approved.

*Amend Section 1.1 as follows:*

## 1.1. Purpose and Scope of the Procedure

This BSC Procedure (BSCP):

- outlines the Change Management processes invoked to progress and implement changes to Configurable Items;
- It also defines the process for submitting Modification Proposals to make changes to the Balancing and Settlement Code[1];
- defines the process for Third Party Applicants to request designation to raise a Modification Proposal; and
- defines a pre-change process for Issues.

One of the objectives of this procedure is to maintain the integrity and robustness of the BSC, subsidiary Configurable Items and supporting products and to ensure that all changes are introduced in a controlled and auditable manner. This is achieved by:

- implementing the change management procedures within the BSC;
- assessing all proposed changes and assisting the BSC Panel and its Committees in making informed decisions;
- consulting with interested parties how work will be progressed;
- implementing new, or revisions to existing, Configurable Items; and
- producing Baseline Statements.

The Baseline Statement is a list of BSC Sections and all Configurable Items, together with the current live version. This procedure does not cover changes to associated Core Industry products or the System Operator-Transmission Owner Code (STC). However, where proposed changes to the Code or Configurable Items would result in a corresponding change to the Core Industry products or the STC BSCCo will liaise with the relevant bodies to ensure the appropriate change documentation is raised.

This procedure does not cover changes to BSC Parties' or their Agents' systems and procedures which may be necessary for participants to implement any changes that are made to the BSC or subsidiary Configurable Items. Party Agents must consider whether any potential changes would trigger the need for Re-Qualification by assessing the risk that implementing the corresponding changes within their own organisations would pose to the Balancing and Settlement arrangements as described in BSCP537.

[1] Changes to Configurable Items may be required to make them consistent with any changes to the BSC.

***Change Management of Configurable Items***

This procedure provides a standard form for raising proposals to modify Configurable Items ('Change Proposals') to ensure that all changes to Configurable Items are introduced in a controlled and auditable manner. The sections in this BSCP relating to changes to Configurable Items are derived from Section F of the BSC.

Where a Change Proposal is raised that impacts the following Configurable Items (Category 1 Configurable Items) redlined drafting of the proposed changes to the Configurable Items must be included with the Change Proposal:

- Balancing and Settlement Code Procedures (BSCPs);
- Party Service Line (PSL100);
- Codes of Practice (CoPs)
- Business Definition Documents (encompassing Data Catalogues, the Reporting Catalogue, the Communication Requirements Document) (BDDs);
- Interface Design Documents[2] (IDDs); and
- Description of physical interfaces in Settlement Software Documentation.

Where a Change Proposal does not impact Category 1 Configurable Items, the redlined changes required to support the solution need not be provided at the same time as the formal Change Proposal. All other Configurable Items, including the following, will be known as Category 2 Configurable Items:

- Service Descriptions
- SVA software documentation; and
- User Requirements Specifications.[3]

Change Proposals raised against the Market Index Definition Statement (MIDS) will be progressed in accordance with the process detailed in Section 3.10.

This procedure also contains standard forms for raising Draft Change Proposals to allow participants to comment on or discuss a particular issue and solution prior to a Change Proposal being raised. ~~If the originator believes that raising an Issue would be a more appropriate medium for a change they should do so in accordance with Section F of the BSC Code and follow the relevant guidance published on the BSC Website.~~

~~Where a Party feels that it has an issue, but is unsure of how or whether to progress the concern, it may present the issue to the Panel Committees in order to seek guidance. The Panel Committees would then advise on any possible solution to the concern and how best to resolve the problem, e.g. raise a Draft CP for discussion by a Working Group. Please note that the ability to use this process to address issues does not affect the Issues process as defined in Section F of the BSC. In no way does this optional process remove the right of any applicable Party from raising a Draft or Formal CP. An 'issue' form can be found in Section 4.7 and,~~

[2] Due to necessary design and development work that must be undertaken before the IDD can be produced this document will be drafted by the BSC Agent to reflect the solution as described in the CP.
[3] Note that this is not an exhaustive list of Category 2 Configurable Items and should be treated as being for illustrative purposes only.

~~once completed, should be submitted to BSCCo so that it may be added to the applicable agenda for the relevant Panel Committee.~~

Change Proposal Circulars (CPC) will be used to communicate all change management information relating to Configurable Items to BSC Parties and their Agents throughout the process. BSCCo will endeavour to publish all CPCs on the BSC Website.

Parties and their Qualified Agents may nominate individuals within their organisations to register as BCAs and PACAs respectively, to interface with BSCCo on all matters relating to changes to Configurable Items. Please see section 3.11 of this procedure for more information on the registration process.

*Submission of Modification Proposals*

This procedure additionally provides for the submission of proposals to modify the BSC ('Modification Proposals') to ensure that all Modification Proposals are introduced in a controlled and auditable manner. The section relating to Modification Proposals within this procedure is derived from Section F of the BSC. Section F contains the rules pertaining to modification of the BSC (the 'Modification Procedures') and the procedures and timescales by which Modification Proposals are progressed. The provisions concerning general email communications from BSCCo to Parties are contained in Section H of the BSC.

All interested parties, as listed in Section F of the BSC, may register (or be registered by BSCCo) to receive by email communications which support the Modification Procedures and fulfil BSCCo's obligations in accordance with Section F of the BSC, by providing relevant contact details to BSCCo.

To raise a Modification Proposal, Parties must complete a Modification Proposal form. BSCCo must publish the Modification Proposal form template on the BSC Website for use by Parties. Guidelines for completing this form are contained within the form itself.

*Submission of Issues*

Where a Party or interested third party feels that it has an issue, problem, defect or improvement with the BSC arrangements, but is unsure of how or whether to progress the concern, or wants to explore the solution options an, Issue should be raised. This pre-change process shall assist in the framing of issue(s)/defect(s) and possible CPs or Modifications. Parties, interested third parties (including bodies representative of interested third parties and Party Agents) and BSCCo, may raise an Issue in accordance with section 3.15 below.

Panel Committees may be consulted by the proposer of the Issue in order to seek guidance. The Panel Committees would then advise on any possible solution to the concern and how best to resolve the problem, e.g. to raise a Change Proposal, or form an Issue Group.

Issue Groups shall adhere to the Issue Group Terms of Reference, which shall be set and maintained by the Panel and published on the BSC Website.

Unless an Issue is withdrawn by the proposer, an Issue Report shall be presented to the Panel following the assessment and discussion of the Issue.

*Amend Section 1.2 as follows:*
