## Summary

Yes	No	Neutral/No Comment	Other
1	0	0	0

## Responses

Respondent	Response	Rationale
ScottishPower Energy Management Limited	Yes	We agree that P386 should be implemented to ensure that the BSC legal text is aligned with, and accurately reflects, the intent of the original P344 arrangements as approved and recommended for implementation by the BSC Panel and as determined by Ofgem.

Question 2: Do you agree with the Panel that the redlined changes to the BSC deliver the intention of P386?

### Summary

Yes	No	Neutral/No Comment	Other

## Question 3: Do you agree with the Panel's recommended Implementation Date?

### Summary

Yes	No	Neutral/No Comment	Other
1	0	0	0

### Responses

Respondent	Response	Rationale
ScottishPower Energy Management Limited	Yes	We agree that P386 should be implemented on 7 November 2019 as part of the November 2019 BSC Release as this will ensure that these clarifications and corrections will be effective prior to the TERRE product go-live and the P344 BSC obligations becoming active.

Question 4: Do you agree with the Panel's initial view that P386 should be treated as a Self-Governance Modification?

## Summary

Yes	No	Neutral/No Comment	Other
1	0	0	0

## Responses

Respondent	Response	Rationale
ScottishPower Energy Management Limited	Yes	We agree that this Modification does not require any changes to the solution ELEXON is implementing, and therefore we do not anticipate it to have a material impact on market participants. For those reasons we do not believe it will have a material impact on the self-governance criteria and as such it is appropriate that it should be processed via the self-governance route.
