Initial Written Assessment

'Allow notices via email where currently prohibited'

This Modification will allow notices that the BSC currently requires to be sent by post or fax to be sent by email. Due to the COVID-19 pandemic, it is not currently practical to use post or fax. More generally, it is now accepted and more efficient to send notices via email.

ELEXON recommends the Panel raises the attached Modification Proposal in accordance with the provisions of Section F 'Modification Procedures' F2.1.1(d)(i).

ELEXON recommends this Modification is progressed directly to the Report Phase with an initial recommendation to approve

This Modification is expected to impact:

- All BSC Parties; and
- ELEXON.

About This Document

This document is a recommendation to the BSC Panel to raise a Modification Proposal (Attachment A) in accordance with BSC Section F 2.1.1(d)(i).

ELEXON will present this paper to the Panel at its meeting on 9 April 2020. If the Panel agree to raise the Modification Proposal, this document will form its Initial Written Assessment (IWA), and the Proposal Form will be updated and published on the ELEXON website accordingly. The Panel will consider the recommendations, and agree how to progress this Modification

There are three parts to this document:

- This is the main document. It provides details of the Modification Proposal, an assessment of the potential impacts and a recommendation of how the Modification should progress.
- Attachment A contains the Modification Proposal Form.
- Attachment B contains the BSC draft legal text to deliver this Modification.

Version 1.0

Page 2 of 24

1 Summary

What is the issue?

BSC Section H paragraph 9.2.5 does not permit certain specific notices between ELEXON and Parties (as detailed in Appendix 1) to be sent solely by email. To be deemed as officially received and actionable, the BSC requires these notices to be sent by post or fax. However, the existing requirement to send hard copies of these notices is not practical during the COVID-19 pandemic and risks notices being delayed, missed, un-actioned or challenged.

What is the proposed solution?

Delete all the existing exceptions listed in H9.2.5, which currently prohibit the sole use of email for certain specified notices (see Appendix 1). This will give the sender of these notices the choice whether to use email, post or fax, subject to any other express provision in any relevant BSC Procedure (BSCP). This will therefore align them with the existing provisions for all other BSC notices.

Aside from the immediate practicalities of the COVID-19 lockdown, we believes that restricting these notices to post or fax is unnecessary. We propose that this should therefore be an enduring change to the BSC rules rather than a limited contingency provision.

Impacts

This Modification will impact ELEXON as well as any Party or Party Applicant that is required to send or receive a notice that is not currently permitted via email. It may require ELEXON and Parties to change processes and documentation.

Implementation

It is proposed to implement this Modification as soon as possible, to minimise any risks of missed/un-actioned postal notices or any possible challenge to use of email notices during the COVID-19 pandemic. If progressed as a Self-Governance Modification Proposal, we recommend this Modification is implemented the day after the end of the Self-Governance window. Alternatively, if sent to Ofgem for decision, we recommend implementation five Working Days after Ofgem decision.

Recommendation

We recommend the Panel raise this Proposal and submit it directly to the Report Phase as a Self-Governance Modification Proposal, as the solution is self-evident and arguably also of an inconsequential nature. Allowing notices to be sent by email is standard business practice and in line with industry practices.

2 Why Change?

What is the issue?

BSC Section H 'General' paragraph 9.2.5 does not permit certain specific notices between ELEXON and Parties (as detailed in appendix 1) to be sent solely by email. To be deemed as officially received and effective, the BSC requires these notices to be sent by post or fax. However, the existing requirement to send hard copies of these notices is not practical during the COVID-19 pandemic for the reasons given below:

- ELEXON's office is currently closed until further notice, limiting its ability to receive
 post (or faxes, although fax is now rarely, if ever, used as a communication
 medium under the BSC);
- Similarly, BSC Parties may be unable, or have reduced ability, to receive post (or faxes) where staff are working from home, operations are reduced and/or offices are closed;
- Royal Mail has indicated potential reductions in postal services levels, impacting
 the BSC's rule that notices sent by first-class post are deemed to have been
 received two days after sending; and
- Although the health risk of spreading COVID-19 by posting items may be small, the <u>Government</u> notes that using alternative communication methods will minimise the need for members of the public or the postal workforce to travel unnecessarily. The Government also notes that potential disruption to the post service may reduce the practicality of sending time-critical formal documents by post.

In 2005, <u>P159 'Extending the scope of e-mail communications under the Code'</u> introduced the existing list of notices in H9.2.5 that cannot be sent solely by email and must be sent by post or fax. For all other notices under the BSC, P159 introduced the ability for the sender to use email as an alternative to the previously-recognised mechanisms of post or fax. In the 15 years since P159 was implemented, email has become a widely-accepted communication method for formal notices.

Version 1.0

Page 4 of 24

3 Solution

Desired outcomes

To help make the sending of formal BSC notices quicker and more efficient (and ensure that they can be seen and actioned) during the COVID-19 pandemic, we therefore propose to remove the existing H9.2.5 restrictions on use of email for the notices specified in appendix 1.

More generally, and aside from the immediate practicalities of the COVID-19 lockdown, we believe that restricting these notices to post or fax is unnecessary. We propose that this should therefore be an enduring change to the BSC rules rather than a limited contingency provision.

Proposed solution

Delete all the existing exceptions to use of email listed in paragraph H9.2.5, which currently prohibit the sole use of email for certain specified notices (see Appendix 1). This will give the sender of these notices the choice whether to use email, post or fax, subject to any other express provision in any relevant BSCP. This will therefore align them with the existing provisions for all other BSC notices.

ELEXON has confirmed that there is no reason in principle why the notices listed in H9.2.5 cannot be sent by email. Electronic signatures or electronically-scanned letters are legally acceptable where notices need to be signed (and there are no other specified requirements to the contrary). Where the notice is a BSCP form that requires an Authorised Signatory, the existing rules in BSCP38 'Authorisations' for authenticating email forms will apply.

We note that there may be some practicalities to overcome with one of the existing H9.2.5 exceptions, which relates to the indemnities that ELEXON provides to Panel Members in the form of a deed. This is because the signing of these indemnities by ELEXON (even if electronic) should be physically witnessed to ensure they are valid executed (although the position on this may shift further towards remote witnessing in light of the current pandemic).

However, ELEXON believes that the flexibility to use email for these (in addition to the existing options of using post or fax) would still be beneficial. ELEXON notes that other industries are also currently having to explore alternatives to physical witnessing during the lockdown, for example for signed mortgage deeds, which may result in the further development of the law to allow for remote/electronic witnessing.

Benefits

This Proposal will:

- Modernise the available communication methods for all notices under the BSC;
- Enable the benefits of email (e.g. speed of communication, reduced use of paper) to apply to all notices; and
- Mitigate the immediate practical issues posed by having to send hard-copy communications during the COVID-19 pandemic.

301/06

Initial Written Assessment

7 April 2020

Version 1.0

Page 5 of 24

Applicable BSC Objectives

Allowing the option to use email for all BSC notices will better facilitate BSC Applicable Objective (d). It will not only remove issues with sending hard copies during the COVID-19 pandemic, but will enable the other benefits of email for these communications.

Implementation approach

It is proposed to implement this Modification as soon as possible so that the risk of non-complaince or missed notices during the COVID-19 pandemic is minimised.

ELEXON recommends an Implementation Date for this Modification of:

- 8 June 2020, if progressed as a Self-Goverance Modifiation Proposal, we recommend this Modification is implemented the day after the end of the Self-Governance window; alternatively,
- if sent to Ofgem for decision, the we recommend implementation five Working Days after Ofgem decision.

What are the Applicable BSC Objectives?

- (a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence
- (b) The efficient, economic and coordinated operation of the National Electricity Transmission System
- (c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity
- (d) Promoting efficiency in the implementation of the balancing and settlement arrangements
- (e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]
- (f) Implementing and administrating the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation
- (g) Compliance with the Transmission Losses Principle

Next steps

Self-Governance

It's proposed that this Modification Proposal is determined by the BSC Panel and not Ofgem. ELEXON maintains that this Proposal, whilst amending the Code's governance procedures, does not constitute a material change. It is proposed to allow the use of email, which is a common form of business communication, and does not require a Party to use the new methods to send notices, unless it wants to, nor does it amend the substance of any notices required.

Progression Route

We recommend that this Modification is submitted directly to the Report Phase, as the solution is self-evident and arguably also of an inconsequential nature. Allowing notices to be sent by email is standard business practice and in line with industry practices.

Urgent considerations

It was considered whether to request this Proposal be treated as an Urgent Modification Proposal on the grounds the current COVID-19 issue means that Parties, including ELEXON, may not be able to comply with the BSC provision to send certain notices by post or fax. The two main affected notices are Accession Agreements and Default Notices, which the BSC does not currently permit to be sent solely by email. Default Notices are currently being sent via post by the Funds Administration Agent (and via email). Accession Agreements are permitted under UK law to be signed, scanned and emailed, but the BSC currently prevents sole use of email for these.

We believe it is important to consult industry on this Proposal. Therefore the timescales between an Urgent Modification and a straight to Report Phase Modification are comparable, as illustrated below. There is an 11 Working Day difference between the two proposed timetables.

Further Change

Further Modifications will be required to Section A to align it with changes to Section H, for clarity, in respect of Accession Agreements. This will ensure there are no discrepancies between the two Sections. It will also remove the need for certified copies of Accession Agreements (which will align more closely with current practice) to be sent via post/fax.

However, as Section A of the Code will form part of the conditionally approved terms and conditions for electricity balancing under <u>Commission Regulation (EU) 2017/2195</u> establishing a guideline for electricity balancing (Electricity Balancing Guideline (EBGL)), Modifications to that section must comply with EBGL amendment requirements, including a one month consultation, and cannot be made before the terms and conditions and P392 come into effect (as there is currently no compliant BSC process to amend EBGL terms and conditions). ELEXON therefore believe it sensible to progress this change now, which will address the more immediate non-compliance risks and raise a subsequent Modification to align Section A and H. The scope of the subsequent Modification could be expanded to

What is the Self-Governance Criteria?

A Modification that, if implemented:

(a) is unlikely to have a material effect on: (i) existing or future electricity consumers; and (ii) competition in the generation, distribution, or supply of electricity or any commercial activities connected with the generation, distribution, or supply of electricity; (iii) the operation of the national electricity transmission system; and (iv) matters relating to sustainable development, safety or security of supply, or the management of market or network emergencies; and (v) the Code's governance procedures or modification procedures; and

(b) is unlikely to discriminate between different classes of Parties.

5 Likely Costs and Impacts

Costs

ELEXON will be required to implement the new legal text and update internal processes. The central implementation costs will be approximately £500, two ELEXON working days of effort.

Impacts

This is a document only change and will not impact BSC Systems.

Impact on BSC Parties and Party Agents		
Party/Party Agent	Potential Impact	
BSC Parties/ Party Applicants	This Modification will impact any Party or Party Applicant that is required to send or receive a notice that is not currently permitted via email. It may require Parties to change processes and documentation to recognise the new ability to send or receive these notices by email.	

Impact on Transmission Company

Like Parties, this Modification will impact National Electricity Transmission System Operator (NETSO) as it is required to send or receive a notice that is not currently permitted via email.

Impact on BSCCo		
Area of ELEXON	Potential Impact	
Operational teams	ELEXON will be required to make the corresponding adjustments to its processes and LWIs.	

Impact on BSC Settlement Risks

We do not envisage any impact on BSC Settlement Risks arising from this Modification

Impact on BSC Systems and processes

No impacts identified.

Impact on BSC Agent/s	service provide	er contractual	arrangements
-----------------------	-----------------	----------------	--------------

No impacts identified.

6 Recommendations

We invite the Panel to:

- RAISE the Modification Proposal in Attachment A in accordance with F2.1.1(d)(i);
- AGREE that this Modification should progress directly to the Report Phase;
- AGREE that this Modification:
 - DOES better facilitate Applicable BSC Objective (d);
- AGREE an initial recommendation that this Modification should be approved;
- AGREE an initial Implementation Date of:
 - 8 June 2020 as a Standalone BSC Release;
- AGREE the draft legal text;
- AGREE an initial view that this Modification should be treated as a Self-Governance Modification; and
- NOTE that ELEXON will issue the draft Modification Report (including the draft BSC legal text) for a 12 Working Day consultation and will present the results to the Panel at its meeting on 14 May 2020.

Paragraph	Description of communication	Code Provision
F1.1.4		'If the NETSO is notified by the Authority that the Authority does not intend to direct the NETSO to make a modification following submission of a Modification Report pursuant to paragraph 2.7.6, the NETSO shall notify the Modification Secretary and the Modification Secretary shall notify each of the persons referred to in paragraph 1.1.2(b) accordingly.'
F1.7.2	NETSO's notification to BSCCo that the Authority has directed it to assume responsibility for the BSC Modification Procedures.	'The NETSO shall notify the Modification Secretary as soon as possible after receipt of any direction referred to in paragraph 1.7.1 and the Modification Secretary shall copy such direction forthwith to: (a) each Party; (b) each Panel Member; (c) the Authority; (d) each BSC Agent; and (e) where the Modification Proposal or Approved Modification affects a Core Industry Document and/or the System Operator- Transmission Owner Code, the relevant Core Industry document Owner and/or the STC Committee respectively.'
F2.1.6		'The Modification Secretary shall notify the Proposer if the Panel refuses to accept the submission of a proposal pursuant to paragraph 2.1.4.'
F2.4.6(b)	Workgroup member's release letter from their employer to BSCCo.	'Prior to establishing the composition of a Workgroup: (b) with the exception of a member appointed pursuant to paragraph 2.4.5(a), where the proposed member is employed, he shall provide to the Modification Secretary a letter from his employer agreeing that he may act as a member of a Workgroup, and that the requirements of paragraph 2.4.9 shall prevail over his duties as an employee.'

Default notices from BSCCo to Parties.

3*.1.1*

For the purposes of this paragraph 3, there shall have occurred a "Default" in relation to a Party (the "Defaulting Party") in any of the following events or circumstances:

(a) where, in respect of the Defaulting
Party's liability for amounts in respect of
Trading Charges and in relation to any
amount which has become due for payment
by the Defaulting Party under the Code in
respect thereof:

[...]

(ii) on or after the due date for payment BSCCo has given notice to the Defaulting Party requiring payment of such amount; and

3.1.1(b)(ii)

where, in respect of the Defaulting Party's liability for any sums under the Code other than Trading Charges and in relation to any amount which has become due for payment by the Defaulting Party under the Code in respect thereof:

- (i) the Defaulting Party has not paid the amount in full on the due date for payment; and
- (ii) on or after the due date for payment BSCCo has given notice to the Defaulting Party requiring payment of such amount; and

3.1.1(d)(iii)

- d) where:
- (i) the Defaulting Party is in breach of any material provision of the Code (other than a provision which is the subject of paragraphs
- (a), (b) or (c) above); and
- (ii) the breach is capable of remedy by the Defaulting Party; and
- (iii) BSCCo has given notice (making reference to this paragraph 3) of such breach to the Defaulting Party; and

3.1.1(d)(iv)(2)

- (iv) within 14 days (or such longer period as the Panel may approve) after BSCCo's notice under paragraph (iii), the Defaulting Party does not either:
- (1) remedy the breach in all material respects, where the breach is capable of remedy within such period; or
- (2) where the breach is not so capable of
