Timetable		 <i>0207 380 4118</i>
The Proposer recommends the following timetable:		Other:
Initial Written Assessment	09/04/2020	
Report Phase Consultation (14WDs)	15/04/2020 - 30/04/2020	
Draft Modification Report presented to Panel	14/05/2020	
Final Modification Report published [Self-Governance]	18/05/2020	

1 Why Change?

What is the issue?

BSC Section H paragraph 9.2.5 does not permit certain specific notices between ELEXON and Parties, (as detailed in Appendix 1) to be sent solely by email. To be deemed as officially received and actionable, the BSC requires these notices to be sent by post or fax. However, the existing requirement to send hard copies of these notices is not practical during the COVID-19 pandemic for the reasons given below:

- ELEXON's office is currently closed until further notice, limiting its ability to receive post (or faxes, although fax is now rarely if ever used as a communication medium under the BSC);
- Similarly, BSC Parties may be unable, or have reduced ability, to receive post (or faxes) where staff are working from home, operations are reduced and/or offices are closed;
- [Royal Mail](#) has indicated potential reductions in postal services levels, impacting the BSC's rule that notices sent by first-class post are deemed to have been received two days after sending; and
- Although the health risk of spreading COVID-19 by posting items may be small, the [Government](#) notes that using alternative communication methods will minimise the need for members of the public or the postal workforce to travel unnecessarily. The Government also notes that potential disruption to the post service may reduce the practicality of sending time-critical formal documents by post.

In 2005, [P159 'Extending the scope of e-mail communications under the Code'](#) introduced the existing list of notices in H9.2.5 that cannot be sent solely by email and must be sent by post or fax. For all other notices under the BSC, P159 introduced the ability for the sender to use email as an alternative to the previously-recognised mechanisms of post or fax. In the 15 years since P159 was implemented, email has become a widely-accepted communication method for formal notices.

Desired outcomes

To help make the sending of formal BSC notices quicker and more efficient (and ensure that they can be seen and actioned) during the COVID-19 pandemic, we therefore propose to remove the existing H9.2.5 restrictions on use of email for the notices specified in appendix 1.

More generally, and aside from the immediate practicalities of the COVID-19 lockdown, we believe that restricting these notices to post or fax is unnecessary. We propose that this should therefore be an enduring change to the BSC rules rather than a limited contingency provision.

2 Solution

Proposed Solution

Delete Section H paragraph 9.2.5, which currently prohibits the sole use of email for certain specified notices (see appendix 1). This will give the sender of these notices the choice whether to use email, post or fax, subject to any other express provision in any relevant BSC Procedure (BSCP). This will therefore align them with the existing provisions for all other BSC notices.

ELEXON has confirmed that there is no reason in principle why the notices listed in H9.2.5 cannot be sent by email. Electronic signatures or electronically-scanned letters are legally acceptable where notices need to be signed. Where the notice is a BSCP form that requires an Authorised Signatory, the existing rules in BSCP38 'Authorisations' for authenticating email forms will apply.

We note that there may be some practicalities to overcome with one of the existing H9.2.5 exceptions, which relates to the indemnities that ELEXON provides to Panel Members in the form of a deed. This is because the signing of these indemnities by ELEXON (even if electronic) needs to be physically witnessed. However, ELEXON believes that the flexibility to use email for these (in addition to the existing options of using post or fax) would therefore still be beneficial.

Benefits

This Proposal will:

- Modernise the available communication methods for all notices under the BSC;
- Enable the benefits of email (e.g. speed of communication, reduced use of paper) to apply to all notices; and
- Mitigate the immediate practical issues posed by having to send hard-copy communications during the COVID-19 pandemic.

3 Relevant Objectives

Impact of the Modification on the Relevant Objectives:	
Relevant Objective	Identified impact
a) The efficient discharge by the Transmission Company of the obligations imposed upon it by the Transmission Licence	Neutral
(b) The efficient, economic and co-ordinated operation of the National Electricity Transmission System	Neutral
(c) Promoting effective competition in the generation and supply of electricity and (so far as consistent therewith) promoting such competition in the sale and purchase of electricity	Neutral
(d) Promoting efficiency in the implementation of the balancing and settlement arrangements	Positive
(e) Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency [for the Co-operation of Energy Regulators]	Neutral
(f) Implementing and administrating the arrangements for the operation of contracts for difference and arrangements that facilitate the operation of a capacity market pursuant to EMR legislation	Neutral
(g) Compliance with the Transmission Losses Principle	Neutral

Allowing the option to use email for all BSC notices will better facilitate BSC Applicable Objective (d). It will not only remove issues with sending hard copies during the COVID-19 pandemic, but will enable the other benefits of email for these communications.

4 Potential Impacts

Impacts on Core Industry Documents

Impacted Core Industry Documents			
<input type="checkbox"/> Ancillary Services Document	<input type="checkbox"/> Connection and Use of System Code	<input type="checkbox"/> Data Transfer Services Agreement	<input type="checkbox"/> Use of Interconnector Agreement
<input type="checkbox"/> Master Registration Agreement	<input type="checkbox"/> Distribution Connection and Use of System Agreement	<input type="checkbox"/> System Operator Transmission Owner Code	<input type="checkbox"/> Supplemental Agreements
<input type="checkbox"/> Distribution Code	<input type="checkbox"/> Grid Code	<input type="checkbox"/> Transmission License	<input type="checkbox"/> Other (please specify)

None identified.

Impacts on BSC Systems

Impacted Systems				
<input type="checkbox"/> CRA	<input type="checkbox"/> CDCA	<input type="checkbox"/> PARMS	<input type="checkbox"/> SAA	<input type="checkbox"/> BMRS
<input type="checkbox"/> EAC/AA	<input type="checkbox"/> FAA	<input type="checkbox"/> TAAMT	<input type="checkbox"/> NHHDA	<input type="checkbox"/> SVAA
<input type="checkbox"/> ECVAA	<input type="checkbox"/> ECVAA Web Service	<input type="checkbox"/> ELEXON Portal	<input type="checkbox"/> Other (Please specify)	

None identified.

Impacts on BSC Parties

Impacted Parties			
<input checked="" type="checkbox"/> Supplier	<input checked="" type="checkbox"/> Interconnector User	<input checked="" type="checkbox"/> Non Physical Trader	<input checked="" type="checkbox"/> Generator
<input checked="" type="checkbox"/> Licensed Distribution System Operator	<input checked="" type="checkbox"/> National Electricity Transmission System Operator	<input checked="" type="checkbox"/> Virtual Lead Party	<input type="checkbox"/> Other (Please specify)

This Modification will impact any Party or Party Applicant that is required to send or receive a notice that is not currently permitted via email. It may require Parties to change processes and documentation.

Legal Text Changes

The proposed changes to the BSC can be found in Attachment A. Changes are required to BSC Section H.

This Proposal also impacts the BSCPs listed below. This is because these BSCPs mirror the BSC restriction on use of email for specific communications and will need to be updated to add email as an

available medium within the process step tables. ELEXON is currently drafting the changes to these BSCPs for inclusion in the industry consultation.

The following BSCPs will need updating:

- [BSCP38 'Authorisations'](#)
- [BSCP11 'Trading Disputes'](#)
- [BSCP40 'Change Management'](#)
- [BSCP65 'Registration of Parties and Exit Procedures'](#)
- [BSCP301 'Clearing, Invoicing and Payment'](#)

5 Governance

Self-Governance

<input type="checkbox"/> Not Self-Governance – A Modification that, if implemented materially impacts:	
<input type="checkbox"/> the Code's governance or modification procedures	<input type="checkbox"/> sustainable development, safety or security of supply, or management of market or network emergencies
<input type="checkbox"/> competition	<input type="checkbox"/> existing or future electricity consumers
<input type="checkbox"/> the operation of national electricity Transmission System	<input type="checkbox"/> likely to discriminate between different classes of Parties
<input checked="" type="checkbox"/> Self-Governance – A Modification that, if implemented:	
Does not materially impact on any of the Self-Governance criteria provided above	

It's proposed that this Modification proposal is determined by the BSC Panel and not Ofgem. The Proposer maintains that this Proposal, whilst amending the Code's governance procedures, does not constitute a material change. It is proposed to utilise email, which is a common form of business communication, and does not require a Party to use the new methods to send notices, unless it wants to, nor does it amend any notices.

Progression route

<input type="checkbox"/> Submit to assessment by a Workgroup – A Modification Proposal which:	
does not meet any criteria to progress via any other route.	
<input checked="" type="checkbox"/> Direct to Report Phase – A Modification Proposal whose solution is typically:	
<input type="checkbox"/> of a minor or inconsequential nature	<input checked="" type="checkbox"/> deemed self-evident
<input type="checkbox"/> Fast Track Self-Governance – A Modification Proposal which meets the Self-Governance Criteria and:	
is required to correct an error in the Code as a result of a factual change including but not limited to:	
<input type="checkbox"/> updating names or addresses listed in the Code	<input type="checkbox"/> correcting minor typographical errors
<input type="checkbox"/> correcting formatting and consistency errors, such as paragraph numbering	<input type="checkbox"/> updating out of date references to other documents or paragraphs

Urgent – A Modification Proposal which is linked to an imminent issue or current issue that if not urgently addressed may cause:

a significant commercial impact on Parties, Consumers or stakeholder(s)

a Party to be in breach of any relevant legal requirements.

a significant impact on the safety and security of the electricity and/or gas systems

The Proposer recommends that this Modification is submitted directly to the Report Phase, as the solution is self-evident and arguably also of an inconsequential nature. Allowing notices to be sent by email is standard business practice and in line with industry practices.

It was considered whether to request this Proposal be treated as an Urgent Modification Proposal on the grounds the current COVID-19 issue means that Parties, including ELEXON, may not be able to comply with the BSC provision to send certain notices by post or fax. The two main affected notices are Accession Agreements and Default Notices, which the BSC does not currently permit to be sent solely by email. Default Notices are currently being sent via post by the Funds Administration Agent (and via email). Accession Agreements are permitted under UK law to be signed, scanned and emailed, but the BSC currently prevents sole use of email for these. The Proposer believes it is important to consult industry on this Proposal. Therefore the timescales are comparable to a straight to Report Phase Mod as illustrated below, there is an 11 Working Day difference between the two proposed timetables.

Urgent Modification with consultation*	Straight to Report Phase Modification
IWA – 9 April 2020	IWA – 9 April 2020
Ofgem consider Urgency	-
Consultation - 15 Apr to 30 Apr (12WDs)	15 Apr to 30 Apr (12WDs) - Report Phase Consultation
5 May – Urgent Panel meeting to consider Draft Modification Report	14 May - Draft Modification Report
6 May - Final Modification Report	18 May - Final Modification Report
Ofgem decision	15 May to 5 Jun - Self-Governance Appeal Window
5WDs after Ofgem decision - Implementation Date	8 Jun - Implementation Date

* Assumes Ofgem grant urgency and determine Modification

Does this modification impact a Significant Code Review (SCR) or other significant industry change projects, if so, how?

The Proposer does not believe this Modification impacts any of the open SCRs and therefore requests this Modification to be treated as an SCR Exempt Modification Proposal.

Does this modification impact on end consumers or the environment?

No direct impacts on consumers have been identified. There are some potential environmental benefits from removing the need to send notices via post, but the Proposer notes that the use of email also has a carbon footprint.

Implementation approach

It is proposed to implement this Modification as soon as possible so that the risk of non-compliance or missed notices during the COVID-19 pandemic is minimised. If progressed as a Self-Governance Modification Proposal, the Proposer requests this Modification is implemented the day after the end of the Self-Governance window. Alternatively, if sent to Ofgem for decision, the Proposer requests implementation five Working Days after Ofgem decision.

6 Appendix 1: Section H9.2.5 references

The below table shows the paragraphs referenced in Section H9.2.5. Column 2 is a summary of the notice/communication description and column 3 contains the text from the code.

Section H9.2.5 references		
Paragraph	Description of communication	Code Provision
A2.2.3(b)	Parties' submission of Accession Agreement.	<p><i>'Upon receipt by BSCCo of an Accession Agreement duly executed by a Party Applicant, BSCCo shall promptly:</i></p> <p><i>[...]</i></p> <p><i>(b)send a certified copy of such Accession Agreement, duly executed by the Party Applicant and BSCCo, to the Party Applicant'</i></p>
A2.3.2(a)	NETSO execution of Accession Agreement.	<p><i>'If BSCCo fails to comply with paragraph 2.3.1 and the Authority directs the NETSO to admit the Party Applicant as a party to the Framework Agreement pursuant to the Transmission Licence:</i></p> <p><i>(a) subject to paragraph 2.2.5, the NETSO shall prepare an Accession Agreement to admit such Party Applicant and shall, on behalf of all Parties, execute and deliver such Accession Agreement, duly executed by the Party Applicant, and provide a copy to BSCCo (to enable it to comply with paragraphs 2.2.3(b) and (c));'</i></p>
