Summary	Ellexon informs the Panel of the results of the recent audit of the calculation of Funding Shares for year ending 31 March 2020, as part of the BSC Audit.		

1. Background

- 1.1 Funding Shares are the mechanism whereby the costs of operating the Balancing and Settlement Code (BSC) procedures are shared between Trading Parties existing in that market.
- 1.2 The basis for calculating these shares is set out in Section D of the BSC. In summary, they are calculated each month based on the best information available at the time of calculation. A reconciliation exercise is performed at the end of each year based on the final version of the source data. Reconciling bills and credits are then issued as necessary.
