OPEN SESSION - Decision Papers

1. CP Progression Paper - 'Clarification on the Site Specific Line Loss Factor Calculation Process for Embedded Licensed Distribution System Operators' (ISG243/01)

1.1 This document provided information on new Change Proposal (CP) and outlined our proposed progression timetable for this change, including when it will be issued for CP Consultation in the next suitable Change Proposal Circular (CPC) batch.

1.2 This CP proposes to make changes to [BSCP128 'Production, Submission, Audit and Approval of Line Loss Factors'](#) to provide more clarity for Embedded LDSOs calculating site specific LLFs. This includes clarification that standard submission deadlines for all LDSOs will apply to Embedded LDSOs that choose to calculate Site Specific LLFs, and that Settlement data from a 12-month period is required.

The ISG:

- a) **NOTED** the proposed progression timetable for CP;
- b) **PROVIDED** any comments or additional questions for inclusion in the CP Consultation; and
- c) **NOTED** that the CP was **APPROVED** by the SVG on 6 July 2021
