## 1. Introduction

- 1.1. Updates to Market Domain Data (MDD) are made through monthly releases. ELEXON progresses MDD changes in accordance with [BSCP Procedure \(BSCP\) 509 'Changes to Market Domain Data'](#).

### General Change Request process

- 1.2. BSCP509 requires that General MDD Change Requests undergo validation by ELEXON, and impact assessment by the Supplier Volume Allocation Agent (SVAA) and Market Participants, before we present them to the SVG for decision. Unmetered Supplies (UMS) Charge Codes are initially reviewed by the UMS User Group (UMSUG) in accordance with [BSCP520 'Unmetered Supplies'](#), and also go out for Market Participant impact assessment before coming to the SVG. We collate all comments received through the impact assessment and include them in this paper to assist the SVG in making a decision on each change.

### Fast Track Change Request process

- 1.3. BSCP509 contains a Fast Track process for housekeeping changes and new participant registrations. These still undergo ELEXON validation and SVAA impact assessment. However, BSCP509 does not require Fast Track changes to be issued for Market Participant impact assessment or to be approved by the SVG. This means that they can be submitted later in the monthly process than General Change Requests, and that we present them to the SVG for information rather than approval.
- 1.4. New Party Agents and existing Licensed Distribution System Operators (LDSOs) registering in a GSP Group must have their Qualification approved by the Performance Assurance Board (PAB) before registering in MDD. However, they can submit their Fast Track Change Request before the PAB meeting for the next MDD version to go live after the PAB's decision. Should the PAB not approve the Qualification application, ELEXON will refuse the MDD Change Request. New Suppliers and new LDSOs do not require PAB approval of their Qualification before registering in MDD, and new Suppliers need not have obtained their Supply Licence.

## 2. This month's changes

- 2.1 This paper includes one General MDD change and 11 Fast Track MDD changes to be incorporated into MDD 274 with a go-live date of 17 October 2018.
