

SVG213/01 – MDD CHANGE REQUESTS FOR VERSION 275

MEETING NAME	SVG 213
---------------------	---------

Date of meeting	30 October 2018
------------------------	-----------------

Paper number	213/01
---------------------	--------

Owner/author	Josh Kalsi
---------------------	------------

Purpose of paper	Decision
-------------------------	----------

Classification	Public
-----------------------	--------

Summary	This paper invites the Supplier Volume Allocation Group (SVG) to approve 11 General Change Requests, and note 10 Fast Track Change Requests, for implementation in Version 275 of Market Domain Data (MDD) with a go-live date of 14 November 2018.
----------------	---

1. Introduction

- 1.1. Updates to Market Domain Data (MDD) are made through monthly releases. ELEXON progresses MDD changes in accordance with [BSC Procedure \(BSCP\) 509 'Changes to Market Domain Data'](#).

General Change Request process

- 1.2. BSCP509 requires that General MDD Change Requests undergo validation by ELEXON, and impact assessment by the Supplier Volume Allocation Agent (SVAA) and Market Participants, before we present them to the SVG for decision. Unmetered Supplies (UMS) Charge Codes are initially reviewed by the UMS User Group (UMSUG) in accordance with [BSCP520 'Unmetered Supplies'](#), and also go out for Market Participant impact assessment before coming to the SVG. We collate all comments received through the impact assessment and include them in this paper to assist the SVG in making a decision on each change.

Fast Track Change Request process

- 1.3. BSCP509 contains a Fast Track process for housekeeping changes and new participant registrations. These still undergo ELEXON validation and SVAA impact assessment. However, BSCP509 does not require Fast Track changes to be issued for Market Participant impact assessment or to be approved by the SVG. This means that they can be submitted later in the monthly process than General Change Requests, and that we present them to the SVG for information rather than approval.
- 1.4. New Party Agents and existing Licensed Distribution System Operators (LDSOs) registering in a GSP Group must have their Qualification approved by the Performance Assurance Board (PAB) before registering in MDD. However, they can submit their Fast Track Change Request before the PAB meeting for the next MDD version to go live after the PAB's decision. Should the PAB not approve the Qualification application, ELEXON will refuse the MDD Change Request. New Suppliers and new LDSOs do not require PAB approval of their Qualification before registering in MDD, and new Suppliers need not have obtained their Supply Licence.

2. This month's changes

- 2.1 This paper includes 11 General MDD changes and 10 Fast Track MDD changes to be incorporated into MDD 275 with a go-live date of 14 November 2018.

General Change Requests

- 2.2 The table below provides an overview of this month's General Change Requests.

SVG213/01 – MDD CHANGE REQUESTS FOR VERSION 275

CR no.	MPID	Role Code	Details of Change Request	MP IA response
M3188	EELC	R	Creation of new LLFCs, and new valid HH & NHH Combinations <i>Effective from Date: 14/11/2018</i>	N
M3189	HARL	R	End dating of existing NHH Combinations <i>Effective to Date: 31/03/2019 (this is the effective to date for these LLFC changes – the change will still be implemented in MDD 275 on 14/11/2018)</i>	N
M3190	HYDE	R	End dating of existing HH Combinations <i>Effective to Date: 14/11/2018</i> Creation of new valid HH Combinations <i>Effective from Date: 15/11/2018</i>	N
M3191	LENG	R	Creation of new MTC LLFC SSC Combinations, and new MTC LLFC SSC PC Combinations <i>Effective from Date: 14/11/2018</i>	N
M3192	NEEB	R	End dating of existing LLFCs and MTC LLFC Combinations <i>Effective to Date: 31/03/2019 (this is the effective to date for these LLFC changes – the change will still be implemented in MDD 275 on 14/11/2018)</i> Changes to LLFC Descriptions <i>Effective from Date: 14/11/2018</i>	N
M3193	SEEB	R	Creation of new LLFCs and MTC LLFC Combinations <i>Effective From Date: 01/04/2019 (this is the effective from date for these LLFC changes – the change will still be implemented in MDD 275 on 14/11/2018)</i>	N
M3194	SOUT	R	Creation of new LLFCs and MTC LLFC Combinations <i>Effective from Date: 14/11/2018</i>	N
M3195	UDNL	R	Creation of new MTC LLFC Combinations and new MTC in PES area <i>Effective from Date: 14/11/2018</i>	N
M3196	YELG	R	End dating of existing LLFCs and MTC LLFC Combinations <i>Effective to Date: 31/03/2019 (this is the effective to date for these LLFC changes – the change will still be implemented in MDD 275 on 14/11/2018)</i>	N
M3197	PENL	R	Creation of new LLFCs, and new valid HH & NHH Combinations <i>Effective from Date: 14/11/2018</i>	Y
M3198	ELEXON	-	Inclusion of Charge Codes and Switch Regimes <i>Effective from Date: 14/11/2018</i>	N

SVG213/01 – MDD CHANGE REQUESTS FOR VERSION 275

N = No Market Participant comments have been made regarding the change

Y = Market Participant comments have been made regarding the change

Market Participant Impact Assessment comments on General Change Requests

- 2.3 During the impact assessment, a Market Participant asked why Profile Class (PC) 5-8 combinations are still being created in volume, as these sites should now be settled Half Hourly (HH). The Market Participant recognised that some PC 8 combinations are required for export meters, but is not sure that any new combinations for import metering will be used, especially given other BSC Parties are starting to end date these.
- 2.4 The Market Participant also highlighted that some other LDSOs have no PC 4 combinations. They believe that this is restricting consumer choice for non-domestic customers who require Economy 7 heating or other configurations that are supported by PC 4.
- 2.5 The Market Participant previously made the same comments during the impact assessment for MDD270 (see SVG paper [209/01](#)) and MDD273 (See SVG paper [211/01](#)). ELEXON has reiterated that we have no oversight over whether the PC combinations registered by LDSOs are the correct ones for the customers connected to their networks. A resolution to this would be to set up every possible PC combination for every LDSO, but this would result in MDD data that may never be used. In the above scenario, ELEXON believes it is more likely that a non-domestic Economy 7 customer is assigned to an incorrect PC / combination (resulting in less accurate Settlement) rather than being restricted in their choice of switched load. A Supplier can raise an MDD Change Request to register a new PC 4 combination by liaising with the LDSO. Longer term, the intention of Market-wide HH Settlement (part of Ofgem's Significant Code Review on Electricity Settlement Reform) is to replace the current profiling arrangements, including PCs, altogether.

Fast Track Change Requests

- 2.6 The table below provides an overview of this month's Fast Track Change Requests.

CR no.	MPID	Role Code	Details of Change Request
M3199	EDFE	1,2,8	Change of Name for Market Participant Role '1','2','8' <i>Effective from Date: 14/11/2018</i>
M3200	ELEXON	-	Registration of Additional BM Units for CFD Assets <i>Effective from Date: 14/11/2018</i>
M3201	ELEXON	-	Registration of Additional BM Units for CFD Assets <i>Effective from Date: 14/11/2018</i>
M3202	LOND	0,6,B,D,E,H,M,V,X	Change of Name for Market Participant Role '0','6','B','D','E','H','M','V','X' Change of Address to Market Participant Role 'V' <i>Effective from Date: 14/11/2018</i>
M3203	LOND	R	Change of Line Loss Factor Class Descriptions <i>Effective from Date: 14/11/2018</i>
M3204	NMSL	M	Change of Address for Market Participant Role 'M', <i>Effective from Date: 14/11/2018</i>

3. Line Loss Factor validations

There are three Change Requests for MDD 275 which request the opening of new LLF Classes (LLFCs) to be effective from 14 November 2018. The relevant LDSOs have submitted their D0265 files ('Line Loss Factor Data Files') for their Mid-Year Submissions. The following table provides further details.

CR no.	LDSO	No. of new LLFCs	MS Specific LLF Class Indicator(s)
M3188	EELC	41	B,D
M3194	SOUT	51	A,B,D
M3197	PENL	76	A

A General LLFC for Import Active Energy B MS Specific LLFC for Import Active Energy D MS Specific LLFC for Export Active Energy

- 3.1 ELEXON has validated the D0265 files to ensure that the structure of the files and the submitted LLF values comply with the audit scope of Section 3.5 of [BSCP128 'Production, Submission, Audit and Approval of Line Loss Factors'](#). The submitted D0265 files have passed validation.
- 3.2 There is one Change Request for MDD 275 which requests the opening of new LLFCs to be effective from 1 April 2019 as part of their Annual Submission. The LDSOs will submit their D0265s closer to the Effective From Date of 1 April 2019. The following table provides further details:

CR no.	LDSO	No. of new LLFCs	MS Specific LLF Class Indicator(s)
M3193	SEEB	19	B,D

B MS Specific LLFC for Import Active Energy D MS Specific LLFC for Export Active Energy

4. Recommendations

4.1 ELEXON invites the SVG to:

- a) **APPROVE** the 11 General Change Requests for implementation in MDD 275 with a go-live date of 14 November 2018;
- b) **NOTE** the 10 Fast Track Change Requests for implementation in MDD 275 with a go-live date of 14 November 2018;
- c) **APPROVE** the proposed LLFCs for three LDSOs for use in Settlement from 14 November 2018; and
- d) **APPROVE** the proposed LLFCs for one LDSO for use in Settlement from 1 April 2019.

APPENDIX 1 – FAST TRACK SUBMISSIONS CRITERIA

Fast Track Change Requests
Green Deal Market Participant IDs
New Entrants (into MDD)
LLFC Description Changes
Additional BM Unit registration of existing Suppliers
Base Calendar & Scottish Day Types Annual Update
SVAA Annual Clear down
Market Participant Name Change
Market Participant Address Change
Market Participant Name and Address Change
