Summary	This paper invites the Supplier Volume Allocation Group (SVG) to approve five General Change Requests, and note 19 Fast Track Change Requests, for implementation in Version 279 of Market Domain Data (MDD) with a go-live date of 20 February 2019.
----------------	---

1. Introduction

- 1.1 Updates to Market Domain Data (MDD) are made through monthly releases. ELEXON progresses MDD changes in accordance with [BSC Procedure \(BSCP\) 509 'Changes to Market Domain Data'](#).

General Change Request process

- 1.2 BSCP509 requires that General MDD Change Requests undergo validation by ELEXON, and impact assessment by the Supplier Volume Allocation Agent (SVAA) and Market Participants, before we present them to the SVG for decision. Unmetered Supplies (UMS) Charge Codes are initially reviewed by the UMS User Group (UMSUG) in accordance with [BSCP520 'Unmetered Supplies'](#), and also go out for Market Participant impact assessment before coming to the SVG. We collate all comments received through the impact assessment and include them in this paper to assist the SVG in making a decision on each change.

Fast Track Change Request process

- 1.3 BSCP509 contains a Fast Track process for housekeeping changes and new participant registrations. These still undergo ELEXON validation and SVAA impact assessment. However, BSCP509 does not require Fast Track changes to be issued for Market Participant impact assessment or to be approved by the SVG. This means that they can be submitted later in the monthly process than General Change Requests, and that we present them to the SVG for information rather than approval.
- 1.4 New Party Agents and existing Licensed Distribution System Operators (LDSOs) registering in a GSP Group must have their Qualification approved by the Performance Assurance Board (PAB) before registering in MDD. However, they can submit their Fast Track Change Request before the PAB meeting for the next MDD version to go live after the PAB's decision. Should the PAB not approve the Qualification application, ELEXON will refuse the MDD Change Request. New Suppliers and new LDSOs do not require PAB approval of their Qualification before registering in MDD, and new Suppliers need not have obtained their Supply Licence.

2. This month's changes

- 2.1 This paper includes five General MDD changes and 19 Fast Track MDD changes to be incorporated into MDD 279 with a go-live date of 20 February 2019.

3. Line Loss Factor validations

- 3.1 There is one Change Request for MDD 279 which requests the opening of new LLF Classes (LLFCs) to be effective from 20 February 2019. The relevant LDSO has submitted their D0265 file ('Line Loss Factor Data File') for their Mid-Year Submission. The following table provides further details.

CR no.	LDSO	No. of new LLFCs	MS Specific LLF Class Indicator(s)
M3255	PENL	76	A

A General LLFC for Import Active Energy

- 3.2 ELEXON has validated the D0265 file to ensure that the structure of the file and the submitted LLF values comply with the audit scope of Section 3.5 of [BSCP128 'Production, Submission, Audit and Approval of Line Loss Factors'](#). The submitted D0265 file has passed validation.

4. Extra MDD Version 278

- 4.1 The SVG approved MDD Version 277 at its meeting on 8 January 2019, which was published on 16 January 2019 with a go-live date of 23 January 2019. This version contained a file error due to the inclusion of three erroneous GSP Group Ids in the Average Fraction of Yearly Consumption (AFYC) Set, and the inclusion of 13 erroneous Line Loss Factor Classes (LLFCs), which affected the successful loading of this file for some Participants. Full details were communicated to Participants in MDD Circulars [MDD00652](#) and [MDD00653](#).
- 4.2 To resolve this, we published an additional Version 278 on 21 January 2019 with a go-live date of 23 January 2019. Therefore this month's regular MDD release has incremented to Version 279. An updated [MDD Release schedule](#) was also published.

5. Recommendations

- 5.1 ELEXON invites the SVG to:
- a) **APPROVE** the five General Change Requests for implementation in MDD 279 with a go-live date of 20 February 2019;
 - b) **NOTE** the 19 Fast Track Change Requests for implementation in MDD 279 with a go-live date of 20 February 2019; and
 - c) **APPROVE** the proposed LLFCs for one LDSO for use in Settlement from 20 February 2019.
