APPROVAL OF THE DOCUMENT CHANGES FOR P367 AS PART OF THE JUNE 2019 BSC RELEASE

MEETING NAME	SVG 219

Date of meeting	7 May 2019
Paper number	219/02
Owner/author	Damian Clough
Purpose of paper	Decision
Classification	Public
Summary	This paper invites the Supplier Volume Allocation Group (SVG) to approve changes to various Code Subsidiary Documents following the approval of Modification P367 as part of the June 2019 BSC Release.

1.   Background

1.1   As a result of the government's decision to bring forward the delivery of the Capacity Market to 2017/18, Supplemental Balancing Reserve (SBR) and Demand Side Balancing Reserve (DSBR) arrangements no longer apply and have been removed from the National Grid Electricity Transmission (NGET) Licence. Ofgem confirmed to ELEXON that the Transmission Company no longer has SBR and DSBR services available to it and as such, requested that these provisions be removed from the BSC.

1.2   P367' Removal of SBR and DSBR arrangements' removes the SBR and DSBR arrangements from the Balancing and Settlement Code (BSC). These arrangements will be removed from the 27 June 2019 as part of the June 2019 Release of BSC Systems.

1.3   The BSC Panel determined that P367 was a Self-Governance Modification and should be approved at its meeting on 14 June 2018 (BSC Panel 279). In accordance with BSC Section F6.4, Parties had until 5 July 2018 to appeal the Panel's determination. No appeals were notified and so the Panel's decision is final.

1.4   As the SVG is the owner of BSCP502, BSCP503, BSCP504, BSCP505, BSCP508, SVA Data Catalogues 1 & 2 and EAC/AA URS (User Requirements Specification) ELEXON is presenting the amendments to these documents to the SVG for approval.

2.   Configurable Item for SVG approval

2.1   Details of the changes are available for download from the ELEXON website at the following link: June 2019 Release webpage.

2.2   Table 1 on the following page lists the documents amended by P367 and whether approval is sought by ISG or SVG.

ELEXON

APPROVAL OF THE DOCUMENT CHANGES FOR P367 AS PART OF THE JUNE 2019 BSC RELEASE

Table 1

Impact	Approving Committee	Category
BSCP18	ISG	1
NETA IDD 2 Word document Interfaces to other Service Providers	ISG	1
SAA SD	ISG	2
SAA URS	ISG	2
BSCP502	SVG	1
BSCP503	SVG	1
BSCP504	SVG	1
BSCP505	SVG	1
BSCP508	SVG	1
SVA Data Catalogue Volume 1: Data Interfaces	SVG	1
SVA Data Catalogue Volume 2: Data Items	SVG	1
EAC/AA Logical Data Design	SVG	2
EAC/AA URS	SVG	2

3. Industry Consultation

3.1 We published all the amended documents except the EAC/AA Logical Data Design on the June 2019 Release webpage and invited the industry to review them via a Release Circular. We received no comments following the consultation.

3.2 The EAC/AA Logical Data Design is a software document that had one reference to DSBR removed without any impact to the Industry. We sent this out separately for industry review via a Release Circular on 15 April 2019. At the point of writing, we have not received any comments.

3.3 The review period finishes on 30 April 2019. We will provide update to the SVG of any comments received during the meeting.

4. Recommendations

4.1 We invite you to:

    a) **APPROVE** the changes to the documents listed as for SVG approval in table 1 for the June 2019 BSC Release.
