

4.3 CP Form

Change Proposal – BSCP40/02	CP No: <i>Version No:</i> <i>(mandatory by BSCCo)</i>
Title (mandatory by originator) Changes to BSC Configurable Items for the TERRE Final Implementation Date	
Description of Problem/Issue (mandatory by originator) The changes to BSC Section H2.5 for Approved Modification P344 'Project TERRE implementation into GB market arrangements' , set out two implementation dates: <ul style="list-style-type: none"> • The P344 Relevant Implementation Date, which was 28 February 2019 as part of the February 2019 ; and • The P344 Final Implementation Date, defined as the date specified in the P344 Final Implementation Date Notice. <p>On the Relevant Implementation Date, all Sections of the Balancing and Settlement Code (BSC) and BSC Configurable Items (CIs) where the solution was known and so could be amended, became effective.</p> <p>Under Section H2.5.1, changes to BSCP603 (and, if necessary, a revised BSCP602) will become effective on the P344 Final Implementation Date, which has yet to be notified by the National Electricity Transmission System Operator (NETSO). These changes will be attributed to “P344” in the Amendment Record.</p> <p>However, there are several BSC CIs that need to be amended to give effect to the full TERRE solution that could not be developed in time to become effective on 28 February 2019, or which should only become effective on the TERRE Final Implementation Date. These BSC CIs cannot be attributed to “P344” in the Amendment Record, as they are not covered by H2.5.1(c). As a result, a separate Change Proposal is required.</p> <p>See below for a lists of the impacted Category 1 and Category 2 BSC Configurable Items.</p>	
Proposed Solution (mandatory by originator) Amend BSCP01 to include TERRE processes in the overview of Trading Arrangements; Amend BSCP18 to include the process for Corrections to TERRE Acceptances; Amend the Communications Requirements Document to describe how VLPs should send and receive TERRE information; Amend the CVA Data Catalogue to include the relevant changes to NETA IDD Part 1; Amend the Reporting Catalogue to capture the relevant changes to Section V for TERRE; Amend the NETA IDD Part 1 Document and Spreadsheet to show:	

- the amended structure of the SAA-I014, sub-flow 1, Settlement Report for BSC Parties;
- the structure of the new sub-flow 4 of the SAA-I014, Settlement Report, for Virtual Lead Parties;
- the amended data sent to BSC systems by the NETSO; and
- the new and amended Valid Sets, Flow Roles, Groups and Data Items used by the new and amended data flows in both the NETA IDD Part 1 Spreadsheet and the NETA IDD Part 2 Spreadsheet;

Amend the NETA IDD Part 2 Document and Spreadsheet to show:

- the new structure of the SAA-I014, sub-flow 2, Settlement Report received by the NETSO and BSCCo;
- the new “Stage 2” data flows;
- the new “Internal” data flows; and
- the new Data Items used by the amended data flows in the NETA IDD Part 2 Spreadsheet

Amend all impacted Service Descriptions and User Requirements Specifications to reflect the revised service requirements and functionality for Project TERRE.

Justification for Change (mandatory by originator)

This change is required to ensure that the remaining BSC Configurable Items to deliver the intent of the P344 solution are implemented by the P344 Final Implementation Date.

To which section of the Code does the CP relate, and does the CP facilitate the current provisions of the Code? (mandatory by originator)

This CP will enable the full implementation of TERRE and the P344 legal text (various BSC Sections).

Estimated Implementation Costs (mandatory by BSCCo)

£960 to implement the necessary document changes

BSC Configurable Items Affected by Proposed Solution(s) (mandatory by originator)

The impacted Category 1 BSC CIs are:

- NETA IDD Part 1 Document and Spreadsheet
- NETA IDD Part 2 Document and Spreadsheet
- BSCP01
- BSCP18
- CVA Data Catalogue
- Reporting Catalogue

All Category 2 BSC CIs required to be implemented on the TERRE Final Implementation Date will be developed and taken through the BSC change process by ELEXON's TERRE Implementation Project.

The impacted Category 2 BSC CIs are:

- BMRA Service Description
- BSC AUDIT Service Description
- ECVAA Service Description
- FAA Service Description
- SAA Service Description
- SVAA Service Description
- BMRA User Requirements Specification
- ECVAA User Requirements Specification
- FAA User Requirements Specification
- SAA User Requirements Specification
- SVAA User Requirements Specification

Impact on Core Industry Documents or System Operator-Transmission Owner Code
(mandatory by originator)

None

Related Changes and/or BSC Releases (mandatory by BSCCo)

P344 'Project TERRE'

Requested Implementation Date (mandatory by originator)

TERRE Final Implementation Date – exact date to be confirmed via formal notification by National Grid

Reason: To ensure that all remaining BSC Configurable Items become effective on the TERRE Final Implementation Date.

Version History (mandatory by BSCCo)

Version 1.0
