Purpose of paper Decision

Classification Public

Summary This paper invites the Supplier Volume Allocation Group (SVG) to approve one General Change Request, and note 17 Fast Track Change Requests, for implementation in Version 293 of Market Domain Data (MDD) with a go-live date of 19 February 2020.

1. Introduction

1.1. Updates to Market Domain Data (MDD) are made through monthly releases. ELEXON progresses MDD changes in accordance with [BSC Procedure \(BSCP\) 509 'Changes to Market Domain Data'](#).

General Change Request process

1.2. BSCP509 requires that General MDD Change Requests undergo validation by ELEXON, and impact assessment by the Supplier Volume Allocation Agent (SVAA) and Market Participants, before being presented to the SVG for decision. Unmetered Supplies (UMS) Charge Codes are initially reviewed by the UMS User Group (UMSUG) in accordance with [BSCP520 'Unmetered Supplies'](#), and also go out for Market Participant impact assessment before being presented to the SVG. We include all comments received from the impact assessment in this paper to assist the decision making of the SVG.

Fast Track Change Request process

1.3. BSCP509 contains the Fast Track process for housekeeping changes and new participant registrations, undergoing ELEXON validation and SVAA impact assessment. However, BSCP509 does not require Fast Track changes to be issued for Market Participant impact assessment or to be approved by the SVG. This means there is a separate deadline which is later than that for General Change Requests. Therefore, Fast Track Change Requests are presented to the SVG for information only.

1.4. New Party Agents and existing Licensed Distribution System Operators (LDSOs) registering in a GSP Group must have their Qualification approved by the Performance Assurance Board (PAB) before registering in MDD. However, they can submit Fast Track Change Requests before the PAB meeting for the next MDD version to go live after the PAB has made its decision. Should the PAB not approve the Qualification application, ELEXON will refuse the MDD Change Request. New Suppliers and new LDSOs do not require PAB approval of their Qualification before registering in MDD, and new Suppliers need not have obtained their Supply Licence.

2. This month's changes

2.1 This paper includes one General MDD change and 17 Fast Track MDD changes to be incorporated into MDD version 293 with a go-live date of 19 February 2020.

3. Ex-committee MDD paper request for Large MDD publishes

3.1 ELEXON invites the Supplier Volume Allocation Group to consider approving or rejecting large MDD Change Requests ex-committee; to manage the administrative resource required for increasingly large MDD publishes. The SVAA acts as the administrator and distributor of MDD to Market Participants. Once the SVAA receives the Final Circular with the approved changes, the SVAA begin the process of incorporating the changes into the live MDD database. This process requires manual data entry and validation for all data items within the MDD Change Requests. The SVAA are looking at automating the MDD Change process, but an interim solution is required to ensure that the current process can accommodate all Market Participant requests. The interim solution of issuing the MDD Change Request paper and gaining SVG approval, or rejection, earlier than the scheduled SVG meeting date would provide more time for the SVAA to process the changes. This option would be only be used when the lines of data within the MDD Change Requests exceeds 10,000 lines.

4. Recommendations

4.1 ELEXON invites the SVG to:

- a) **APPROVE** one General Change Request for implementation in MDD 293 with a go-live date of 19 February 2020;
- b) **NOTE** the 17 Fast Track Change Requests for implementation in MDD 293 with a go-live date 19 February 2020; and

SVG228/01 – MDD CHANGE REQUESTS FOR VERSION 293

- c) **COMMENT** on ELEXON's proposed approach to consider MDD Change Requests earlier than at the scheduled SVG meeting by ex-committee, if the recommended changes exceed 10,000 lines in a given month.
