

MDD CHANGE REQUESTS FOR VERSION 317 & 318

Supplier Volume Allocation Group (SVG)

Date of meeting	2 November 2021	Paper number	249/01
Owner/author	Temitope Bashorun	Purpose of paper	Decision
Classification	Public	Document version	V1.0

Summary This paper invites the SVG to approve three General Change Requests, and note 13 Fast Track Change Requests, for implementation in Version 317 of Market Domain Data (MDD) with a go-live date of 17 November 2021. It also invites the SVG to approve two General Change Requests to support Ofgem's Targeted Charging Review (TCR), for implementation in Version 318 of MDD with a go-live date of 22 December 2021.

1. Introduction

- 1.1 Updates to Market Domain Data (MDD) are made through monthly releases. Elexon progresses MDD changes in accordance with [BSC Procedure \(BSCP\) 509 'Changes to Market Domain Data'](#).

General Change Request process

- 1.2 BSCP509 requires that General MDD Change Requests undergo validation by Elexon, and impact assessment by the Supplier Volume Allocation Agent (SVAA) and Market Participants, before being presented to the SVG for decision. Unmetered Supplies (UMS) Charge Codes are initially reviewed by the UMS User Group (UMSUG) in accordance with [BSCP520 'Unmetered Supplies'](#), and also go out for Market Participant impact assessment before being presented to the SVG. We include all comments received from the impact assessment in this paper to assist the decision making of the SVG.

Fast Track Change Request process

- 1.3 BSCP509 contains the Fast Track process for housekeeping changes and new participant registrations, which require Elexon validation and SVAA impact assessment. However, BSCP509 does not require Fast Track changes to be issued for Market Participant impact assessment or to be approved by the SVG. This means there is a separate deadline which is later than that for General Change Requests. Therefore, Fast Track Change Requests are presented to the SVG for information only.
- 1.4 New Party Agents and existing Licensed Distribution System Operators (LDSOs) registering in a GSP Group must have their Qualification approved by the Performance Assurance Board (PAB) before registering in MDD. However, they can submit Fast Track Change Requests before the PAB meeting for the next MDD Version to go live after the PAB has made its decision. Should the PAB not approve the Qualification application, Elexon will refuse the MDD Change Request. New Suppliers and new LDSOs do not require PAB approval of their Qualification before registering in MDD, and new Suppliers need not have obtained their Supply Licence.

2. BAU Changes for MDD Version 317

- 2.1 This paper includes three General MDD changes and 13 Fast Track MDD changes to be incorporated into MDD Version 317 with a go-live date of 17 November 2021.

General Change Requests

2.2 The table below provides an overview of this month's General Change Requests.

CR no.	MPID	Role Code	Details of Change Request	MP IA response
M3921	EELC	R	Creation of new HH Combinations <i>Effective From Date: 17/11/2021</i>	N
M3922	MPDL	R	Creation of new LLFCs and NHH and HH Combinations <i>Effective From Date: 17/11/2021</i>	Y
M3925	Elexon	-	Inclusion of Charge Codes and Switch Regimes <i>Effective From Date: 17/11/2021</i>	N

Role Code: R - Distributor

Market Participant Impact Assessment (MP IA) response:

N - No Market Participant comments received during the Market Participant Impact Assessment

Y - Market Participant comments received during the Market Participant Impact Assessment

MP IA responses

CR no.	MPID	MP IA response	Action taken by applicant
M3922	MPDL	<i>'M3922 creates combinations for use with Token meters but no other legacy Prepayment type especially Key meters. Whilst Token meter combinations could be required if Distributor takes over existing infrastructure this would also and probably more likely also include legacy key meters. We also feel that if a legacy Prepayment meter is replaced and it is impractical to use a DCC enrolled smart meter then that new legacy Prepayment meter would be a Key meter unless there are still geographic constraints for those meter types. However, with current data no combinations to do that exchange would exist.'</i>	The applicant has withdrawn the MTC 840 combinations for use with Token meters from MDD v317.

Fast Track Change Requests

2.3 The table below provides an overview of this month's Fast Track Change Requests.

CR no.	MPID	Role Code	Details of Change Requests
M3926	GEEX	X	Creation of new MPID, Market Participant Role Code 'X' and Base BM Units <i>Effective From Date: 17/11/2021</i>
M3927	AVRO	X	Change of Name and Address for Market Participant Role Code 'X' <i>-This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021</i>
M3928	COLO	X	Change of Name and Address for Market Participant Role Code 'X' <i>-This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021</i>
M3929	COMT	X	Change of Name and Address for Market Participant Role Code 'X' <i>-This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021</i>
M3930	INDE	X	Change of Name and Address for Market Participant Role Code 'X' <i>-This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021</i>
M3931	MISS	X	Change of Name for Market Participant Role Code 'X' <i>-This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021</i>

M3932	NEEB	X	Change of Name and Address for Market Participant Role Code 'X' -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021
M3933	PION	X	Change of Name and Address for Market Participant Role Code 'X' -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021
M3934	SYMB	X	Change of Name and Address for Market Participant Role Code 'X' -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021
M3935	VIRG	X	Change of Name and Address for Market Participant Role Code 'X' -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021
M3936	YELG	X	Change of Name and Address for Market Participant Role Code 'X' -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021
M3937	TULP	X	Change of Name and Address for Market Participant Role Code 'X' -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021
M3938	IMPO	X	Registration of Additional Supplier BM Unit Effective From Date: 24/11/2021 -This change will be implemented in MDD Version 317 with a Go-Live Date of 17/11/2021

Role Code: X - Supplier

3. BAU Line Loss Factor validations

- 3.1 There is one Change Request for MDD 317 which requests the opening of new LLFCs to be effective from 17 November 2021. The following table provides further details.

CR no.	LDSO	No. of new LLFCs	MS Specific LLF Class Indicator(s)
M3922	MPDL	994	A

A - General LLFC for Import Active Energy

- 3.2 Elexon has validated the Request Templates to ensure that the structure of the files and the submitted LLF values comply with the audit scope of Section 3.5 of [BSCP128 'Production, Submission, Audit and Approval of Line Loss Factors'](#). The submitted files have passed validation.

4. TCR Changes for MDD Version 318

- 4.1 Change Requests to support [Ofgem's Targeted Charging Review \(TCR\) Significant Code Review \(SCR\)](#) are being submitted for approval a month in advance, to facilitate the extra time required to process the large volume of TCR changes.
- 4.2 This paper includes two General TCR MDD changes to be incorporated into MDD Version 318 with a go-live date of 22 December 2021. This would add 13,029 combinations, which is well within the volume that has been tested. It will also end-date 12,189 LLFCs/combinations.
- 4.3 The table below provides an overview of the Change Requests.

CR no.	MPID	Role Code	Details of Change Request	MP IA response
M3923	FORB	R	Creation of new NHH Combinations to support the TCR Effective From Date: 22/12/2021 (These changes will be implemented in MDD Version 318)	N
M3924	LENG	R	End-dating of LLFCs and NHH and HH Combinations to support the TCR Effective To Date: 31/03/2022 (These changes will be implemented in MDD Version 318)	N

Role Code: R - Distributor

Market Participant Impact Assessment (MP IA) response:

N - No Market Participant comments received during the Market Participant Impact Assessment

Y - Market Participant comments received during the Market Participant Impact Assessment

5. Recommendations

5.1 We invite you to:

- a) **APPROVE** three General BAU Change Requests for implementation in MDD 317 with a go-live date of 17 November 2021;
- b) **NOTE** 13 Fast Track Change Requests for implementation in MDD 317 with a go-live date of 17 November 2021;
- c) **APPROVE** two General TCR Change Requests for implementation in MDD 318 with a go-live date of 22 December 2021; and
- d) **NOTE** the Market Participant Impact Assessment comment for CR M3922.

Appendices

Appendix 1 – Fast Track Submissions Criteria

Fast Track Change Requests
Green Deal Market Participant IDs
New Entrants (into MDD)
LLFC Description Changes
Additional BM Unit registration of existing Suppliers
Base Calendar & Scottish Day Types Annual Update
SVAA Annual Clear down
Market Participant Name Change
Market Participant Address Change

Attachments

Attachment A – UMS Standard Charge Codes

Attachment B – UMS Switch Regimes

Attachment C – UMS Variable Power Switch Regimes
