

## MDD CHANGE REQUESTS FOR VERSION 325

### Supplier Volume Allocation Group (SVG)

Date of meeting	<b>5 July 2022</b>	Paper number	<b>257/01</b>
Owner/author	<b>Dnieper Cruz</b>	Purpose of paper	<b>Decision</b>
Classification	<b>Public</b>	Document version	<b>V1.0</b>
Summary	<b>This paper invites the SVG to approve nine General Change Requests and note 20 Fast Track Change Requests, for implementation in Version 325 of Market Domain Data (MDD) with a go-live date of 20 July 2022.</b>		

### 1. Introduction

- 1.1 Updates to Market Domain Data (MDD) are made through monthly releases. Elexon progresses MDD changes in accordance with [BSC Procedure \(BSCP\) 509 'Changes to Market Domain Data'](#).

#### General Change Request process

- 1.2 BSCP509 requires that General MDD Change Requests undergo validation by Elexon, and impact assessment by the Supplier Volume Allocation Agent (SVAA) and Market Participants, before being presented to the SVG for decision. Unmetered Supplies (UMS) Charge Codes are initially reviewed by the UMS User Group (UMSUG) in accordance with [BSCP520 'Unmetered Supplies'](#), and also go out for Market Participant impact assessment before being presented to the SVG. We include all comments received from the impact assessment in this paper to assist the decision making of the SVG.

#### Fast Track Change Request process

- 1.3 BSCP509 contains the Fast Track process for housekeeping changes and new participant registrations, which require Elexon validation and SVAA impact assessment. However, BSCP509 does not require Fast Track changes to be issued for Market Participant impact assessment or to be approved by the SVG. This means there is a separate deadline which is later than that for General Change Requests. Therefore, Fast Track Change Requests are presented to the SVG for information only.
- 1.4 New Party Agents and existing Licensed Distribution System Operators (LDSOs) registering in a GSP Group must have their Qualification approved by the Performance Assurance Board (PAB) before registering in MDD. However, they can submit Fast Track Change Requests before the PAB meeting for the next MDD Version to go live after the PAB has made its decision. Should the PAB not approve the Qualification application, Elexon will refuse the MDD Change Request. New Suppliers and new LDSOs do not require PAB approval of their Qualification before registering in MDD, and new Suppliers need not have obtained their Supply Licence.

### 2. BAU Changes for MDD Version 323

- 2.1 This paper includes nine General MDD changes and 20 Fast Track MDD changes to be incorporated into MDD Version 325 with a go-live date of 20 July 2022.

Market Participant Impact Assessment (MP IA) response:

N - No Market Participant comments received during the Market Participant Impact Assessment

Y - Market Participant comments received during the Market Participant Impact Assessment

## Market Participant Comments

- 2.3 A Market Participant responded to the Impact Assessment and provided comments Change Request M4078. Whilst they support the intent of this change they believe that it is currently incomplete and that it can possibly be simplified. There has been ongoing communication between the Party and Elxon so try and resolve this until all parties are happy, ahead of the SVG meeting.
