<b>Date</b>	19 November 2018
<b>To</b>	BSC Parties
<b>From</b>	BSC Operations
<b>Purpose</b>	For information

---

## Planned downtime for BSC Central Systems on 27 and 28 November 2018

### What is happening?

Further to ELEXON Circular [EL02911](#), there will be a period of planned downtime on the BSC Central Systems applications from **20:57 (GMT) on Tuesday 27 November** to **09:15 (GMT) on Wednesday 28 November 2018**. This is the second of the two BSC Agent downtimes required for the implementation of the technology upgrade of the BSC Central Systems applications including the Balancing Mechanism Reporting Service (BMRS), Energy Contract Volume Aggregation Agent (ECVAA), Settlement Administration Agent (SAA), Supplier Volume Allocation Agent (SVAA), Central Data Collection Agent (CDCA) and Central Registration Agent (CRA).

### How will I be impacted?

#### **BMRS**

During the period of planned downtime, the BMRS website will not publish data via the website, the API, Data Push services and European Transparency Regulation (ETR) data will not be sent to ENTSO-e Transparency Platform. In addition users of the TIBCO service will not receive any TIBCO messages via their High Grade Communications Lines.

Although the BMRS will not be available, the [ELEXON Portal POST API interface](#) for submitting REMIT files to BMRS will still be available. Parties can continue using the **POST API** to submit REMIT data which will be available on the BMRS website once the downtime has completed.

#### **ECVAA**

The ECVAA application and ECVAA Web Service (EWS) will be impacted by the downtime and in accordance with the procedures, common submission of Energy Contract Volume Notification (ECVN) and Metered Volume Reallocation Notification (MVRN) to ECVAA will not be processed and the ECVAA Credit Cover Percentage check will also be suspended for the duration of deployment. Following completion of the downtime, the ECVAA Credit Cover Percentage check will be re-enabled and submission of ECVNs and MVRNs will be processed as normal. ECVAA reports e.g. Notifications Report, Forward Contract Report will resume after **09:15 (GMT) on 28 November 2018**.

### What do I need to do?

You will need to arrange to submit ECVNs or MVRNs before the start of the BSC Agent Downtime on **27 November 2018**; this includes ECVNs/MVRNs for the following:

- Settlement Periods 43 to 48 (inclusive) for **27 November 2018**; and
- Settlement Periods 1 to 19 (inclusive) for **28 November 2018**.

Please do this as early as possible to reduce the risk of them missing Submission Deadline. You may also wish to submit contract notifications for Settlement Period 20 on **28 November 2018**, as there is only 15 minutes between the end of the downtime and Submission Deadline for Settlement Period 20.

## CIRCULAR

---

### **Will I receive ECVAAs reports as normal?**

No, the ECVAAs Forward Contract Reports (ECVAAs-I022), scheduled to run at **22:00 (GMT)** on **27 November 2018** and **09:00 (GMT)** on **28 November 2018**, will be suspended. Instead, a single report will run after the outage at **09:30 (GMT)**.

The ECVAAs Notification Report (ECVAAs-I014), scheduled to run at **02:00 (GMT)** on **28 November 2018**, will also be suspended and will run after the outage at **10:00 (GMT)**.

### **Will the contents of any of the reports I receive be different?**

Yes, the ECVAAs Notification Report (ECVAAs-I014) for **28 November 2018** may not contain credit limit and indebtedness information for the affected Settlement Periods. Indebtedness data will be accurately reflected for Settlement Periods for which credit checking first runs in normal mode.

### **Will there be any further communications about this BSC Agent downtime?**

Yes, we will keep the ELEXON Portal updated and will publish a further Circular on **28 November 2018** when the downtime is finished.
