TYPE & NUMBER	ELEXON Circular – EL02981
--------------------------	---------------------------

Date	23 May 2019
To	BSC Parties
From	BSC Operations
Purpose	For information

Planned National Grid outage on Friday 24 May 2019

What is happening?

National Grid ESO has just informed us that there will be an outage on their systems between **01:00 and 03:00 (BST)** on **Friday 24 May 2019**.

How will I be affected?

During the outage, the Market Operation Data Interface System (MODIS) will be impacted.

MODIS sends Loss of Load Probability (LoLP), De-rated Margin (DRM), REMIT and Transparency data from National Grid to the Balancing Mechanism Reporting Service (BMRS) however, LoLP and DRM information should not be affected during this outage.

Market Participants will be unable to submit European Transparency Regulation (ETR) and REMIT data to MODIS via FTP. Submissions via GUI will not be affected but there will be a delay in receiving acknowledgements.

What do I need to do?

You do not need to take any specific action but just note the impact of the outage.

Do I need to take any further action?

No, however any BSC Parties having questions for National Grid regarding this planned outage should phone 0800 917 7111 or 0800 085 4806. Overseas callers should use +44 870 521 6121 and quote "NETA EDT".

If you have any questions regarding impact on Settlement calculations or processes then please contact bscservicedesk@cgi.com.
