Live incident affecting BMRS

What is happening?

We are currently experiencing an outage on the Balancing Mechanism Reporting Service (BMRS) since 13:00 (BST) today. The BMRS website, API, Data Push and TIBCO Service are not currently processing current data coming from National Grid.

How will I be affected?

ELEXON has suspended Settlement Calculations on BMRS and current data is not available across all endpoints. We are continuing to investigate this and will provide an update as soon as possible.

Do I need to take any further action?

No, for more information on this Circular, please email bscservicedesk@cgi.com.
