

CIRCULAR

TYPE & NUMBER	ELEXON Circular – EL03065
--------------------------	---------------------------

Date	28 October 2019
-------------	-----------------

To	BSC Parties
-----------	-------------

From	BSC Operations
-------------	----------------

Purpose	For information
----------------	-----------------

Update: Inconsistent BSAD data sent to BMRS

What is happening?

Further to ELEXON Circular [EL03064](#), National Grid ESO have identified the cause of the data issue impacting Balancing Services Adjustment Data (BSAD) data on the Balancing Mechanism Reporting Service (BMRS).

How will I be impacted?

NGESO has already applied the system fix and will start to republish the affected Settlement Periods on BMRS, currently planned for tomorrow. The accuracy of the System Prices data will be impacted until we receive the correct BSAD data, and Settlement Calculation on BMRS is re-run. A follow up circular will be published once we have further updates from NGESO.

Do I need to take any further action?

No, for more information on this Circular, please email bscservicedesk@cgi.com.
