## RESOLVED: Incident affecting Scheduled SAA Settlement Reports

### What is happening?

Further to the ELEXON Circular [EL03068](#), the incident impacting the scheduled Settlement Administration Agent (SAA) Settlement Reports (SAA-I014) has been resolved.

### How will I be impacted?

The missing SAA-I014 reports for the following Settlement Dates have been scheduled to run today and will be released tonight.

Run Type	Settlement Date
R3	29 March 2019
R3	31 March 2019

The incident was a result of a Non Half Hourly Data Aggregator (NHHDA) sending incorrect data to the Supplier Volume Allocation Agent (SVAA). We are still waiting for the NHHDA to send the correct data and we will continue to use Default Data until the correct data is received.

Additionally due to the delay in running the daily Volume Allocation Run (VAR), the SVAA will send the NHH DUoS Report (D0314) later than usual.

### Is there anything else I need to know?

Please note in ELEXON Circular EL03068, the R3 date should have been 31 March 2019.
