## RESOLVED: BMRS calculations on hold due to issue loading BOALF data

### What is happening?

Further to BSC Bulletin [323](#), the issue on the Balancing Mechanism Reporting Service (BMRS), where Bid Offer Acceptance Level Flag (BOALF) data could not be loaded and published is now resolved. The BMRS Settlement Calculations was put on hold from Settlement Period 15 today, 14 January 2020, to prevent publication of incorrect data.

### How will I be affected?

The BMRS is now loading and publishing data as usual with the exception of MIL/MEL data type; which are still being recovered at this time. All the delayed data necessary for Settlement Calculations has been recovered and published on the BMRS Website, APIs, Data Push Service and TIBCO. The Settlement Calculations for the affected Settlement Periods (15 to 23) have now been completed.

### Do I need to take any further action?

No, for more information on this Circular, please email [bscservicedesk@cqi.com](mailto:bscservicedesk@cqi.com).
