TYPE & NUMBER	ELEXON Circular – EL03147
--------------------------	---------------------------

Date	6 May 2020
To	BSC Parties
From	Market Operations
Purpose	For information/action

Update from NGESO on Inconsistent BSAD files sent to BMRS

What is happening?

Further to ELEXON Circular [EL03140](#), National Grid ESO (NGESO) has sent the following update to ELEXON and BSC Parties regarding the issue impacting Balancing Services Adjustment Data (BSAD) on the Balancing Mechanism Reporting Service (BMRS).

NGESO is working with our vendors to remediate the issues with the BSAD files. NGESO are continuing workaround activities to publish final BSAD files until a permanent fix has been implemented that will resolve the issue. A circular will be issued once this is resolved.

NGESO sends the BSAD data to the BMRS for every Settlement Period. The BMRS continues to publish the data as received and it is used in the calculation of Indicative System Prices.

How will I be impacted?

While this issue is ongoing the indicative System Prices published on BMRS may not be accurate. NGESO will ensure all final BSAD files are sent to prevent any impact on the actual System Prices calculated for Settlement.

Do I need to take any further action?

No, for more information on this Circular, please contact BSC Service Desk.
