Update on delivery of Market Domain Data (MDD) Version 304

What is happening?

Elexon has been investigating an issue with the delivery of MDD Version 304, as a number of BSC Parties and Party Agents did not receive the MDD files published on 11 November 2020 with a Go Live date of 18 November 2020. Elexon has now rectified this issue and is sending out the delayed files via the usual method.

A separate issue also occurred which meant the D0269 failed to send to a small number of Market Participants. Elexon is working with these Market Participants individually to ensure they can receive and load the required files before the Go Live date of 18 November 2020.

Is there anything else I need to know?

No, for more information please contact the [BSC Service Desk](#).
