

# SETTLEMENT

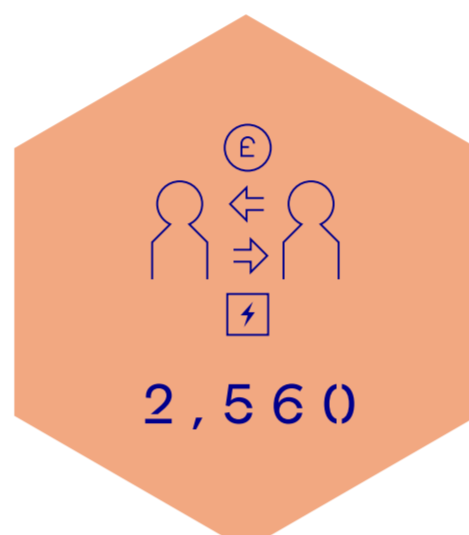

WE MANAGE ELECTRICITY SETTLEMENT, AN ESSENTIAL SERVICE WHERE IMBALANCES BETWEEN ELECTRICITY SUPPLY AND DEMAND ARE SETTLED ACCURATELY

IN 2019/20 WE

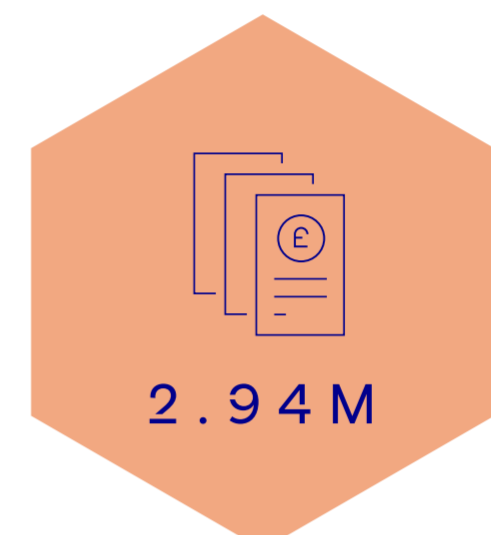

Settled around 46 Terawatt hours (TWh) in balancing actions and party's imbalance volumes

\* Balancing actions and imbalance volumes represent the net activities of parties

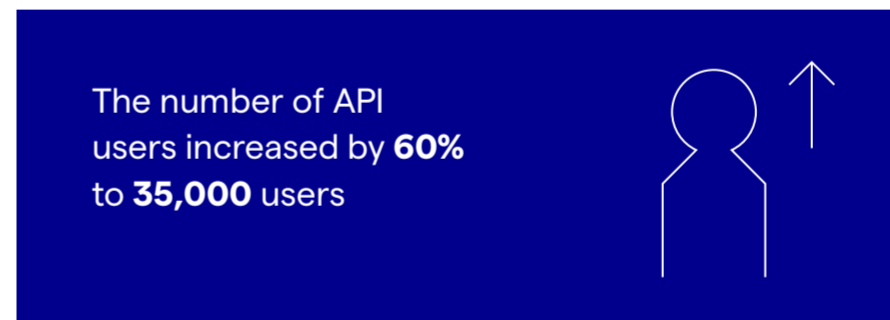

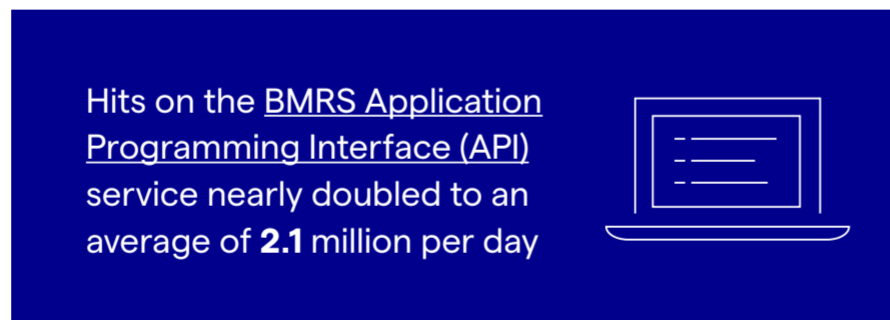

Carried out 2,560 Settlement Runs where money owed to, or by BSC Parties is paid

Managed 2.94 million Energy Contract Volume Notifications (for amounts of energy bought and sold)

Through our **Balancing Mechanism Reporting Service (BMRS)** we provide up to 10 year's worth of accessible data on the wholesale electricity market, this is free to use under our open licence.

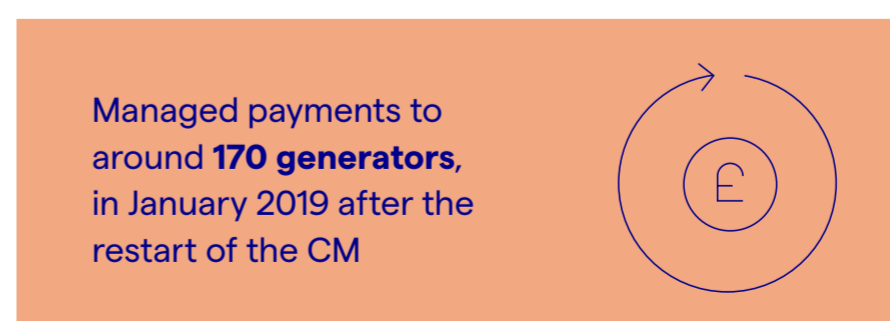

DURING 2019/20 USE OF OUR BMRS DATA CONTINUED TO GROW

We also launched a new section on our website for [open data on Settlement](#)

ELECTRICITY MARKET REFORM SETTLEMENT SERVICES

We deliver settlement services for the Capacity Market (CM) and the Contract for Difference (CfD) schemes, through our subsidiary **EMR Settlement Ltd**
